BANDON, OREGON: THURSDAY, MAY 29, 1902

Number 22.

LOCAL NEWS.

W. H. Rogers of Myrtle Point was visiting town Saturday. Fresh ground bone for poultry at W. C. Sanderson's store. Dave Carey, of Coquille City, was a visitor in town Saturday. Special—24 Large Stamps Photos 25 cents, at Wrenshall's gallery Bandon. William Corbin, of Port Orford, was in town the latter part of last week. Captain O. Reed, of Norway, was a visitor to Bandon, the latter part of last week. J. P. Tupper came down from Coquille Friday to look after his Bandon interests. Of groceries, fruits, nuts and candies you always find a choice selection at Magoon's. James Culver, of Sixes, was in town Friday and Saturday, having come up to meet his father. When you want a separator buy a De Laval; you take no risk; they are the best. You get full value for your money. The schooner Coquelle left here Wednesday and got into San Francisco on Friday making the run down in 50 to 54 hours. T. H. Chapman and family, from Wedderburn, were in Bandon last Friday on their way to Washington where they expect to locate. A. S. York, of Portland, was doing Bandon, Saturday, in the interest of the Evening Telegram for which he was soliciting subscriptions. R. H. Edwards, of Okosk, Wisconsin, and J. Roemer, of Spokane, Washington, were in this section Saturday. They are looking after timber interests. Z. T. Johnson, of Myrtle Point, was in town Saturday evening being accompanied by W. L. Martin, who hails from the East and whom Mr. Johnson was showing around. Several Bandonians went to Marshfield to see the ball game last Sunday, among the number being T. A. Hanrahan, who inspired the game. They returned home about ten o'clock that night. We failed to get the passenger list of the outgoing Mandalay last week but give it here. The list follows: F. N. Perkins, F. P. Kelly, J. Barker, W. R. Ritchie, Thos. Vukusic, Mr. and Mrs. R. C. McKinnis, J. Donaldson and E. Gundelinger. Mr. and Mrs. R. C. McKinnis who have been visiting relatives here for some months, left last week and will try California climate for awhile. Their visit to the coast was largely in quest of health and their stay here was with good result. Roy McDowell who has been in charge of the night shift of weavers in the woolen mills here left last week on the schooner Coquelle. J. Jones, another employe at the Woolen mills, left very suddenly on the same boat. "Good by Jonz-y." Mrs. Dan Giles gave Dairyville a business visit, last week, returning here Friday and leaving for her home at Myrtle Point next day. She did quite a business here and at Dairyville, and disposed of nearly all the stock of goods she had with her. A quiet wedding took place on Beaver Slough last Saturday, the contracting parties being Miss Daisy Tension and John M. Ward, both being residents of that vicinity. Miss Tension is the daughter of W. J. Tension, an old and respected resident of Coos county. Captain Marr, of the Baroda, came driving into town Saturday, and from the surprise apparent among the boys, one would suppose that they had concluded that the captain would be unable to steer a land craft without a compass. He left yesterday for his home the Baroda having changed owners by payment of the insurance. The Bandon baseball players had a practice game on the parade ground last Sunday afternoon, that being the first time this season that the ball game was dry enough to play on. This week will dry it out and the grounds will be in fine shape for the game between Marshfield and Bandon, next Sunday, providing the weather holds good. The baseball game last Sunday at Marshfield between the team of that place and the Coquille team was very close and is pronounced to be the best game ever played in Coos. The score was 7 to 6 runs, in favor of Marshfield the last run being made after two were out. T. A. Hanrahan umpired the game and gave the best of satisfaction.

