

## TRIBAL PLANNERS REPORT continued

Have students discussed with each other problems and answers to various problems (drug alcohol, fights, learning) they may have. The tribe must be in full support of the club and show interest towards the student concerns.

Possibly high school students can help other junior high students address interest and activities on what the students would like to see. Thus make concerns aware to Indian Education coordinator and school. Identify cultural leadership such as 1. Tribal elders 2. Tribal membership 3. Cultural programs in area (if any) 4. Parent committees 5. Student who become involved in tribal meeting to let membership know what they are doing and want. 6. What is the tribes known heritage? One important step is to learn and grow with students.

### ENROLLMENT

Those applicants all ready on file with sufficient documentation to be enrolled under the new requirements of the constitution, will be presented to the Enrollment Committee in the near future.
