Schwab Tells France That Europe is Far Behind Times.
Paris, Jan. 8.—Le Journal prints an interview this morning with Charles M. Schwab, president of the United States Steel Corporation, who defends trusts as a necessary outcome of an advanced state of civilization. Mr. Schwab says that the countries where trusts do not exist are destined to abandon the struggle for commercial supremacy. He says that the trusts have nothing to fear from socialism, and that the American workmen are better paid and happier under the trust system. When people earn good wages, he says, their rights do not trouble them.
 Mr. Schwab said further that the commercial power of the United States is unlimited and unlimitable. He says she will inundate France with her products and force the French industrial classes to abandon the struggle. America is only beginning. The Old World has no idea what the United States will become a quarter of a century hence. All here belongs to the middle ages. Mr. Schwab approves of the French plan of industrial schools in the United States, but expresses his fears that the graduates of these schools, when they return to France, will be paralyzed by the old ideas prevalent here, and will do little or nothing.
 Le Journal also announces that it is in receipt of a letter from M. Lebandy denying any connection with the reported gift of \$1,000,000 to the University of Chicago for the establishment of a French school in connection with that institution.

After I had used it only a few days according to your directions, the noise ceased, and to-day, after five weeks, my hearing in the affected ear has been entirely restored.
