Book Review: “The Haunting of Hill House” by Shirley Jackson.

Shirley Jackson debuted “The Haunting of Hill House” in 1959. Since then it has been praised by many, being called one of the scariest books ever written. There have been movies, plays and television shows based on the novel. I felt that while it was a good book, it did not live up to its hype. I wouldn’t say this is one of the scariest books I’ve read; a little unsettling, maybe, but not scary.

“The Haunting of Hill House” is the story of four people, three who have come to Hill House after being invited by Dr. Montague, a scholar looking to document the “haunting” of Hill House. The book’s narrator Eleanor is one of the invited guests of Hill House. She is a friendless, fragile, insecure young woman. While at Hill House, she has a few moments of disorientation. Whether it’s supernatural, mental illness or a combination of the two is unclear.

Throughout the novel there is a constant sense of dread, but it didn’t really peak at any point in the book. For me, this book missed the mark, but for some they can’t give it enough praise. Step inside Hill House and see what you think. — *reviewed by Crystal Bigelow*

Donations: A special thanks to Brittany Mock, Stephen Zarko, Teana Kellogg, Audra Sherwood and Jannelle Justen for their contributions to the Tribal Library’s collection. We truly appreciate your donations.

Reminder: Donated items must be clean and in good condition.

Students in the Tribal Chinuk class visited the Natural Resources Department on Tuesday, May 14. Parks and Recreation Coordinator Jerry Bailey and Native Plant Supervisor Jay Ojua helped identify 32 native plants and trees that are growing at the Natural Resources office. They briefed students about the plants and what they have been used for historically. The students used pictures to help them identify the plants and they also learned the Chinuk Wawa names for the plants.
