EDITORIAL.

There has been some anxiety exhibited over the surplus that has been piling up in the United States' treasury, and its reduction has become a matter of interest, that is, Secretary Gage is buying up bonds at a premium, which will help hold the surplus in abeyance. By the way, Senator Hanna is looking longingly toward that surplus and if he can once launch his Ship-Subsidy bill the surplus will need no other anchor to hold it down.

And now we as to witness a free and easy fight between two heavyweights, Governor Van Sant, of Minnesota and J. Pierpont Morgan of the Earth. United States judges will referee the bout. Governor Van Sant will have a great commonwealth behind him and General Morgan's backing will be summed up in a billion dollars. This contest will be more interesting than any heretofore put in the ring as the prize is larger and the gate receipts more desirable. All citizens of the United States will be interested spectators while the world generally will watch with bated breath and if Van Sant does not throw up the sponge it will be a fight to the finish.

The mayor of Portland wants to round up the toughs and drive them out of town as a manner of getting rid of them. There seems to be too much of that disposition manifested, not only in Portland but other places. The disposition to shift responsibility is a growing evil. The desire of each locality is not so much to reform society as it is to get rid of its bad characters. Those who favor shifting the responsibility do not care what nuisance another locality may be put to through their act, nor what crime is the result of their negligence to cope intelligently and wisely with the toughs that may come to their community or are raised among them, so long as others have to shoulder the responsibility. That kind of reform has rather a sepulchral atmosphere connected with it and reminds us of reforms inaugurated in which the acts are merely hidden instead of discontinued. The world is full of people who want other persons to do their disagreeable tasks.

Sometimes smart people make mistakes, and Third Assistant Postmaster General Madden is probably one belonging to that list. He is desirous of shutting the *Appeal to Reason* out of the mails, ostensibly on the ground that it has not a legitimate subscription list, but the real cause is more likely to be found in the economic truths it teaches. However Socialism will lose nothing because of Mr. Madden's opposition as the advertising that it will receive will have a contrary effect while the opposition will stir up an energy of purpose such as Mr. Madden and his obstructionists have never dreamed of. This is said to be a free country and even if that journal's list was in part or all gratuitous, so long as Editor Wayland paid the regular mailing price it is certainly nobody's business. If Madden wants to aid reform he might reform the Franking privileges by which the country is flooded with tons of trash, during campaigns, calculated to deceive and blind voters and for which the public has to foot the bill without being consulted in the matter.

Oregonian: Sir Thomas Lipton is a very rare man; he can lose heavily, and yet look pleasant. His confession that "the Americans made everything easy except the trifling matter of lifting the cup" is, in its absolute candor and good humor, worthy of the brightest and best of Charles Lever's heroes of Irish fiction. Nothing in "Harry Lorrequer" or "Tom Burke of Ours" is more instinct with Irish courtesy and gay humor than this remark of Lipton's that "the Americans made everything easy for him except lifting the cup." Verily, Sir Thomas Lipton belongs to that rare class of men of whom it has been felicitously said, "They were more than successful, for success may only imply good fortune; they deserved success even when defeated."

The Weekly Oregonian and this paper give you all the news of home, state, the Northwest and the nation.

AROUND THE COUNTY.

From the Coquille City Bulletin.

The raise in the river the past week allowed several hundred logs to come out of its tributaries. Lyons mill, at this place received several hundred, as did also Johnson's mill.

While playing football, during the noon hour, at the public school, Wednesday, Leland Howie, son of A. E. Howie of this place, had the misfortune to break his right arm between the elbow and and wrist.

The house of A. Boyrie came very near being burned to the ground, last Saturday. A defective flue in Miss May's room was the cause of the blaze, and before the flames were extinguished by Mr. Boyrie and Clarence, the contents of the room was destroyed.

From the Coast Mail.

F. M. Freidberg is now sole owner of the Marshfield electric light works, having purchased the plant and franchise of the General Electric Company. Mr. Freidberg has been in charge of the enterprise here for several years, and is thoroughly familiar with the situation.

