"HE KING CAN DO NO WRONG.

The Night at Friarstone House, August, 1747.

By CLINTON ROSS.

[Copyright, 1500, by Clinton Ross.]

CHAPTER I. What she had said impressed me ruch, I can assure you. That he had ared to come back, as he had, after all ras done and said; that he was in this ery house-all this made me for a mo gent hot and cold, and then I began to rasp the situation as it was presented o me. I began to reason about it as libly as I could, when indeed I had no articular reason about it at all-in she, a man dumfounded. There was n old clock with the name of the makr across its broad, placid, ticking face. shich i afterward remembered, "John Jobbs, London," I awoke that night eeing that clock's face with John bobbs' stolid name written straight cross it, though then I was no more enselous I was observing than I was of the moun which east yellowed din gond stapes from the panes on the

arsen mastery beyond. I remember she stood against the ireplace, her hands crossed, the light one spluttering candle on her see, which moves seemed to me more Had I not come from Surrey he long distances of the north country o see her? And here I heard this as onishing news. He had disembarked it the point conder in the shadow of he Stunieigh cliff. He was here in the

when floor nor of the village that his

exond with the wide sweep of the cir

ling buy and the dim gray baze of the

touse of Friarstone itself.

What possible motive could have brought iden? What foothardiness had ed him here? Had we not spent nough blood and station and estate for alm? A slow anger gathered as I hought it. My own father and brother were dead on the scaffold on his as count. This very girl who told me it-to whom I had come in the mood, the frency of leveninking had lost her own father in the Scot revolt. And it was only the protection and paironage of influential relations such kept the present lord, her - other, his estate of

"Where is your brother, then, Bet y?' I said "Does he know this?" "He has not told me, at least," has not told me, at least," she mid, resting her foot on the firedog where a single log smoldered. "He give me not so much as a suspicion o'

"Sit down with" said I nimost rough y, "It was not an hour since, ye say?"

HOPE FOR CONSUMPTIVES MOFFITT

The New Goat Lymph Is Actually Curing It.

Sufficient Records Are Now at Hand to Say that It Is Really Specific Except in Extreme Cases.

The new goat lymph already explaind in these columns is really a cure for ensumption except in very advanced ases. The testimony is profoundly impressing. The following are samples f physicians' daily experiences all over be country.

Reported by Dr. Stableis 206 Kearney d. San Francisco. Case of Mrs. George Montell 29 years of age, residence 2721 Buena Vista ave., Alameda, Cal. Reported by three specialists to be sufferng from consumption. All three found ubercular bacilli swarming in the putum. Night sweats, quick rise and all of temperature, heetic flush, losing reight and strength rapidly. In June physicians advised the case as hopeless and change of climate as only chance. Commenced with the lymph. Sixth day fever and night sweats disappeared and expectoration decreased. Sixtieth day had gained 17 lbs and all symptoms and bacilli had disappeared. Dismissed direct.

Reported by Dr. J. W. Hagadorn, Lancing Mich. Mrs. S. age 42. Diagiosis pulmonary tuberculosis. Sputum revealed bacilli in abundance. Two years standing, both lungs involved. Thus and emaciated. Fifteenth day, emperature normal, cough disappearng, gaining flesh. At end forty days no cough, expectoration or bacilli. Departed cured.

Dr. Hagadorn adds: "I have treated en cases of consumption with the new ymph, three incipaent and seven adcanced. All the incipent cases have been cured. Of the seven advanced ases only two were beyond help. Two were decidedly benefited and three we omplete recoveries.

Reported by Dr. G. B. Sweeney, Pittsburg, Penn. Young man 21 years. Bacilli abundant weak from hemos rhages within five days of treatment At the end of eight weeks' treatment hemorrhages, cough and bacilli had die appeared and the patient had regained trength and returned to his trade cured.

The above are everyday samples of prominent Eastern expert who has been making a study of the new lymph and has administered it successfully to hundreds of cases, has opened a lymph nstitute at 206 Kearney St., San Franisco. Full information containing tabulations and other records of cases by mail to physicians and others coquir

Instant Death. "The instant of death," says The Indian Lancet, is a vague and indefinite expression when viewed from the point of physiology. An animal or plant cannot be considered dead until it has reached that period in disintegration where it is impossible to revive life. Some physiologists still further restrict yords, each cell must have lost be-

ond recall its life powers. Probably one of the most striking examples of instantaneous death that of the person who accidentally fell ells' and Mr. James' international novinto a large vat of boiling caustic pot- els, where he acts as a splendid foll to body, leaving only the metallic plates from the heels of his shoes and a few buttons from the clothing as remains. Death from electric shocks also border on the instantaneous process. seen found that living cells taken from the body can be preserved in a normal state for a long time and then have life processes revived if they are properly

Dozed Her With Cold Water. "One autumn in Naples I was sud-

denly and seriously soized with a severe cold," says a society woman. "I couldn't but be frightened, away off there in a strange land from my own doctor, and my husband was more plant has consed to contain of I friedromed than I was. By the advice consist of living protoplasm in other of the hotel proprietor, however, we did not call in the resident American physician of the place. There always is one, you know, but his chief use, I've observed, seems to be in Mr. Howthe foreign lover of the heroine by falling in love with her himself too, but

> always being rejected. "No foreign hotel proprietor was ever known to recommend a resident Ameriean physician. Our Neapolitan host sent out for a regulation 'dottore,' who prescribed no more stringent course of treatment than drinking as much waer as possible; not a pennyweight of medicine. I simply kept a pitcher of mre cold water and a glass upon the able at my side, and about every 15 ninutes I quaffed a good, long draft. That cold was seattered like magic After the first day I should scarcely ave known f had been on the borders of one. Here at home in America. whenever I want to scatter a threatened cold I promptly follow the prescrip tion of my Neapolitan 'dottore' and dose myself with pure, celd water."-New York Son.

"Valuable clews toward the detection of criminals are obtained through an examination of eight stubs," said a Scotland Yard detective. "This applies to those who smoke eights, the stubs of which they carelessly throw away in the street or'claswhere.

"If you pick up any stub and examine it closely, you will be able to learn omething as to the personality and so ial position of the man who threw it away. In the case of criminals the first point to be considered is the manner in which the end was cut off from the cigar. If a knife or any other in strument was used for this purpose, then this instrument will doubtless be found on the criminal; if, on the other hand, it was bitten off with the teeth. a thorough examination of the tip will show what kind of teeth were used for this purpose

"A man with a row of even teeth will bite off the end of his eighr squarely and evenly, whereas one with jagged, uneven teeth will blte it unevenly and n such a manner as to leave clearly visible the marks of his incisors. By comparing the marks on cigar stubs with the teeth of suspected criminals prosecuting officers and detectives are able to obtain information which they could not possibly obtain any other way."-London Answers.
