

# Indian gaming revenues up 3.9 percent in 2017

The National Indian Gaming Commission announced on Tuesday, June 26, that fiscal year 2017 gross gaming revenue at Native American casinos increased 3.9 percent and totaled \$32.4 billion.

The revenues were calculated from the independently audited financial statements of 494 gaming operations owned by 242 federally recognized Tribes. The amount is calculated minus winnings returned to player and represents earnings before salaries, Tribal-state compacts and operating expenses.

“All of Indian Country has worked very hard to maintain a flourishing and constantly growing gaming industry,” said Jonodev Chaudhuri, chairman of the National Indian Gaming Commission. “The success of Indian gaming in the 30 years since IGRA (Indian Gaming Regulatory Act) prove that the foundational principles of federal Indian law should remain at the forefront of any future public policy discussions.” ■
