

LOCAL NEWS.

Best Sorghum at Sandersons. You will find some good jewelry at N. Lorenz's. Try G. H. Magoon's for Fresh Groceries, Fruits, Provisions, etc. Pomeroy, of Parkersburg, was business in town Saturday. New bed-room Suits at B. F. Co's. Camps Photos at G. H. Magoon's. Myrtle Point, was contract from Roseburg...

Oranges at 10 to 40 cents a dozen at G. H. Magoon's. Garden seeds at J. Denholm's-Ferry's, Bowen's and Cox's. W. C. Sanderson wants 50 dozen chickens. Bring them along. A new stock of Picture Moulding & Picture Matting at B. F. Co's. BORN.-At Bandon, February 10, 1902, to Mr. and Mrs. P. E. Hoyt a son. The Foresters purpose giving their Annual Ball, Saturday evening, March 1st. SEE OATS.-Thomas Anderson has a fine article of clean oats of excellent quality for sale. No former registration will suffice. You must register again if you wish to use your right of suffrage at the June election. Jacob Prewett, jr., of Bear creek, was in town Monday and Albert Ferris, from that section, was doing business here on Tuesday. W. A. Wooliever has organized a camp of Modern Woodmen at North Bend on Coos bay. It took the name of "North Bend Camp." Lighthouse Constructor, W. G. Carroll has about finished repairs at the lighthouse. An oil house yet remains to be constructed. A. J. Hartman has made considerable improvements to his house in Woodland Addition, lately, by making some additions, painting, etc. S. E. Masters secured the mail contract between Port Orford and Gold Beach. The service is six times a week and consideration \$1492 a year. Captain Burns is making his headquarters in town at present. He has the bark Baroda ballasted down so that she is resting all right, bow on to the sea. Z. T. Siglin has the mail contract between Coquille and Marshfield for the period of four years. The service is six times a week and the price is \$684 a year. During the thunder storm, the latter part of last week, the lightning disarranged telephone connection at Marshfield by burning out the lightning arrestors. The bar has been very rough for the past two weeks with no intermission of its rough condition. The Argo and Monterey are still awaiting a chance to get out. Attorney Upton has received a supply of registering material and has been registering voters during the last two days. You can call and register now at any time. The twice a week mail from Myrtle Point to Eckley will be carried by B. Fenton for \$300 a year, and Louis Knapp of Port Orford has the Myrtle Point-Port Orford route, six times a week, at \$2147. Now is the time to call at N. Lorenz's store and order a new suit. A new sample book has just been received and there are choice selections to choose from. Order before the best is chosen. Politically this section is asleep as yet and whatever there is of interest in that line has not come to the surface. Possibly the quarantine has been an instrument to keep back political ardor on account of the non mingling of persons from other points in the county. The Board of Health have given out the information that the quarantine restrictions inside the corporate limits of the Town of Bandon, will be raised on February 23, providing no further cause arises to create unfavorable conditions. If outside conditions are favorable, the quarantine will be lifted altogether at that date. J. P. Tupper has drawn the lucky number again in the following item from last week's Coquille Herald would indicate. The Herald says: "J. P. Tupper, of this City, proprietor of Hotel Coquille, has received word from London, England, to the effect that a fortune of two hundred and sixty-five thousand dollars has been left him by an uncle Abram Tupper, through the estate of his father, James S. Tupper, of that city." E. Dyer & Shoemaker are experimenting upon cutting matches. They are preparing the wood for shipment in boxes. This product when it reaches its destination will be dried, separated into squares and dropped in the proper mixture, after which the finished article will be made up in packages ready to be placed on the market. Just what this experiment will amount to remains to be developed. This section can furnish an immense amount of matchwood, and if it can be worked up at home and shipped at a profit, it opens up possibilities for the employment of a large number of men.