Seed Oats at W. C. Sanderson's. W. T. and James Wilde, of Bandon, Kans, were here looking around this week. De Laval Cream Separators for light running and clean skimming have no equal. Elder Crumley will preach in Swift's hall next Sunday, morning and evening, at the usual hours. In provisions and groceries G. H. Magoon always carries a select stock. Fresh supplies arriving on each vessel. Don't you ever think for a minute that Bandon isn't going to celebrate, for she is, and there is going to be a good time coming. J. M. Upton and family took advantage of the excursion to Marshfield, last Sunday to visit Mrs. Upton's parents at that place. The De Laval Cream Separator is used in all counties and are recognized as the superior of all machines made for separating cream from milk. D. Prentiss, the Marshfield dentist, will be in Bandon July 8th and remain two weeks. He brings a complete outfit and anything in the dental line can be done here as well as in the large cities. S. J. Culver, of Camas Valley, arrived here Thursday evening and remained until Saturday morning having business which called him this way. Mr. Culver and family will move back to Bandon in a short time, or as soon as the roads get in good condition for travel. The Marshfield and Bandon teams will contest on the Diamond here next Sunday afternoon and a large crowd of visitors is expected, there being excursions from Marshfield, Myrtle Point and Coquille. The Favorite and Dispatch will both run and it is expected that a large crowd or two will have to be used to accommodate the people. Mr. and Mrs. W. W. Shipley were the recipients of a farewell party last Saturday night which was a complete surprise, as the members of the G. A. R. post and the W. R. C. moved in on them under the leadership of Mr. and Mrs. A. M. Sumner, and captured the castle before the occupants knew what was taking place. However it was a friendly force that invaded their home and instead of battering the domicile with missiles of war, the invaders had come well stocked with cake, candies, nuts and fruit, and a very pleasant evening was enjoyed by all. Mr. and Mrs. Shipley intend starting for Humboldt county in a few days having secured a team, tent and other things necessary for camping out, as they will go by land. Another Vessel Building at Prosper. The latter part of last week witnessed the commencement work for the building of a steam schooner at Prosper and the work of construction will move along until completed. The dimensions of the vessel are, as far as we have learned, 158 feet keel, 170 feet over all, and 34 feet beam, with a carrying capacity of about 500,000 feet of lumber after her machinery has been put in place. The timbers for the frame are to be of white cedar and 20x14 inches in size. The builders are Messrs. Muir & Ross of San Francisco. Mr. Muir is at Prosper getting out timbers and preparing the ground for the ways. Mr. Ross, accompanied by a crew of ship carpenters, is expected to arrive on the Mandalay when she comes in again. According to information that has gone out the crew will work under the nine hour system. After the vessel is launched she will be loaded with lumber and taken to San Francisco to receive her machinery. Just where she is to be put in commission after completed has not been learned. The building of this vessel on the Coquille will help to make business lively and it is to be hoped that it may prove so successful that other contracts may follow. WONT FOLLOW ADVICE AFTER PAVING FOR IT. In a recent article a prominent physician says, "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by C. Y. Lowe.

Baseball next Sunday. Decoration Day to-morrow. Mr. R. Lee is giving Myrtle Point a business call. J. M. McLeod of Riverton was in town yesterday. L. H. Hazard was shaking hands with his friends here Tuesday. BORN—At Bear creek, May 28, to Mr. and Mrs. Elmer Doyle, a son. E. C. Holland, of the Bulletin, was doing business in town Tuesday. One of our citizens had a way-up time the other evening introducing a young Carryite as Gov. Furnish. Mrs. Wooten closed a very successful term of private school here Tuesday upon which occasion a splendid program was arranged to which the public was invited. The closing exercises were well attended by patrons and members of the G. A. R. Hume's Reply to Burn's Circular. From the Coast Mail. A dodger signed by E. B. Burns, captain of the Copper Queen, and making statements intended to injure R. D. Hume in his candidacy for the legislature, was circulated Monday in Marshfield, and Mr. Hume being notified sent the following reply: Ed. MAIL:—This man Burns has been on Rogue river for a number of years chasing phantoms. He has made no success of anything he has undertaken. His gasoline boat the Copper Queen has been disabled many times and repaired at my shop, every accommodation having been given him. His business he has pretended heretofore was mining, but lately he has built a small sawmill up the river. The schooner Free Trade came here for a cargo of about 15,000 feet of lumber about three weeks ago. It had two and a half tons of freight for Mr. Burns and a hold full for the copper mill. The freight was discharged at my warehouse there being no wharfage paid by the schooner Free Trade. When the Copper Queen went to Coos Bay she took a load from my wharf and also paid no wharfage. When the freight was discharged by the schooner Free Trade I ask the captain to hand her up to the end of my wharf where she could lay in safety, and I said to the captain I hope you will leave her at the wharf and not anchor her in the fishing grounds so as to interfere with the fishermen. After some conversation with Mr. Burns' employes the captain took the Free Trade into the middle of the river and anchored her right in the fishing grounds. My fishermen got their nets fouled by sides having them spoiled and torn. I then wrote the captain that if he did not move her I would bring suit against him. He moved to another place which was out of the way, and stayed a day or so, but finally moved back near where he first anchored. The Free Trade was in the river nearly three weeks, and had she been in any other river the fishermen would have set her adrift. Rather than to have any trouble I let the matter pass, although the citizens here were so indignant that had I brought suit he would surely have been cinched. I have never meddled with Mr. Burns in any way. Anyone knows that the mouth of the river is open and he can go and come when the weather permits, and he can run his boat up the river just as far as the river will permit in its natural condition. I have put no bounds nor put any obstruction in his way. He has made a great talk of opposition to me while I have said nothing regarding his affairs. I will say however that my method of business makes it difficult for him to run in this country for any great length of time, as I pay cash, and he gets into the hands of the sheriff every now and then. His capital stock consists of tales of great mining property he owns but cannot work on account of that man Hume. By these tools he catches a few sneakers who dole out for him in homopathic doses enough cash for him to partially recover from the last sheriff's sale of his property which was paid for by a previous run of the same sort. The men who are working for him at Gold Beach are anxiously awaiting his return, and if the sack does not contain sufficient to pay what he owes them there will be another visit from the sheriff. My opponent, Mr. Guthridge, was in the employ of Mr. Burns, or of some of the parties interested with him, but he quit him a few days ago, and he had to take his pay in sugar as long as it lasted, but I believe there is not enough sweetening to go round. Respectfully Yours, R. D. HUME.

