

THE RECORDER

EVERY THURSDAY AFTERNOON
DAVID H. STITT, EDITOR AND PROPRIETOR.
SUBSCRIPTION RATES: One Year \$2.00, Six Months \$1.00, Three Months \$0.50

THURSDAY, MAY 2, 1901

Christmas Home Notes.

The past eight or ten days has been variable. Rain, snow, hail, frost, and sunshine thrown in, has been the program. A heavy frost greeted this morning, the 26th, the barometer registering 30.

J. C. Clark and Lib Haines each took a horse load of bedding, etc., over to the South fork of Sixes last week for Searls and Thompson, the gentleman from Washington, who propose to mine the bed of the South fork the coming season.

George Guerin, Jr., who took a contract of Searls and Thompson, last fall, to build a flume 1800 feet in length, has been busy the past two months, with the aid of two men, sawing and floating the lumber down to the mine, finished floating the lumber down last week, and is hurrying the flume to completion as fast as possible.

J. C. Clark has the foundation laid for a new dwelling 20x30, Jeff Galt is erecting him.

Farming and Gardening is the order of the day now. Ed Haines got through last week plowing and sowing Mr. Avery's field, having rented the same. While hitching his team to a harrow last week, the horses took fright at something and lit out at a lively rate, and when recaptured, Ed found himself minus a set of harness as they were literally torn to pieces.

It is reported that the Harrison Bros. have struck a ledge of quartz on Poverty gulch eight inches thick which is rich in free gold. How true the report is yet reporter has been unable to ascertain.

Uncle Robert Lowe made a trip to Port Orford last week taking the mail down for Harry Guerin. Aah, by the way, Harry has some of the finest Hereford calves I have seen in this section.

Mr. Avery came very near losing one of his best milch cows last week from being checked on a potato, being unable to relieve the animal from its suffering alone, he secured the help of J. C. Clark and W. J. Holmes and then the only way to relieve her was to run the potato down her throat with a broomhandle, the same you would a bullet down a gun barrel.

MORNING NEWS. Billy Smith, an American pugilist, was knocked out and killed at London, April 22, by pugilist Roberts. Smith lingered in an unconscious condition nearly two days before death resulted.

The United States, Spain and Germany have given Venezuela notices that they will not respect the decision of her courts. Great Britain and Holland are about to take a like course while other nations will probably follow their action.

An exchange remarks that the greatest import from the Philippines at present is small pox.

From Capetown, Africa, comes news of a triple tailed comet which is making its approach on its way around the sun.

The bank of Gilbert Ross, of Salem closed its doors last week. Litigation is given as the cause of the trouble. Depositors will probably be paid in full at some time in the future.

Members of River and Harbor Committee Coming to Oregon.

HILLSBORO, Or., April 25. Representative Tongue is in receipt of a letter from Hon. T. E. Burton, chairman of the House committee on rivers and harbors, stating that the committee will reach California about June 13 and Oregon the latter part of the month. Mr. Burton states that the length of the stay of the committee in Oregon has not been definitely determined, but it will probably stop at Portland several days. Mr. Tongue will endeavor to be with the party during its stay in the state.

Forecasting the Future.

From The Portland Oregonian. General James H. Wilson, in his book on the Celestial Empire, reports that the extent of the Chinese workable coal beds and the quantity of the mineral contained in them vastly exceeds that in any other part of the world. Both the anthracite and the bituminous varieties abound. The coal of Southern Shan Si is not only the finest anthracite, but exists in thick beds of great extent. General Wilson says that, even as the increasing cost of coal has led England to her former supremacy in the metal trades to the United States, so "in turn the time will doubtless come when with the exhaustion of the American coal resources the supremacy in the metal trades will pass on to China, the coal measures and iron deposits of which are commonly believed to be the most extensive and the most enduring in the world." Very likely this prediction may come true; but long before that day arrives the Middle Kingdom, in which these enormous coal deposits lie, will be dominated by white men. When the metal working world of Europe begins to exhaust its coal deposits it will be sure to get hold of the Chinese coal beds. The Indians of Peru, the Aztecs of Mexico, lost their countries to greedy white men seeking for gold and silver; and the Chinese will surely lose their coal beds to white men when there comes to be a coal famine in the metal working countries of Europe. Europe will develop and utilize China's coal beds; for she cannot wait for China to do so.

