President McKinley Shot

He Was Wounded Twice—Not Necessarily Fatal.

BUFFALO, N. Y., Sept. 6.—President McKinley was shot and seriously wounded by a would-be assassin while holding a reception in the Temple of Music at the Pan-American grounds a few minutes after 4 o'clock this afternoon. One shot took effect in the right breast, the other in the abdomen. The first is not of a serious nature and the bullet has been extracted. The latter pierced the abdominal wall and has not been located. The President was approached by a man with a dark mustache and with one hand covered with a handkerchief. As the man extended his hand to the President, apparently with the intention of shaking hands with him, he fired a shot which entered the President's right breast, lodging against the breast bone. Another shot was fired at once, which entered the President's abdomen. There was an instant of almost complete silence. The President stood stock still, a look of hesitancy, almost of bewilderment, on his face. Then he retreated a step, while a pallor began to steal over his features. The multitude, only partially aware that something serious had happened, paused in surprise, while necks were craned and all eyes turned as one to the rostrum where a great tragedy was being enacted. Then came a commotion. Three men threw themselves forward, as with one impulse, and sprang toward the would-be assassin. Two of them were United States secret service men, who were on the lookout, and whose duty it was to guard against just such calamity as had here befallen the President and the Nation. The third was a bystander, a negro, who had only an instant previously grasped the hand of the President. In a twinkling, the assassin was borne to the ground, his weapon was wrested from his grasp, and strong arms pinioned him down. The President was shot about 4 o'clock. One bullet struck him on the upper portion of the breastbone, glancing and not penetrating; the second bullet penetrated the abdomen five inches below the left nipple and one and one half inches to the left of the median line. The abdomen was opened through the line of the bullet wound. It was found that the bullet had penetrated the stomach. The opening in the front wall of the stomach was carefully closed with silk stitches, after which a search was made for a hole in the back wall of the stomach. This was found and also closed by the same way. The further course of the bullet could not be discovered, although careful search was made. The abdominal wound was closed without drainage. No injury to the intestines or other abdominal organ was discovered. The patient stood the operation well; pulse of good quality, rate of 130; condition at the conclusion of the operation was gratifying. The result cannot be foretold. His condition at present justifies hope of recovery. The name of the fiend who is tempted to assassinate President McKinley, is Czolgosz. He was born near Detroit, Michigan. He is said to be an anarchist. News received by telegraph, yesterday, states that President McKinley is out of danger, and that he will be able to resume his official duties in two weeks. Oregonian: In dealing with Great Britain alone the trade balance in our favor for the present year will exceed \$600,000,000. In the first six months of the year the United States sold to that nation nearly \$350,000,000 worth of commercial products, while our purchases from that country during the same period amounted only to \$35,000,000. We should be satisfied with this showing, even if Shanrock II sails away from our shores in the late Autumn with the antiquated piece of silverware that has been here so long as to be almost one of our cherished institutions. Engineers, surveying a line of railroad from Coos bay to Corvallis arrived Wednesday evening. They are at work on the line that is proposed to run from Corvallis south via Junction, Monroe and other points, and that which at various times past there has been newspaper mention. The preliminary line between Corvallis and Monroe bears three or four miles west of the old O. & C. right of way, and comes through the Thomas Cooper and adjoining farms and thence to Corvallis. A standard gauge road is proposed.—Corvallis Times.

Thousands are Trying It. In order to prove the great merit of Ely's Cream Balm, the most effective cure for Catarrh and Cold in Head, we have prepared a generous trial size for 10 cents. Get it of your druggist or send 10 cents to ELY BROS., 25 Warren St., N. Y. City.

I suffered from catarrh of the worst kind ever since a boy, and I never hoped for a cure, but Ely's Cream Balm seems to do even that. Many acquaintances have used it with excellent results.—Oscar Ostum, 45 Warren Ave., Chicago, Ill. Ely's Cream Balm is the acknowledged cure for catarrh and contains no opium, mercury nor any injurious drug. Price, 50 cents. At druggists or by mail.
