It is estimated that the freight hauler's strike, in Chicago, costs business men of that city, a loss of a million dollars a day. Under Socialism strikes will be impossible and such loss unknown. A few more years of wasteful competition and the brotherhood of man will be ushered in.

The organization of labor unions is steadily advancing in Coos. L. E. Dole, organizer of the American Federation of Labor, when here, informed us that the membership in this county, including the Longshoremen, millmen, loggers, engineers, ship carpenters, ship caulkers, painters and paperhangers unions would aggregate about 500 persons.

Mrs. Wagoner, who found the body of Merrill will be denied the price set for Merrill's body dead or alive, and will have to apply to the courts. Public safety demanded the apprehension of Merrill, hence the price was placed upon him. If Mrs. Wagoner had killed him there would be no doubt of the legitimacy of her claim, and as it is, all that the public cares to know, is that Merrill is dead and Mrs. Wagoner having been the one to satisfy this demand, should have the reward.

John W. Gates made a million and a half dollars by cornering the corn supply. Gates is one of the Steel Trust magnates. This is an illustration of the power trusts possess. If the corn supply can be cornered and the prices raised so also can the prices of other products. Prices raised by this means brings a curse instead of a blessing, as the producer does not profit by it, as he has already disposed of his product, while the consumer must expend an extra amount of his earnings to secure the same amount of the product whose value has been enhanced. The manipulator has not helped the producer except in a few isolated cases while he has directly fleeced the consumers. In this transaction Gates did not create a dollar's worth of wealth yet he became possessor of \$1,500,000.

Valley Record: While Mr. J. Pierpont Morgan enjoys somewhat more power than does King Edward, he does not have to go to the trouble of a crown fitting performance.

Port Orford Tribune: News is received here that a girl aged 20 or 23 years, a daughter of Robert Smith, of Gold Beach, was killed last Sunday, by falling from a buggy, while returning from a dance at Bagnell Ferry. We have been unable to obtain full particulars.

Port Orford Tribune: Mr. Geo. Belloni, the Star Ranch dairyman, shipped sixty head of fine, fat hogs to the city by the Empire last Monday. Mr. Belloni buys all the fat hogs the dairymen a good market for all their surplus porkers right at home.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Dated at Bandon, Oregon, March 14, 1902. PETER NELSON, Agent.

The same Old Story. J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by C. Y. Lowe.

W. C. T. U. COLUMN. The next W C T U meeting takes place Tuesday, at 2:30, P. M., in the Methodist Church. Clippings from the Young Crusader. Two hundred medical men of Edinburgh and Leith recently made a declaration setting forth how detrimental smoking is to boys of a tender age by interfering with health and growth, and calling upon the legislature to use measures to regulate the sale to boys under 16 years of age. While speaking of the rights of non users of tobacco, Mrs. Mary E Garbutt in the Los Angeles Herald, says: "I once saw written over the doorway at Hazard's pavilion, where they had a big dog show: 'No smoking allowed here, for it hurts the dogs.' May that blessed time soon come when people to whom tobacco is offensive shall be treated with the same consideration. The "Medical Brief" of New York says of tobacco poisoning: The heart is the principal sufferer, becoming irregular (palpitation), sometimes painful (angina pectoris) in its action, causing physical disturbances, shortness of breath, cold sweats, etc., from sympathy. It also enumerates catarrhal diseases of the mucous membranes, muscular weakness and relaxation, with erratic cramps dimness of vision etc.

Drink, Crime, and Pauperism. The statistics obtained from the reports of over 1,000 prison governors in the United States to a circular letter addressed to them, and a summary shows that the general average of 903 replies received from the license States gives the proportion of crime due to drink at no less than 72 per cent; the average from 168 officials in prohibition States gives the percentage as 87. A considerable number of the latter were "boot leggers," in jail for selling whisky. Out of the 1,017 jailers, only 181 placed their estimate below 25 per cent, and 55 of those were from empty jails in probation territory. The relation of drink to pauperism is much the same as that of drink to crime. Of 73,945 paupers in all the almshouses of the country, 37,254 are there through drink.

An Appeal From The Home. "I am not Mrs. Nation. I have no kitchen: I am not that woman." These words came from the lips of a woman, as she met her husband face to face on a recent evening in one of the 250, 000 public saloons of the land. They were directed to the bartender and the woman's husband a glass of whiskey. She continued: "That man has not done a day's work this fall and winter, and now worn out trying to support him and the rest of the family; I want to know if something cannot be done to keep him from destroying his own life and starving his family." The woman was thin and pale. Her lips quivered as she spoke. Her frail body could hardly stand the strain of the unfamiliar environment. As she finished the little girl by her side burst into tears. The bartender took back the whiskey. The abashed husband turned with lowered head. One by one the loungers left the room. Presently the bartender gazing at the poor woman, solemnly vowed that the man should not drink at his bar again. It was a pathetic scene; it was the last resort of a desperate woman, as she left the saloon with her husband and the little girl there was a lesson to watch for pen to picters.—Zion's Watchman.

A New Pension Law. A new pension law has just gone into effect, which allows a pension of \$8.00 a month to those who served the United States for 30 days or longer (and received an honorable discharge) in any Indian War, conflict or disturbance occurring between 1817 and 1857. If the soldier is dead, his widow, if not remarried, can obtain the same pension. It is estimated that between six and seven thousand persons are entitled to pensions under this law, and many of them are thought to be residents of this locality. The law allows by law for obtaining such pensions, is ten dollars, which is payable out of the pension money. If no pension is allowed, no fee is payable.
