### Schoolie Flats water

As of last Friday mid morning, June 12 all documents, including the water analysis report, have been submitted to the Environmental Protection Agency for review.

That afternoon the EPA concurred with the tribes' Public Utilities Department to lift the boil water notice effective immediately.

The water/wastewater department is moving forward with seeking funding and analyzing the water system for rehabilitation work.

This could result in the the work being done in phases until completely restored with an upgraded system, including all components of the booster station and related piping.
