THURSDAY, JAN. 2, 1902.

EDITORIAL.

The governorship of Oregon must be a desirable billet, judging from the number of aspirants to that position.

There are indications of another Boxer uprising—Bob Fitzsimmons and Jim Jeffries will probably have another battle.

If you have resolved, stand by your resolution. If you have sworn off, keep your oath. Remember these be New Year times.

Mitchell has again introduced an Indian War Veteran bill, but this is hardly news, however if he lives long enough, he will introduce it annually just as he formerly did.

Another Venezuelan revolution is to be inaugurated soon, according to dispatches from that strife cursed part of the globe. Those Spanish-American countries hardly patch up one revolution till they are into another one.

Christmas has glided away with its pleasant memories, but with actual war existing in the Philippines, in South Africa, in Northern South America, and war threatening to break out in several other localities, it looks as if peace has flown from the earth.

Edgar Stanton Macley, who defamed Admiral Schley, has been dismissed from government employ. Macley did not want to go, and hung on long after tenacity ceased to be a virtue, but Uncle Sam's boot was vigorously applied and the defamer was kicked out.

The Steel Trust is not only powerful in the purchasing power of its capital, but it purposes to be formidable in numbers as well, hence, it is making small stockholders of its employees. This will tend toward making it a more formidable institution and to give it a longer existence to bleed the public, because of the greater number of people interested in its profits, but the time will come when necessity will demand that government take these institutions and conduct them in the interest of all its citizens.

The Postoffice Department is exercising a censorship over publishers of newspapers that is likely to become more galling to the lovers of liberty than was the tax on tea in the days of our forefathers. Our liberties have come to a pretty pass when a man cannot have the privilege of subscribing for a copy of a newspaper or as many copies as he pleases and have them sent to whom he pleases, from the publisher at the same rate that any other subscription is paid for. The Postoffice department has so ruled.

The Postoffice Department has become the sponsor of the American public and it is bound that the people shall be held in ignorance, hence it has taken upon itself the sponsorship of the press and curtailment of reform papers. According to the rulings of late you have no right to send out doctrine that might open the eyes of your friends. Another move or two in the retrograde direction and we will behold the burning of witches and other diabolical deeds which were supposed to have passed away with the dark ages.

The move by the postoffice authorities to hinder the dissemination of thought has behind it the mighty money power which is monopolizing the business of the country and making slaves of the laboring masses. The minds which control the mighty monopolies know that they can enslave toilers, and rest secure in their nefarious manipulation of the resources of the country and profits from production only so long as the great mass of mankind is kept in ignorance of the unfairness of the means by which they are held in a state of serfdom, hence the strenuous means that are resorted to in order that the diffusion of knowledge may cease. The evil one is afraid of encroachments upon his kingdom. The diffusion of truth is detrimental to evil workers.

Telegram: Three blue diamonds valued at \$540,000 were given as Christmas presents to three women by three American millionaires. When you took down your little stocking full of nuts and candies last Wednesday morning you could have sat down and thought over just how much ice you cut about Christmas time.

Prophecy of W. T. Stead.

London Daily News Refuses to Indorse His Views.

LONDON, Dec. 28.—The Daily News this morning, in an editorial discussing William T. Stead's pamphlet on "The Americanization of the World," admits that Mr. Gladstone's prophecy that the United States would replace Great Britain as the premier nation has been on the whole realized; but it declares it to be utterly impossible that Great Britain, as Mr. Stead extravagantly suggests, should ever enter an American Union, except after a series of disasters rendering separate existence impossible. The paper considers any kind of an Anglo-American federation equally unlikely, owing to the Briton's insatiable love of caste, which led Cobden to insist that Englishmen were aristocrats rather than democrats.

For the rest, it confesses the enormous influence which the United States wields over British colonies, and that a majority of Irishmen would vote for federation with the United States. The article further says it would be interesting to see what might happen if the United States should drop its protectionist policy and should offer to Jamaica, Canada, or even Australasia the immense bribe of admission on reciprocal terms to its vast, ever-extending markets.

Portland Dispatch: There are five of them as far as heard from in the field for the nomination for governor on the republican ticket—Governor Geer, W. J. Furnish of Pendleton, Jonas M. Church of Union, Henry E. Ankeny of Jackson, and Stephen A. Lowell of Pendleton. There is one farmer—when he is not governor—two bankers, one miner and general rustler, and one lawyer in the list. The farmer and miner seem to be in the lead at present.

Don't Want Such Combination.

Kansas City Star: While the Government is responsible for the policy which makes it possible for Andrew Carnegie to make it a tender of \$10,000,000 gift, to accept this offering would not be a proper way of squaring things up. Uncle Sam needs no help from the trust magnates, but the people are entitled to relief from the system which helps to make multi-millionaires at the expense of the consumers.