Steamer Mandalay is due to-day. Mrs. J. B. Gross is suffering from erysipelas of the face. Mrs. J. M. Upton was a sufferer from pleurisy, this week, but is convalescing. Those wishing sewing done call on Mrs. W. H. Logan. Dress making and plain sewing done at reasonable rates. Mrs. Wooten hereby gives notice that she will start a term of private school in the Bandon district on Monday, March 3. Charles Magee, of Empire, who has been doing the carpenter work on the bark Baroda, for some time past, went home last Monday. Dr. J. W. Strange, our regular visiting dentist, came in from Dairyville yesterday, and is at the Tupper House where he will be for a few days. Call on him for dental work. It should be borne in mind that in having your dental work done by Dr. Strange, you are served by a dentist of extended experience, and who is a regular visitor to the town and makes all work good and fully guaranteed. W. H. Peck, who left some weeks ago to visit his home in Chicago, returned here last Thursday, accompanied by his brother, E. C. Peck. The Peck Brothers visited their mines on Sixes, during the past week, returning to this place Tuesday. H. A. Gross was called before Recorder Morse, last Tuesday on a charge of having used profane and abusive language in a public place. He was fined \$10 and costs, amounting to \$15.05. Mrs. T. Lewis was the prosecuting witness. On Vaccination. Two issues back we published an article giving an eminent physician's belief that smallpox will disappear in a few years, and that vaccination was instrumental, according to his belief, in producing the mild form which that malady is taking on. Below we give an article on vaccination taken from Medical Talk, an independent medical magazine published in Columbus, Ohio: In a late issue of the Medical Talk we ask the question, what is seed vaccine? Those who manufacture vaccine virus use something or other with which they inoculate heifers. This something or other produces a disease in the heifer which results in forming blebs or blisters on the teats and udder. Picking open these blebs, the doctors collect something they call lymph which they use as vaccine virus. Now what we want to know is: What is this stuff with which they inoculate the heifer? We ask this question in a recent issue of Medical Talk, offering five dollars to any physician who would tell us what seed vaccine is. We have received several letters on this subject. From one doctor we received three letters in which he undertakes to answer. In his last letter, however, he admits that he is unable to find out much about the matter, except that it is some poison. This serves to indicate what a mystery surrounds the whole art of vaccine virus. The doctors take something or other, nobody knows what, and inoculating a cow with it they produce a disease in the cow. This disease produces an eruption on the cow. The doctors carefully collect the matter which this eruption causes. This matter contains some organic poison, no one knows what. It is called vaccine virus simply to give it a name. No one knows what it is however. This introduced into the blood of a human being will produce a disturbance of the system, slight fever and a sore at the point of its introduction. What it does to the human system, nobody exactly knows, and the doctors themselves can not agree about it. If the patient is lucky enough to live through the experiment, he is then said to be immune from small pox. He is just as afraid of catching small pox as he ever was before, and according to a great many observations, he is just as liable to catch it as he ever was before. The doctors insist in saying, however, that should he catch small pox he is much more liable to live through it. About this we are not quite certain. It is our experience, however, that a person who has been vaccinated stands no better chance to cope with the small pox than any one else. Again we ask the question, what is this stuff called seed vaccine? What is this stuff they inoculate heifers with to procure vaccine virus? Will any one of the M. D.'s rise to explain? We agree to publish their answer word for word in Medical Talk.

LIFE'S MIRROR. There are loyal hearts, there are aprils brave There are souls that are pure and true Then give to the world the best you have, And the best shall come back to you. Give love, and love to your heart will flow. A strength in your utmost need; Have faith and a score of hearts will show Their faith in your word and deed. For life is the mirror of king and slave. 'Tis just what you are and do; Then give to the world the best you have And the best will come back to you. -MABELINE S. BIRDSON. We are sending out statements of arrears, to patrons and would be pleased at an early response. A newspaper is like all other kinds of business-it cannot run without money. Young Roosevelt's Condition Press dispatches from Groton, Massachusetts announced the serious illness of President Roosevelt's son, Theodore. The following from the Daily Mail gives latest intelligence of the boys condition: Groton, Mass., Feb. 10.-Young Roosevelt is nearing the critical stage of his disease, he has grown weaker during the last twenty-four hours and any complications now would be highly dangerous. The boy is unconscious the greater part of the time. There is no immediate danger but the attending physicians have noticed with alarm that the symptoms are almost exactly like those of another student who died a few days ago. Nobody, not even the President knows when he will return to Washington. The President certainly will not leave until the critical stage of the disease has passed, which will last several days more, at least. The boy is said to be holding his own. The crisis will be reached within the next thirty six hours. The President realizes that the fate of the boy hangs in the balance but is bravely bearing up today. The disease is diagnosed as bilateral pneumonia. There is no change in the patient's condition this afternoon. He is holding out bravely. Cuba Invited to Annex. WASHINGTON, Feb. 5.-Representative Newlands, of Nevada, of the ways and means committee, who was the author of the resolution annexing Hawaii, today a joint resolution inviting the Republic of Cuba to become a part of the United States, first as a territory and then as a state of the Union, to be called the State of Cuba; and also authorizing a 25 per cent reduction of duty on the present crop of Cuban sugar, in consideration of Cuba's granting preferential rates to the United States. The resolution confines the 25 per cent reduction of duties to the period prior to January 1, 1903. Newlands, in explanation of his resolution said: "All those who have appeared to voice Cuba's needs and requirements have indicated that an invitation to Cuba of annexation would be accepted. Annexation by force would not be justified. It must be accomplished, if at all, by the free act of the Cuban people. At present there is no machinery in Cuba by which the popular will can be tested, but the Cuban constitution has been adopted. The Cuban Congress will meet in February, a Cuban government will be organized, and the United States will then leave the government and control of the island to its people. Cuba then will be in a position to express her will." For Stomach Troubles. "I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For Sale by C. Y. Lowe. Siuslaw's Hard Luck. From the Coast Mail. A private letter from a resident of Florence, dated Feb. 5th, gives the following vivid description of the situation on the Siuslaw: "There is all kinds of hard luck with the schooners here now, one lying wrecked in the mouth of the river, another on the ways, five barbound for almost two months with no chance to get out as there is only eight feet of water on the bar at extreme high tide, and five more outside, amongst them the Wing and Wing with all the provisions for the stores at here and Aene, not a sack of flour to be had on the river for love or money, and the d town quarantined. How's that for the Siuslaw?" COURT QUEEN OF THE FOREST. No. 17, meets Friday night of each month. All Master Masons cordially invited. T. J. THURFILL, W. M. W. HAYDON, Sec. FOR SALE.-A house and four lots in Bandon, conveniently situated. Good residence property-cheap. Enquire at this office.