On Saturday last it was announced here that the vein of cool for which W. A. Maxwell has been prospecting on the Watson place at Coos City, had at last been reached with the drill. It is stated that the vein was was struck 760 feet below the surface, the prospecting shaft being down 610 feet and the drill having penetrated 150 feet further. Mr. Maxwell's sound judgment, which has been vociferously called in question by some of our local coal experts, is thus vindicated, and his self reliance rewarded. The vein of coal is said to be a large one with good roof and floor and pitching at an angle of about 10 degrees. The plans for the opening of the mine are said to include a double hoisting shaft, to be put down some 700 feet south of the prospect shaft, the latter being put down to the vein and used in the development work, and later for ventilation.

Telegram: Snow, it is said by a supposedly competent authority, offers a remarkable resistance, to penetration by a rifle bullet, far greater resistance, indeed, than ordinary wood. Experiments made in Norway have shown that a snow wall four feet thick is absolutely proof against the Norwegian army rifle, which, by the way, is of exceptional piercing power, and that at all ranges from fifty yards up to half a mile. This suggests a new means of defense in Winter campaigning, as snow is far more easily and quickly handled than earth or sand bags.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O.

Germany Suffering from Tariff.

Springfield, Mass., Republican.

Germany's tariff is of the strongly protective kind, and while it has proved its ability to stimulate trust combinations and the syndicating of industry, it has been unable to prevent panic and depression from following the boom of the past few years. The crisis there has now reached the stage of mass meetings among the unemployed.

Extend the Application.

Cincinnati Enquirer.

In the Ohio campaign Senator Hanna said: "Let well enough alone." Now that the proposition to revise the tariff is up and the "barons" have given orders that it shall remain as it is he is likely to again declare: "Let well enough alone." If that is to be the prevailing motto let us apply it to the ship subsidy bill.

C. WOCKNER. This is the opinion of one of oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. On Stoves.

An exchange gave out the following which will prove interesting as regards the use of stoves:

Owing to the mildness of the climate in Portugal heating stoves are rarely used in that country.

Heating and cooking stoves are both used by the upper classes in Greece, but the lower classes still live without using either.

Very few heating and cooking stoves are used in Paraguay. All the houses have brick stoves built in them, so that iron stoves have little or no sale.

Stoves made of tiling are in general use in Austria. They are said to be superior to iron stoves on account of the great economy of fuel possible by their use.

There is in the Mediterranean countries a widespread prejudice against all artificial heat, and consequently not more than one house in six is ever heated during the winter time.

Iron cooking stoves are almost an unknown luxury among the people of South America and the West Indies. They still cook in open fire places and by other primitive methods.

The cooking stove, as it is known in the United States, does very little service in France. A few are in the country, but in most farmhouses the cooking is done in a large open fireplace. In the cities a furnace is built in the small kitchen.

Look Out for Another Fraud.

From the CoastMail.

The following letter which we are enabled to publish through the courtesy of Captain Norman Nelson, of the Cape Argo Life Saving Station is self-explanatory. If our exchanges will kindly copy they will help to head off a fraud.

SAN FRANCISCO, Nov. 23, 1901.

Keeper, Cape Arago L S Station,
EMPIRE CITY, OREGON.

SIR:—

The following is a copy of a letter dated Nov. 19th, 1901, this day received from the General Superintendent of which you are requested to take note,—"A concern calling itself the "Ex U. S. Life-Savers' National Benefit Association" has been incorporated under the laws of the state of Maine for the alleged purpose of publishing and selling a history of the U. S. Life-Saving Service.

"It has been learned that agents sent out by this concern are soliciting subscriptions in various parts of the country, professing that the money obtained is to be used for the benefit of ex-life-savers of the U. S Life-Saving Service and their families.

"This office desires it to be understood that neither the Life Saving Service nor any of its officers has anything to do with the project or any connection whatever with it.

"Please give this statement the widest possible publicity by every means convenient to your hands. It is suggested that some of the news papers in your district be asked to publish a notice of the foregoing as a matter of news."

(Signed) S. I. KIMBALL,
General Superintendent."
Respectfully yours,
T. J. BLAKENEY
Superintendent.

The Commoner.

(Mr. Bryan's Paper.)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the Recorder together for one year for $2.25. The regular subscription price of the two papers when subscribed for separately is $3.00.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 30, 1901.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment. I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

F. A. WERMAN, 730 S. Broadway, Baltimore, Md.