Ten million dollars is nothing to Mr. Carnegie, whose power to advance the prices of the output of his mills puts him in the way of making that sum good in a short time. His munificence costs him not the least sacrifice, but gratifies his vanity. His vast accumulations stand for profits which are unjust and excessive, and which are extorted from the people with the sanction of the Government.

It would only be adding humiliation to the injury which protection and its embargo on fair competition impose upon the people, to allow any beneficiary of the trusts or the tariff to throw a sop to Uncle Sam.

A Brave Woman.

WALLA WALLA, Dec. 24.—A brave woman is Mrs. Frank Kees, wife of Sheriff Kees, of Walla Walla County. But for her there would have been a jail break at the county jail Sunday night. Fourteen men were implicated in the plot. When the jailer was locking the prisoners in their cells he was overpowered and nearly choked into insensibility. The men hopped to escape in the presence of the Sheriff, who is carrying one arm in a sling, as the result of a recent accident. They attempted to knock him down as they left the jail. They had not counted on Mrs. Kees, who, when her husband was attacked, rushed into the jail with a big revolver and drove the men to their cells. When the prisoners were locked up she returned to her household duties as though nothing unusual had happened. Judge Brents and Levi Ankeny last night presented Mrs. Kees with a handsome silver pitcher, cup and stand and a solid silver salad spoon as testimonials of appreciation of her service.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHESEBURY & Co., Toledo, Ohio. Sold by druggists, 75c.

Hall's Family Pill are best.

A Great Scheme.

Friend—What are you working at now?

Inventor—Greatest thing of the age—a dollar in the slot voting and weighing machine. It collects the poll tax, counts the votes and so beautifully discriminates that there'll be no more trouble, no more politics, no more speeches, no more brass bands and, best of all, no more bores.

"My stars! What's the idea?"

"Simple as A B C. The machine only counts the votes of those under a certain weight. Quick as the party in power begins to get fat on the spoils of office their votes are thrown out, and the half starving minority gets fat it goes out, and so on. It beats all creation! Gives every fellow a chance to become a successful politician."—New York Weekly.

A Last Resource.

A lady was recently referred to her young son the story of a little fellow whose father was taken ill and died, after which he set himself diligently to work to assist in supporting himself and his mother. When she had finished the story, she said: "Now, Tommy, if pa were to die, wouldn't you work to keep mamma?" "Why no," said the little chap, not relishing the idea of work. "What for? Ain't we got a good house to live in?"

"Oh yes, my dear," said the mother "but we can't eat the house you know."

"Well, ain't we got plenty of things in the pantry?" continued the young hopeful.

"Certainly dear," replied the mother, "but they would not last long, and what then?"

"Well ma," said the young incur, "rigible after thinking a moment, 'ain't there enough to last till you get another husband?"

Ma gave it up.—London Answers.

A Cure for Lumbago.

W. C. Williamson, of Anaher Va., says: "For more than a year I suffered from lumbago. I finally tried Chamberlain's Pain Balm and it gave me entire relief, which all other had failed to do." Sold by C. Y. Lowe.

Ship Bounty Bill.

NEW YORK, Dec. 28.—The British Consul at Marseilles, in a long report on the competition of American coal with British coal in Mediterranean ports, arrives at the conclusion that the American competition will only become dangerous to the British trade if high prices continue to rule in England, and if American shipping interests succeed in securing the passage of the bounty bill, enables the London correspondent of the Tribune.

A GOOD RECOMMENDATION.

"I have noticed that the sale on Chamberlain's Stomach & Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For sale by C. Y. Lowe.

The Commoner.

(Mr. Bryan's Paper.)
The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts, and his review of political events as they arise from time to time can not fail to interest those who study public questions. The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the Recorder together for one year for \$2.25. The regular subscription price of the two papers when subscribed for separately is \$3.00.

ARE YOU DEAF?

ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new method. Only those who feel incurable. HEAD NOISES CEASE IMMEDIATELY.

F. A. WILKINSON, of Baltimore, Md., says:

"Continued... Being entirely deaf of both ears, thanks to your treatment I will now give you a full history of my case, to be read at your disposal. I will now give you about five years ago my right ear began to ring, and this kept on getting worse, until I had my hearing in this ear entirely gone. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most prominent of this city, who told me that only an operation could help me, and even that only a temporary relief, that the best advice would be to leave the hearing in the left ear, and if it should be lost, to be deaf. I then saw your advertisement, accordingly, in New York news, and ordered your treatment. After I had used it only a few days according to your directions, the noise ceased, and to-day, after five weeks, my hearing in the right ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

F. A. WILKINSON, 728 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost.
