Subsistence Salmon Distribution

The Fish & Wildlife Department will be distributing salmon to enrolled tribal members on the dates listed below. You must present your Tribal ID card in order to pick up fish. If you are picking up fish for another tribal member you must have that persons Tribal ID card and a note giving you permission to do so. Due to problems in the past, these rules will be strictly enforced. For further information call Karen Larsen at 879-2376.

No fish will be distributed without an ID card and a note.

ELDERS ONLY:

July 24 and 25; August 21 and 22

GENERAL MEMBERSHIP:

July 26, 27 & 28; August 23, 24 & 25

Salmon will be distributed on days indicated from 8:30 a.m. to noon and 1 to 4 p.m.

Committee member needed

The Fish & Wildlife Committee is currently accepting applications to fill one position. Applicants must be knowledgeable in the tribal hunting and fishing area, and familiar with tribal and state laws. Applications can be picked up at the Tribal Fish & Wildlife department, or by calling Karen Larsen at (503)879-2376. The deadline for returning your application is August 1, 1995. Please send completed applications to: Confederated Tribes of Grand Ronde, Fish & Wildlife Department, P.O. Box 70, Willamina, OR 97396.

-- Recycling Facts --

GLASS: Every glass bottle recycled saves enough energy to light a 100-watt light bulb for four hours.

TIN CANS: In the United States our only source of tin is through import or by recycling. Tin cans are made of 99.7% steel and only .03% tin; therefore, it takes one ton of tin cans to recover 6 pounds of tin.

ALUMINUM: Recycling aluminum into new aluminum cans provides a 95% energy savings. Every aluminum can discarded is equivalent to throwing away that can half full of gas.

PLASTIC MILK JUGS: Once disposed of, plastic may NEVER decompose. Consider carefully before purchasing "disposable" plastic items. Last year, 12 billion pounds of plastic was used just for packaging.

OIL: One gallon of oil in a lake will produce a five-acre oil sheen. Every 100 gallons of recycled oil saves 65 gallons of new oil.

NEWSPAPER: Nationally, about 30% of newspapers are recycled. In Oregon this figure is 75% and this makes Oregon number one in the nation in newspaper recycling. It takes 3,688 pounds of wood, 216 pounds of lime, 360 pounds of salt cake, 16 pounds of soda ash, 24,000 gallons of water, and 28 million BTU's or energy to produce one ton of newsprint.

MAGAZINES: Magazines and other recycled papers are combined to constitute up to 40% of the content of new newspaper.

CORRUGATED CARDBOARD: Over 7% of garbage is cardboard, and it is estimated that 145 pounds of cardboard is generated each year for every person in the state. That equates to over 192,000 tons annually in Oregon.

-- Recycling Tips --

1. Buy reusable products and avoid disposables.
2. Buy, maintain, and repair durable and fixable products.
3. Reuse bags, containers, paper, boxes, and other items.
4. Select products with the most purposeful, least wasteful packaging.
5. Buy concentrated, larger sized containers, or products in bulk.
6. Buy products that can be recycled, make sure to recycle them.
7. Buy products made of recycled materials.
8. Buy nonhazardous products for use around the house.
9. Compost food and yard wastes.
10. Buy, sell, or donate used and secondary goods such as clothes, furniture, and appliances.
11. Be creative... look for opportunities to practice source reduction.

-- Recycling --

If you live in a bigger town you are most likely provided with a recycling bin as part of your garbage service. But in a small community, like Grand Ronde, we do not have that luxury. We need to take recycling seriously and put out an extra effort.

GLASS: Jars, food and beverage bottles only. Caps must be removed. Labels may be left on. Sort by color (clear, green, brown). NO broken glass, window glass, light bulbs, pyrex, ceramics or dishes.

TIN CANS: Household cans only. Remove labels, tops and bottoms. Rinse clean and flatten. NO appliances or scrap metal.

ALUMINUM: Recycle foil, TV dinner trays and aluminum cans. Rinse clean and flatten.

PLASTIC MILK JUGS: Discard lid, rinse and flatten. Do not need to remove labels. NO other plastic at this time.

OIL: Motor oil only. NO paint thinner or hazardous liquids. Pour oil into non-break containers with tight fitting caps. (Use bleach or milk jugs.)

NEWSPAPER: Lay flat. Slick ads may be recycled with the paper. Please do not mix with cardboard, paper bags, or magazines.

MAGAZINES: Must be slick, shiny, coated paper only. Catalogs are O.K. Please do not mix with newspaper.

CORRUGATED CARDBOARD: NO wire or plastic. Please do not exceed 36" length in any direction. Can recycle brown paper bags with cardboard. Waxed cardboard cannot be recycled. NO cereal boxes, milk cartons or shoe boxes.

There is a 24 hour recycling drop-off at 1850 Lafayette Ave. in McMinnville.
