

Grand Ronde Tribal Cemetery

A gravel addition to the parking area has recently been added to accommodate more parking. Plans for this summer include building an extra driveway and shelter area.

Grand Meadows Home Park

The 37-lot Tribal manufactured home park is located across from the cemetery and has a nice view of Spirit Mountain. Although it looks ready, the next step in the process is transferring the land to the Federal trust status. Anticipated move in dates are targeted for mid-summer.

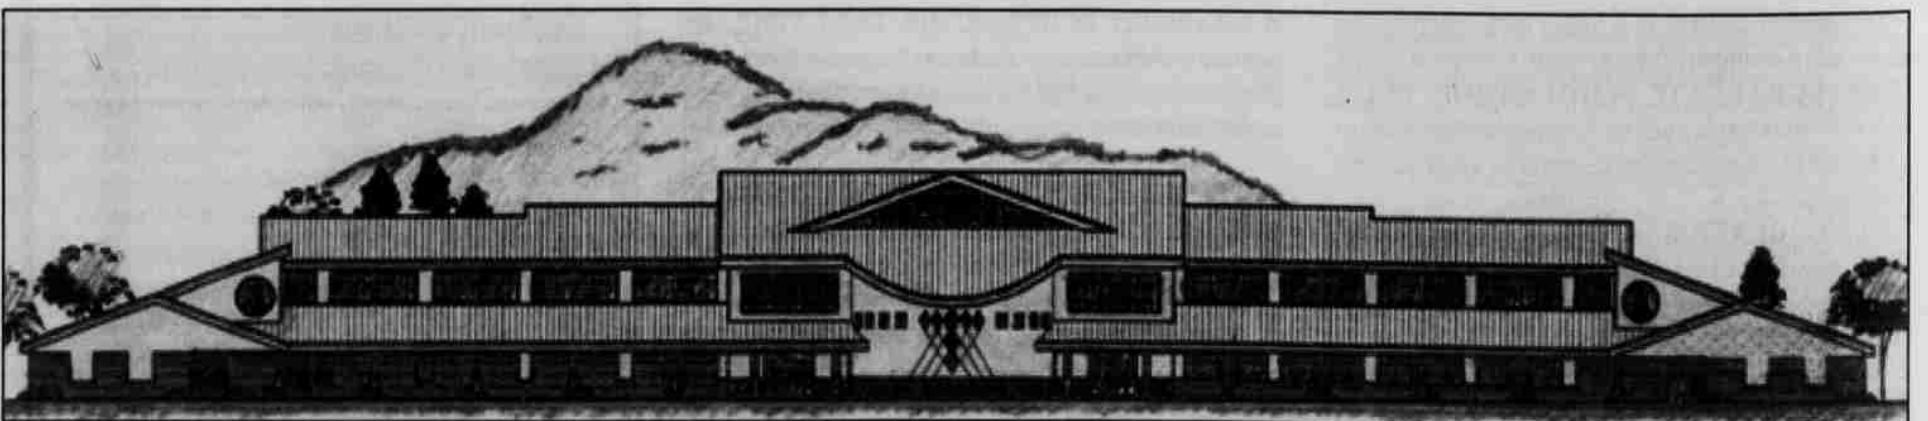

Health and Wellness Center

Construction on the new clinic was started in October of 1996, with completion aimed for mid-September 1997. Moving into the clinic space is the Medical and Dental staff, support services, Wellness, and counseling which includes alcohol/drug, mental health and vocational rehabilitation. Also occupying office space will be the Community Resources division — ICW, foster care, general and emergency assistance. New services will be Optometry, Pharmacy, Medical lab and Radiology.

Natural Resources

The new Natural Resources facility will house Fish and Wildlife, Forestry, and the Tribe's Environmental Specialist. Located on Hebo Road, you can see it is nestled in the woods. Completion is expected for mid-summer.

Administration Office

Plans for a new Administration building to replace the moduls on Grand Ronde Road are taking place. Pictured is the architects drawing of the building. Estimated start date of construction is mid-August of this year, with completion sometime in the fall of 1998. Occupants of this building include Tribal Council, Tribal Court, Executive Office, Administrative Services, Finance, Human Resources, Legal, Policy and Planning, *Smoke Signals*, Enrollment, Cultural Resource Protection and Risk Management.