Telegrams: Immigrants are arriving numerously this month, and Oregon's population will be increased by several thousands thereby. Probably more immigrants have come to the Pacific Northwest during the past few weeks, largely in consequence of the low transportation rates on the railroads, than during any equal period of time in the past. In a short time most of these newcomers will be voluntary immigration agents, whose good reports of Oregon will bring many others. Oregon's population ought to increase at least 50 per cent during this decade.

State Fair Premium List Stat

Secretary M. D. Wilson has just received from the printer the State Fair Premium List for 1901. Over \$100,000 is offered for premiums on livestock and farm products, and is by far the largest and best premium list ever offered in this state. The list has been thoroughly revised, and brought up to date in every department. New premiums have been added, and others increased on agricultural products worthy of merit. Oregon can boast now of a complete and liberal premium list as any state in the Union, and if hard work and honest effort on the part of the management counts for anything, the fair itself will compare favorably with those of other states, and will be the best ever held this side the Rocky mountains.

Telegrams: It is reported that General in Chief Count von Wellersee and our General Chaffee are engaged in a dispute over the possession of the gate to the sacred city of Yekon, which each wants, presumably, as a relic, though as good for hell Christian soldiers it is not to be supposed that they reverence it as they might the gate to the colored city guarded by Saint Peter. Though von Wellersee is nominally Chaffee's superior in command, the American General is not likely to yield up anything that he believes belongs to him, nor is he afraid of being court-martialed for disobedience to the orders of the excessively aristocratic and subsarled of Germany.

Oregonian: At the dinner given last night to the Washington and Oregon members of the centenary celebration of the acquisition of the Oregon territory by the Hon. H. W. Carter, of this city, Portland, a name was adopted which, it is believed, will cover as widely and fully as any other possibly would the distinctive objects and historical purposes of the centenary celebration of 1846. The legend that is to lead the title page of all the literature on the subject is Oregon's famous "Where Home the Oregon." This name is then to follow: "The Lewis and Clark Century and the American Pacific Exposition." This was adopted by the unanimous vote of the gentlemen present. It is believed an better name could be suggested.

Del Norte Record: Mr. Isaac Mason, the well known pioneer legislator and ex-governor of this county, intends to make a number of changes in Del Norte county next by our scheduled session 1901, and will probably be built in the near future, and in order to ship the lumber from Chaska harbor about 10 miles of railroad will be constructed into his new possession.

More War Rumors.

LONDON, April 26. William T. Stead, in an interview with a representative of the Daily Mail yesterday, said: "The Boers are calculating upon England's becoming embroiled with Russia, or some other complication. If I am not mistaken, we are on the verge of a storm across the Atlantic that will rudely slant our peaceful calculations. When the United States Congress meets, the Clayton-Bulwer treaty will be torn into shreds and thrown into our faces. We shall have to choose between fighting or eating humble pie. The first serious discussion of the possibility of such a war will do more to keep the Boers in the field than all the speeches of all the pro Boers in existence."

More Trouble in China.

There is said to be more trouble brewing in China because of a famine prevailing in a district inhabited by Boxers, and another uprising is feared. War is a cold blooded murdering proposition at best, and famine not infrequently results from such strife, but the most cold blooded, heartless, thing we have seen in print lately is the following from the Portland Telegram: "Another 'Boxer' uprising is reported, because a famine prevails in the district which they inhabit. The unregenerate 'Bothers' can't they possibly starve to death in their own country? If not they must be shot, that's all."

Boise Capital News: Oregon's secretary of state has compiled an official list of clerks employed by 21-a general assembly of the Oregon legislature, with pay in each case as made up by the secretary of state, making a total of \$22,000. The portion of the 10 members is \$10,500, and there were 123 clerks, many of whom were relatives of the members. Idaho's salaries know very little about the list of spending money, as practiced in the good republican state of Oregon.

What We Can Do For You

Two Papers for the Price of One. You get the News of the World and the Local News Through in as a Bargain. To those who pay up in advance and a year in advance, and hold new subscribers who pay in advance, we make the following proposition: our first several issues complete (except from) Price of Paper in excess each Year: Digests \$1.00, News of the World \$1.00, Portland Evening Telegram \$1.00, Weekly Oregonian \$1.00, Appeal to Reason \$1.00

Our Offer.

The Portland Evening Telegram is issued by the News of the World and the Local News Through in as a Bargain. To those who pay up in advance and a year in advance, and hold new subscribers who pay in advance, we make the following proposition: our first several issues complete (except from) Price of Paper in excess each Year: Digests \$1.00, News of the World \$1.00, Portland Evening Telegram \$1.00, Weekly Oregonian \$1.00, Appeal to Reason \$1.00

Notice for Publication.