To the Taxpayers. EDITOR RECORDER: I desire to call the attention of the voters of Coos county to the following statement, showing cost to the taxpayers for extra help employed in the clerk's office since July 1, 1893, when the clerk's office was placed on a salary: July, 1894, to July, 1895, \$988 50 July, 1895, to July, 1896, 146 25 July, 1896, to July, 1897, 389 08 July, 1897, to July, 1898, 91 10 During Mr. Hazard's term considerable extra work was thrown on the clerk's office, such as the registration of voters, and other minor duties added by the legislature, and a larger volume of work was also handled, and yet he has saved the taxpayers of the county quite an amount, as will be seen by the above statement. The voters and taxpayers of the county should show their appreciation of this business-like management of the office, and retain Mr. Hazard in this position. If you have a man in your own employ whom you have tried, and is in every way satisfactory, do you discharge him for one whom you have not tried in the same position? He has labored faithfully for your interests during his past administration, and if reelected will do so again. The above figures are taken from the official records of the county, and can be verified by any one who desires to look them up. I wish to add, for the consideration of those who believe in the economical administration of affairs connected with the clerk's office, that the clerk and deputy should be good typewriters, such as the present incumbents. If they are not, the work will be much slower, and extra help would have to be employed and paid for by the taxpayers. If the people want a good, economical administration, such as the present clerk has given them, they should re-elect him. No matter how good Mr. Wolcott's qualifications are, he lacks the experience in this particular position, and such experience can be acquired only at the expense of the taxpayers. Nearly all the recording is done on a book typewriter, which is much faster than with a pen, if the person is a good operator; but if he is not then he cannot do the work so cheaply. TAXPAYER. Coquille, Oregon, May 17, 1902. No Loss of Time. I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. R. PHELPS, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this Remedy in your home. For sale by C. Y. Lowe. Decoration Day Programme. Following is the programme for Decoration Day: Bandon Post, No. 56, G. A. R. will meet in Munck's Hall, at 9:30 A. M., May 30, 1902. The procession will form on Front Street at 10 a. m. in the following manner: 1 Fire Department Band. 2 Children bearing wreath of flowers. 3 Bandon Post G. A. R. 4 Bandon W. R. Corps. 5 Bandon Fire Department. 6 Citizens. 7 March to the Cemetery. 8 Decoration of Graves. 9 Taps. 10 Return to town and break ranks for dinner. The afternoon exercises will commence at 2 o'clock, sharp, in Munck's Hall. The oration will be delivered by Rev. Holcomb of Coquille. All ex-soldiers of the Spanish and Philippine wars are cordially invited to present. A cordial invitation is extended to the public generally to turn out and take part in the exercises, as this is a day above all others that should be properly observed. A request is extended generally to each to bring all the flowers possible for decorative purposes and leave same at Munck's Hall. By Request of the G. A. R. Whooping Cough. A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—JESSIE PINKNEY HALL, Springville, Ala. This Remedy is for sale by C. Y. Lowe.
