Thursday and Friday, July 22 and 23: Columbia River Inter-Tribal Fish Commission meeting.

Monday, July 26

10 a.m.: Cannabis proposal (executive session) with Jim Souers and the Warm Springs Ventures board of directors.

Tribes set zone 6 July fisheries

The four Columbia River tribes have set the following fishery plan, and the Columbia River Compact concurred. The plan applies to the Zone 6 commercial gillnet fishery.

The initial fishery is from the present through 6 p.m. this Thursday, July 15. The second fishery will be from 6 a.m. on Monday, July 19 to 6 p.m. on Thursday, July 22.

The gear is set- and drift gillnets with no minimum mesh size restriction. Allowable sales are as follows:

Salmon (any species), steelhead, shad, yellow perch, bass, walleye, catfish and carp may be sold or retained for subsistence. Fish landed during the open periods are allowed to be sold after the period concludes.

Sturgeon may not be sold. Sturgeon from 38 to 54 inches fork length in the Bonneville pool, and sturgeon from 43 to 54 inches fork length in The Dalles and John Day pools may be kept for subsistence purposes.

Closed areas: River mouth and closed areas applicable to gillnets in effect. The Spring Creek hatchery closed area is not in effect in the summer management period.

Tributary fisheries and fisheries downstream of Bonneville dam: Consult the Confederated Tribes of Warm Springs Branch of Natural Resources Fisheries for current regulations in these areas.

If you have any fishing enforcement problems or need assistance or information, day or night, contact the Columbia River Inter-Tribal Fisheries Enforcement Office, 541-386-6363; or toll free 800-487-FISH (34740). Carry your tribal identification.

Great quality drinking water on Mondays

The Warm Springs Economic Development-Source Global water center is open Mondays 8 a.m. to 5 p.m. Stop by and pick up a jug of Source water, or get your refill, both are free of charge.

The water comes from the solar panels located next to the water center building, located at the industrial park on Holliday Street, past the Warm Springs Ventures-Economic Development offices.

Source Global is based in Arizona. It's a public benefit corporation, creating sustainable drinking water infrastructure for communities in

At the Ventures-Source station, Mitchell Lira fills a jug for the Media Center offices.

the U.S. and around the world.

Their technology involves the 'Source field' of solar hydropanel: The

panels harness solar power to condense water from the air.

Warm Springs Economic Development and Source

offer the drinking water to the community, helping offset some of the domestic water system issues facing the tribes.

Water systems report

The most recent Confederated Tribes of Warm Springs Annual Consumer Confidence Report for the water treatment plant, and three tribal water systems, is now available. This is the annual required report of the federal Safe Drinking Water Act.

The reports are posted publicly at the Macy's Market, the Post Office, and at the administration building.

Warm Springs Utilities reminds community members to *please conserve water*. Do not leave water running and limit lawn and garden watering to ensure adequate water levels are maintained in reservoirs. Water conservation is something we can all remain focused on throughout this summer, as something we can do to help the community.
