THURSDAY, SEPT. 26, 1901.

EDITORIAL.

Socialism is not Anarchy. Socialists look forward to a time when government will have progressed and been launched on the highway to perfection, while on the other hand the Anarchist is against government and looks toward conditions wherein he can have license to do as he pleases. The true Socialist creed is bound up in the Golden Rule and there has been no doctrine taught anywhere that exceeds this law of love.

There are two distinct types of humanity who seem to be minus the full possession of at least one of the faculties that go to make up the well balanced mind. One of these classes is found in anarchist ranks and the other is a member of the suicide club. The first is an enemy of order and progress and the biggest fool extant. The second is like the first only in the disregard for consequences to his or her own life. The anarchist, when following his victim, seems to have no thought of escape, and is intent only on assassination and his cunning is exercised to the utmost to accomplish his purpose. He does not seem to realize that his own death is certain to follow his rash act, and so far as his own life is concerned he is like the man who joins the suicide club and whose life may go out as a result of the first casting of lots in selecting one to pay the forfeit imposed by the rules regulating the order. The anarchist lacks the intelligence to perceive that rulers are more easily created than deposed, and for every one assassinated, a hundred men stand ready to assume the responsibilities of the office bereft of its occupant.

The Iowa socialists, assembled in convention on September 6, gave voice to the following: "We declare our unalterable opposition to the competition for bread and to the capitalistic control of the means of production and distribution, and to secure a system whereby want, misery and poverty shall be forever eliminated, we pledge ourselves to the final and complete overthrow of all competitive and capitalistic systems and the substitution thereof of a co-operative commonwealth and collective ownership of all means of production and distribution. This is our construction of Socialism. Anything more is unnecessary; anything less would fail of the accomplishment of our purpose. Our movement is revolutionary only in principles and ethics. Our methods are peaceful and our appeal is to the reason and conscience."

A Communication.

Mr. Editor—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. BROCKMAN, Bagnell, Mo. This remedy is for sale by C. Y. Lowe.

From the Mistle Point Enterprise.
John Geiger, an old and highly esteemed resident of Eckley, died at his home at that place Tuesday. He had been in poor health for some time, but seemed in his usual health that day and died suddenly in his room. He was about 72 years of age and has no relatives in this state so far as known.

A little child belonging to Mr. and Mrs. S. S. Reed who reside near this place, was attacked by a vicious cow yesterday and narrowly escaped being killed, receiving an ugly gore in the neck and having an eye almost torn out. Dr. Loop dressed the wounds and thinks that the little one will not lose the sight of his eye.

J. W. Leneve and wife came up from Coquille yesterday to make arrangements for moving to this place. Mr. Leneve has purchased the stock and fixtures of the store of A. H. Black & Co., and will add a new invoice of goods and continue the business. Mr. Leneve has been in business in Coquille from his boyhood, and bears the reputation of being a reliable and enterprising business man.

Socialism Is Not Anarchism

From the Dakota Heraldist.

The theory of the scientific anarchist is that human beings, if left to their own devices, would be much better off—that absolute freedom of the individual is the ideal condition and that laws to restrict such freedom are wrong and impose no moral obligation on the individual. The "anarchists of force"—so called—would reconstruct society by first destroying, by violent means if necessary, the false social conditions of the present. The paid writers of plate and proxy-plate newspapers are very fond of mixing up anarchism with socialism—and of attempting to lead ignorant people into the belief that anarchism and socialism are one and the same. The truth is they are the antithesis of each other; even the pleasing theory of the scientific anarchist has absolutely nothing in common with socialism. It is much nearer the democracy of Thomas Jefferson who said "the best governed country is that which in governed the least." This is very close to the anarchism taught by B. F. Tucker and Chas. A. Dana, but the socialist would merge the whole people into the government and make the government—the people—the whole thing. With the doctrines of the "anarchists of force," the socialist has nothing but detestation. The socialist has no desire to destroy the present social and political state, but as they are, until a majority of the people are educated so that they may substitute something better. When that state of education is reached, our present plutocratic republic will melt into an industrial democracy without a ripple of excitement. The change will occur so naturally that we will all wonder why it did not come sooner. And no true socialist wants a socialist government set up until that state of education is reached.

Ambushed by Boers.

LONDON, Sept. 19.—A dispatch from Lord Kitchener, from Pretoria, dated September 18, announces that the Boers, September 17, ambushed three companies of mounted infantry with three guns, commanded by Major Gough, in the vicinity of Scheepers Nek. After severe fighting the British were overpowered and lost their guns, the sights and breech blocks of which were first destroyed. Two officers and 14 men were killed and five officers and 25 men were wounded. Five officers and 150 men were made prisoners, Major Gough, who escaped during the night, reports that the Boers numbered 1000 men, and that they were commanded by General Botha.

