BANDON, OREGON: THURSDAY, AUGUST 22, 1901

Number 34.

LOCAL NEWS.

John Mast, of Myrtle Point, was in town last Monday. T. P. Hughe was a visitor to town this week from Cape Blanco. Another mile of the Daniel's creek railroad has been completed. Try G. H. Magoon's for Fresh Groceries, Fruits, Provisions, etc. Read the Furniture Store Adv. You may want something in their line. Ladies are invited to call and inspect the fine line of dress goods at Lorenz's store. Ida and Annie Wakeman, of Empire are in Bandon visiting their brother Andrew. W. C. Rose of Coquille, had business which called him to this place last Monday evening. Dr. C. W. Tower, Rus Tower, and W. J. Butler, of Marshfield were in Bandon last Saturday. Bishop Morris, of the Episcopal church in here, and will hold services to-night in St. John's Chapel. Mrs. Mary Bramer, who lived on Coos River, was drowned, last Sunday a week ago, while in bathing. Gentlemen will find the most complete stock of hats at N. Lorenz's store ever brought to town. Also a large stock of goods for winter wear. Senator Hamden's Black Kentuckians have come and gone, and while his show is not as edifying as are many other ones which have exhibited here, yet those who attend are sure to have a good laugh. Charles W. Majory, came up last Thursday from Corbin City, having been called home on account of his wife who has been sick for some days, but is now much improved. Mr. Majory returned to Corbin City, Tuesday. The steamer Mandalay brought about four hundred tons of freight up from San Francisco this trip. One hundred tons was taken to Crescent City, a like amount to Coos bay and the balance was brought to the Coquille. Besides other things here last Sunday there was a game of ball on between the Bandon boys and those from Parkersburg. The game was not played out but when it stopped the boys from Parkersburg had much the best of it. The schooner, Confianza, of which fears were entertained for her safety, after being out 45 days returned to San Francisco, and is now tied up. The captain reported that on four occasions he succeeded in getting off the Coquille, but was unable to make port. The passenger list on the Mandalay this trip up was as follows: To Crescent City, E. Lambert and wife, Misses B and M. Miller. To Marshfield, T. Urquhart and wife, J. R. Haverside, M. Kane and wife and George Frahm. To Bandon Mrs. J. Falconer. W. A. Woolver, of Grants Pass, who has been in the county some months organizing Modern Woodmen lodges, was in town over Sunday, having come over from Marshfield to attend lodge meeting here last Thursday night. Three new members were initiated on that occasion. The steamer Alliance was delayed several days last week at Coos bay, on account of picking up about 90 feet of chain in the bay which would round the propeller. The incident happened on Sunday and the chain was not all removed and the vessel ready to proceed on her way to Portland until the latter part of the week. There was an excursion down from Myrtle Point last Sunday. Captain McCloskey having made the run down in his new steamer, the Welcome. In the afternoon a game of baseball was played between a nine from Myrtle Point and a Bandon nine in which the Bandon team was victorious having won in a score of 15 to 13. After the game was out the excursionists started on their return, except several parties who got left and in consequence had to remain until next day. R. F. Shannon brought to this office a sample of barley, and one of wheat, which grew in his enclosure, to show us what the buckleyberry land could produce. The seed had been scattered in February. The barley was of good length, heads above the average size and well filled. The wheat had attained a height of four and a half feet, had large heads and was well filled out. Now while we would not recommend these buckleyberry flats for grain production, yet the samples, which though aided largely no doubt by isolation, showed more than average merit.

Corned Beef and Limberger cheese at Magoon's. M. C. Munson, of Roseburg, was in town this week. C. F. Hawkins, of Eugene was in town last Thursday. R. N. Wancott, of Roseburg, was in town last Friday. D. S. Palford, of Myrtle Point, was in town yesterday. J. F. Miller, from Siletz, Oregon, visited Bandon last Friday. H. D. Waggon, of Portland, was a Bandon visitor last Monday. Special—24 Large Stamps Photos 25 cents, at Wrenshall's gallery Bandon. T. W. Clark, is in San Francisco on his return from the East and will probably return by Saturday evening. Jack Counts was in town Monday having come up to get a load of freight. Dairyville was getting short on flour. Alfred Curtis came over from Liberty last Sunday and found enticement sufficient to detain him until this morning. Jay Crosby, W. F. Lawsonovieth and Roy Bellowsky registered at the Tupper House last Sunday from Cincinnati, Ohio. N. Lorenz has an excellent line of fine shoes on hand and a large stock coming on the next arrival of the steamer Mandalay. Mrs. Helen D. Harford will lecture in the Presbyterian church on the evenings of August 22 and 23, in the interest of Temperance. William Oady, of Camas Valley, a former resident of Bandon, was in town Saturday and Sunday, selling patent medicine for which he claims great merit. Mrs. A. J. Hartman and children took up their residence, this week, in the house Mr. H. purchased of J. H. Barklow. Mrs. H. moved over to give the children easier access in attending school. Captain Reed, of the Mandalay, had the freight with which he loaded his vessel, this trip up, shipped out of San Francisco by railroad and then took his vessel up the Sacramento River to Antioch where he took it aboard. The Latter Day Saints are having an interesting series of meetings which will continue over Sunday. In Elder Joseph Luff they have a good speaker with reasoning powers far beyond those of any person who has ever spoken in Bandon. It costs you nothing to hear him and the loss is yours if you do not accept the opportunity to hear him. He will speak on Friday, Saturday and Sunday evenings. The following list of persons have been or are in attendance at the reunion of Latter Day Saints which is now in session at this place: Elders, Joseph Luff, of Independence Mo. A. M. Chase and W. A. Goodwin, from Eastern Oregon district, C. E. Crumley, of Myrtle Point, and Alma Upton, priest, of Linville Mr and Mrs Daniel Giles and grand children, Samuel and William Giles, Mrs Oscar Reed, Mr and Mrs James Buell and daughter Maud, of Myrtle Point; Mr and Mrs Alonzo Cribbins and daughter Ada, Mr and Mrs C E Houser, of Bridge; Sylvester, Guy, Miss Gertrude Nettie and Blanche Buell, and Mrs Lucy Williams of Looking Glass; Mrs Rose Tracy, of Drain, W. Greek, of Roseburg, and Mrs Daisy Short, of Myrtle Point. There appears to be a change gradually taking place in climatic conditions here on the coast as well as in other places, and as time rolls onward in its flight we receive visitations of electrical displays such as seem to have been strangers to this coast in former times. A correspondent at Riverton, in last week's Herald gives the following account of how Riverton was visited: "On Thursday night we had the greatest electrical storm that we have experienced since leaving the Mississippi Valley. The lightning struck Stacy Lee's house, tearing a hole 2 feet square through the roof then passed down a studding to the ground. It tore off the weather boards and ceiling, scattering the lumber and splinters all over the rooms. It tore one door off and threw it across the kitchen. Yet it did but slight damage, taking half a day to repair. Another bolt struck a large fir tree near town tearing large strips of wood 40 feet long and hurling them a long distance. Still another bolt struck an apple tree on F. G. Kelly's place. Surely our town must be purified by this time. The favorite with thoughtful, cultured people—The Oregonian.

