

Congratulations to our son, **Harris Reibach**, for graduating with his master's degree in Business from Eastern Oregon University. He held a 3.74 GPA and will graduate Magna Cum Laude. We are so proud of you for all you have accomplished. As one of your professors has described your work as "stellar" and another as "excellent," and we agree. Your compassion toward others, especially those in need, shows the God of mercy you serve.

Thanks, son.
Jan Reibach Sr. and family

Flushing prescription drugs down the toilet puts aquatic life at risk. Salmon need clean water to survive, and these chemicals have harmful effects on behavior, growth, and reproduction. Dispose of drugs properly and keep salmon habitat healthy.
