Portland-Coquille Steamer.

W. H. Addis, with R. C. Wilson, of Portland, who is in Coos county looking up the feasibility of putting on a steamer between Portland and Coos Bay Points, came down from Coquille Monday and registered at the Tupper House. He says he likes the invigorating Pacific breezes as they sweep in their purity over Bandon, as well as the hearty welcome he was accorded by the Bandonites.

The proposed boat, it is planned, shall be a joint Coos county and Portland affair, the company organized for that purpose being called the Oregon Coast Navigation Co.

That the putting on of a boat that would make regular trips between here and Portland would be of immense value to Bandon and the Coquille valley is beyond doubt. Mr. Addis states that he received unstinted encouragement in Coquille and if a like encouragement can be had in Bandon the boat will be built on this river, a captain who knows all these harbors and bars and who is interested in the wellfare of Coos county will be put in charge, and a regular weekly round trip between Bandon and Portland guaranteed.

No better proposition could well be made to the people of Bandon and the Coquille valley. It would make it possible for Coos county to get its share of the thousands of persons who are coming to Oregon, looking for homes and investments. It would bring Coos county in close touch with Portland and the rest of the state, set San Francisco and Portland merchants competing for the trade of this county, and bidding up for our butter, poultry, fat stock, apples and other products.

The development of Coos county, the Coquille valley in particular, has long been retarded as a result of a lack of transportation facilities between here and Portland. Now that it is possible to have a regular and permanent means of communication it is to everyone's interest, who has the development of this region at heart to do all he can to encourage and assist in building and maintaining the proposed boat line to Portland,

She will remain several days and desires the ladies of Bandon to give her an early call and examine her goods. Mrs Aiken has changed date from notice of handbills.

Citizens Meeting.

There will be a citizens mass meeting of the citizens of Bandon at the Town Hall Tuesday evening, April 1st, at 8 p m, for the purpose of discussing the putting on of a steamer between the Coquille river and Portland. Everyone interested is invited to be present and take part in the meeting.