Thomas H. and Daisy Bethel, of San Francisco were in town last Monday. D. A. Huling and wife, of Myrtle Point, gave Bandon a visit last Saturday. Miss Kate, daughter of Dr. Roberts, of Myrtle Point, is among the campers this week. Bishop H. L. Barkley, of Salem, was in town Monday on his way to visit the United Brethren church members at Rogue river. Mrs. Charles Stewart, daughter of Daniel Giles, arrived here from Myrtle Point yesterday. Mr. S. has employment here and she came to make Bandon her home. F. E. Hicks, the Photographer, will leave next Sunday for Marshfield, where he will operate during fair week. If you want any work now call at once. He will return here after the fair closes. Dr. J. W. Strange, our regular visiting Dentist, will be in Bandon next on September 12th and remain until the close of work on the 15th. On September 16th he will go to Dairyville and remain until noon on September 23rd. Residents of this part of the country will consult their interests by reserving their work for him and meeting him promptly on his arrival at these points. Lampey Creek Coal. W. H. Logan was down over Sunday from Lampey Creek where he is building coalbankers for J. H. Timon. From him we learned that he would probably complete his work by this evening, while from other sources we get further information as to what is to be found at Mr. Timon's mines and what is being done, etc. Mr. Timon has two veins of coal opened up; one is 4 1/2 feet in thickness, and the other 6 feet. Both veins have sandrock roof and floor. The first is clean without waste, while the second vein contains six inches of clay. He has five other veins which range from 3 feet 8 inches to 9 feet 4 inches, which he will develop later. He owns 183 acres of coal lands and estimates the coal on the same at two million tons. He has his bill bunker completed and as before stated the river bunkers will soon be built, and Mr. T. expects to be ready to ship coal by the middle of September, and he is confident that he can put the mine now being opened up, on a daily output of 500 tons inside of one year if shipping facilities would favor it. He has purchased, of W. R. Panter all the "T" rail and cars used in the Bandon Block Coal mines, which with his Rolling stock will enable him to move coal rapidly. Mr. Timon has named his mine Bunker Hill, and the village which is springing up there is called Carbondale. He sells employees the lot upon which to build their houses and furnishes lumber with which to build, upon the installment plan, thus anyone can own their own home, and all his land is thrown open for the use of employees. He has fine bottom land for gardens which are free to employ others to raise vegetables, etc., without other outlay than the clearing and enclosing. Application will be made for the establishment of a postoffice at Carbondale, and it is suggested that you keep your eye upon this new place and watch it grow. Two more new houses are under course of construction there at the present writing. Baseball Once More. The Greatest Contests of the National Game Ever Yet Played in Coos County. Another baseball contest is on between the Marshfield and Coquille teams to see which is the better players, and to more nearly bring the contest down to one of merit the game is to be played upon neutral grounds, that is, grounds upon which neither team are familiar with, and for that purpose the Bandon-ball grounds have been chosen. The game will be no sham as each league has put up \$250 to be contested for, while the gate receipts will go to swell this fund, and doubtless this will be the hardest contested game ever witnessed in Coos county. The time set for the exhibition is on Sunday August 31, being the last day of the present month. Excursion rates will be given by the steamboat company, and a large crowd of visitors are expected to be present. The Weekly Oregonian and this paper give you all the news of home, state, the Oregonian.

J. Merryman, of Philomath, Ore., was in town last Monday. Mrs. H. R. Reed, of Marshfield, is visiting her daughter Mrs. J. M. Upton. Mrs. C. H.