General French reports that Com mandant Smuts, in order to break through a cordon, rushed on a squadron of the Seventh Lancers at Elands Riverport, killing three officers and 20 men. The Boers, who were dressed khaki and who were mistaken for British troops, lost heavily.

A New Political Organization.

Delegates met at Kansas City on the 18th inst., representing seven of the reform parties and after holding separate conferences, behind closed doors during two days, met in joint session and launched a new political organization in the field which is to be known as the Allied Third Party. A platform embodying the following principles was agreed upon by conference committee:

It demands the initiative and referendum and public ownership of public utilities; and declares against land speculation and alien ownership; favors scientific money, based upon the entire wealth of the Nation and not redeemable in any specific commodity, but to be full legal tender for all debts, to be issued by the Government only, without the intervention of banks, in sufficient quantities to meet the requirements of commerce; demands just and natural taxation and the election of President, vice-President, Federal Judges and Senators by direct vote; favors the creation of a department of labor and equitable arbitration; favors the establishment of postal savings banks, and favors such constitutional amendments as may be necessary to make the above laws.

A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by C. Y. Lowe.

Two Boys Narrowly Escape Death.

From the Coast Mail.

By the caving down of a high bank on the McPherson lot, corner of 1st and B streets yesterday, Frank Hobson and Howard Vineyard were both injured and narrowly escaped being crushed to death. Both boys, who are about 14 years of age, were employed in driving one horse cart, hauling away the dirt which was being graded down by a force of men. The bank was about 16 feet high and a stump which sat on the surface had been undermined to a dangerous degree. The mass came down without warning, but fortunately the workmen got out of the way. Young Vineyard was standing in his cart and did not reach the ground in time to get out of the way. He was nearly buried and one foot was severely but not permanently injured. Hobson was out in the street when a flying clod struck him and broke both bones of his leg below the knee. Neither boy was seriously hurt otherwise.

Fifty Square Miles of Colorado Timber Consumed.

ELDORADO, Colo., Sept. 21.—The town is again threatened by forest fires. The fires are now within half a mile of the town, and should the wind change a little, it would send the fire upon the village. To-day the fire jumped from one mountain to another, passing over the village of Grand Island, which is in a narrow valley. The village was not touched. Over 50 square miles of heavy timber has now been consumed, making this the largest forest fire which ever occurred in this state. It is said the people of Eldorado will ask the Government to send troops there to fight the fire. The fire is almost wholly on public land.

Successful Protection.

Washington Post.
We have "protected" ourselves to such an extent that Englishmen are able to buy American-made steel rods \$9 per ton cheaper than they can be had in this country. Here is something that will be difficult for Mr. Grosvenor to explain satisfactorily, even at the muzzle of a coal mine.

AROUND THE COUNTY.

From the Coquille City Bulletin.
Word from H. W. Dunham, who is at Teller City, Alaska, is to the effect that he has been very low with typhoid fever, but at present he is somewhat better.

W. J. Henry and sons, A. A. and G. W., arrived in town, Tuesday, from Whatcom, Wash. These gentlemen are looking for a location and have decided to locate with us. Sherman Finn and Miss Mary F. Kinnicut, both young people of Fairview, were married in the parlor of Hotel Coquille, last Sunday morning, Sept. 15, Judge Harlocker officiating.

R. S. Tyrell, of Ferndale, Cal., came up on the last trip of the Alliance and returned Wednesday. Mr. Tyrell brought up 40 head of young cows, which he placed on his dairy farm on the lower river.

Atty. E. D. Sperry, wife and daughter arrived in town Wednesday evening from Lakeview, Ore., and will locate with us. Mr. Sperry and family come very highly recommended both as to Mr. Sperry's ability as an attorney and as to their social standing.

Appeal to Reason: The government census for 1899 shows that the petroleum produced in this country for the year was valued at \$123,929,384. It employed 12,199 men who received \$6,717,087. To put it in another form the people paid \$123 for what \$6 was paid in wages to produce. The people paid twenty times as much as the oil would have cost them; if the public owned and operated the oil industry. Are you benefited by paying twenty prices?

PAY UP NOTICE.

Having sold my undertaking business to the Bandon Furniture Co., all persons indebted to me will please call and settle with Geo. P. Topping, who is authorized to collect accounts for me and give receipt therefor. P. LOUGHEE.

BANDON LODGE, No. 115, A. F. A. M.
