EDITORIAL

One of the chief imports from the Philippine Islands is smallpox. It has been prevalent in many Western cities and has found its way into Eastern cities. Portland is having a siege of it at present. It is of a mild form and is said to be no more dangerous than measles.

The fair name of California has been blackened by a mob of law-breakers, who to avenge themselves upon five victims who committed petit larceny, hanged them to the timbers of a bridge, in Modoc county. The victims were Calvia Hall, aged 72 years and his half-bred sons, 16, 19 and 26 years old, and B. D. Yantis, aged 28 years. This is a case wherein criminals undertake to administer justice to criminals and the result is that the last offense is greater than the first.

Const Mail: "Little Bob" Simpson while running the donkey engine which hoists the heavy planks and timbers in the North Bend shipyard caught his hand in a turn of the rope and was given a swing around and received many painful bruises. Dr. McCormac was called and pronounced Bob in danger.

Sun: Michael Murphy, a sailor on the schooner "Mamma," was instantly killed Tuesday forenoon, while engaged loading lumber on the vessel. The schooner was at anchor in mid stream in the lower bay, with a barge of lumber alongside. As a sling load of lumber was being taken on board it fouled in the rigging and Murphy in a careless way got underneath the same to clear it, when he was caught between the scow and lumber, crushing his head almost into a pulp. Deceased was a native of Ireland and about 24 years of age. He came here from San Francisco. His remains were laid at rest in the cemetery at Empire City.

Prospects Good For Fair This Fall

V. C. London, of Roseburg, president of the Second S. O. fair association, arrived Wednesday, accompanied by S. B. Herman, of Myrtle Point, to complete arrangements for holding the fair here this fall.

It is necessary to raise some \$500 by subscription. A good start was made yesterday, and confidence is expressed that all matters can be satisfactorily arranged. There has been some feeling in certain quarters that all was not right about the management of last year's fair, but existing records, when placed before the people, show that this was a misunderstanding of the facts of the case.

There is no reason why the fair this year should not eclipse the pronounced success of last year, and bring to the town large returns in many ways, for the comparatively small expense involved.—Coast Mail

The Hint Courtiers

The author of "Life and Sport on the Pacific Slope" says that in assemblages where a little patience and good humor temper what is disagreeable, the people of the Pacific Slope are the best.

Once, at a performance of some play, several youths were gazing the principal character, to the annoyance of everybody else. Suddenly a gentleman said to them, very politely: "That lady on the stage is making so much noise that we cannot hear what you are saying. But I hope we shall have the pleasure of listening to your criticisms later, when the act is over." Silence followed the remark.

At times something more forcible is needed. A certain lady had, one day, been rudely treated by a minor railway official. She was very indignant, and quite at a loss for words; but she had a saying word of humor and turned to a stranger at her elbow.

"Sir," said she, "will you tell this man what I think of him?"

The stranger, without betraying the least excitement, said in a melancholy drawl:

"Sir, this lady thinks you are an under-trapper, clothed with a little brief authority, whose only qualification for the position you occupy is your extraordinary impudence."

To Stop Hazing.

New York, June 12.—According to a special to the Herald from Washington stringent regulations defining rules prohibiting hazing have been issued by the War Department. The regulations are the direct result of the recent mutinous proceedings at the military academy. Hazing is thus defined:

Any cadet who shall strike, lay hands upon, treat with violence, disturb in his room or tent or offer bodily harm to a new cadet or candidate with intent to punish, injure, annoy, molest or harass the same; or who shall with the same intent invite, order, compel or permit a new cadet or candidate to sweep his room or tent, make his bed, bring water, clean his arms, equipments or accoutrements or perform any other menial service for him or to assume any constrained position or to engage in physical exercise or who shall with the same intent, invite, order or compel any new cadet or candidate to eat or drink any article of food or to take into his mouth any articles whatever or to do for him anything incompatible with which the position of a cadet and gentleman or any cadet, whose duty it is to enforce camp, barracks, or mess regulations, who shall permit any cadet or candidate to eat or drink any article of food, or to take into his mouth any article whatever in violation of said regulations, shall be summarily dismissed from the military academy.

Hazing also includes any other treatment of a "harassing, tyrannical, abusive, shameful, insulting or humiliating character." Dismissal is the penalty for violation of these regulations. The practice of a duel or personal combat is also prohibited and other persons involved on any cadet abusing or condemning another for declining to accept a challenge will be dismissed.

The Coroner's Two Verdicts.

"Inquests are sometimes very funny affairs," remarked a western man. "I remember one in the early days of my country in Kansas. A man was found dead by the side of a small stream out on the prairie.

No mark was found on his well dressed body. His gun was fully loaded in his hip pocket, and \$25 was found in his pocket. Of course the coroner took charge of the money. A jury was impaneled and after finishing its deliberations found that the man clearly died of heart failure.

The coroner promptly paid from the dead man's pile the \$12 due for expenses and discharged the jury. The \$13 remaining bothered him. He argued that to turn that \$13 over to the man's possible relatives, would be the same as throwing it away. The man was a stranger in those parts. Possibly he had no friends.

The coroner was equal to the occasion, however. He declared himself dissatisfied with the verdict and called the jury together again. They sat on the body a second time and found exactly the same verdict, but the coroner's mind was at ease. The \$25 was exhausted.—Washington Star.

Telegram: The Administration has devised a sort of a dual government for the Philippines. Judge Taft to be the Civil Governor, with large authority, but the Secretary of War to be the ultimate arbiter and source of authority. This is Mr. McKimley's way to try to please all sides and do things in two or more ways. Such a dual government may work smoothly for a little while, but it is, at best, but a doubtful experiment. Another Congress may give the general, accommodating President and his pets a lot of trouble.

Oregonian: Fraud in the Army supply services, by many long suspected, has at length come to light in San Francisco, and an investigation by the grand jury promises sensational developments. Thus far only the matters of clothing and forage are involved. It is hoped that the investigation may reach into the methods of the transport service also, for it is widely believed that improper motives have governed the award of much of that business, and it is said the improprieties may be traced to officers in high station.

Filipino Ladies Smoke 16-Inch Cigars.

London Science. The ladies of the Philippines have progressed far beyond the dainty cigarette; indeed, their cigars, which measure some sixteen inches, are not intended for an evening's pleasure or an after-dinner smoke. In the Philippines they prefer smoking on the installment plan, for these huge rolls of tobacco, which measure five inches in circumference, constitute one week's pleasure for the ladies of Luzon. To offset the difficulty presented by the weight, the mouth end is filled with a soft fiber of tobacco, so that when the cigar is grasped firmly between the teeth so great an indentation is made that for the remainder of the six days' smoke the huge cigar fits naturally to the mouth, and can be held without any conscious effort.

Telegram: Organized capital has offered Mr. Schwab the opportunity to ride in a private car costing \$85,000, while organized labor is pretty well contented if it can afford to ride in street cars.
