We are always needy, and hence, will send out statements to all those who are in arrears for a year or nearly that amount, and we will be pleased to have a prompt response. A newspaper to live must be paid.

In landing the steamer Dispatch at the wharf here Friday evening, the strong northwest wind sheared her around and drove her against the stern of the tug with the result that about a dozen studding of the deck house were broken.

Elder C. E. Crumley preached at the schoolhouse, near Jacob Prewett's place, last Sunday morning and evening. He left appointments for Tuesday, Wednesday and Thursday evenings at Esau Prewett's place, on Bear creek, which he went to fill.

A. Osborn and son Spray returned here last week from their visit to Eastern Oregon, whither they had gone in the interest of Spray's health, which is so much improved that he considers himself well again. He gained considerable in weight and has taken on a healthy look.

J. W. Felter brought us the product from one hill of potatoes which was dug in his potato patch near his house in Bandon. There were 8 tubers in the lot the total weight of which were 6 1/2 pounds. The variety is the Beauty of Hebron. Outside the lot brought us there were but a couple of small tubers in the hill.

Summer complaint is unusually prevalent among children this season. A well developed case in the writers family was cured last week by the timely use of Chamberlain's Colic Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time—Lansing, Iowa, Journal. For sale by C. Y. Lowe.

Big Real Estate Deal.

Looks Like Railroad to Interior Must be Assured.

Besides other indications that Coos county will in the near future have easy access to the interior, the following clipped from Tuesday's Coast Mail is indicative that there is something more than wind in the business atmosphere:

Rumors of a big real estate deal in connection with the Great Central R. R. project have been rife for several days in Marshfield, and it can now be definitely stated that such a deal has been consummated.

Nearly 800 acres of land in one body, with a good water frontage on the bay has been bought by the Great Central Land Co., the corporation through which the Great Central R. R. does its land business.

The purchase includes one hundred and thirty acres lying on the water front between the stove mill and the Porter mill, taking in the old slaughter house property, and situated about a mile from the business part of Marshfield belonging to the Flanagan estate; a string of six forties lying just west of this owned by C. H. Merchant; and a five hundred acre tract joining the Merchant land on the west and extending over to Pony slough, and belonging to the Flanagan estate. The price paid for the Flanagan land is \$50,000 and for the Merchant land \$12,000.

It can be stated positively that this is not a paper deal nor an option proposition, but a bona fide purchase, and indicates that there is something quite different from wind behind this railroad proposition.

Another project, which is not a vital part of the larger scheme, is the Belt Line railroad, to start at Empire City and skirt nearly the entire circumference of the bay. The Belt Line Co. has purchased two blocks in Empire City, taking in the old stove mill and Camman property, with the water frontage, and will go ahead with the construction of a wharf here. This line, as we have said, is distinct from the larger railroad project. If the latter is carried out, the former will undoubtedly materialize, though perhaps not in its entirety at present.

Christmas Home.

Friday, July 11, was the hottest day of the season.

Charles Collier and son, of Coquille City, passed through Eckley today enroute to South Sixes, where Charlie goes to look after some mining interests he has there.

A Mr. Whitney has located what is known as the Bill Thompson ledge, on South Sixes. Mr. Whitney came here from Alaska and claims to have had considerable experience in mining, and says that capital to develop it is what this part of the country needs, and he is satisfied that when properly developed, some good mines will be shown up. There are some mining propositions here that he is well pleased with, one of which the writer has an interest in among the rest.

Madam Ramor has it that George Hall has bonded some mining claims of the Harrison brothers and is developing the same, the amount to be paid your correspondent was informed is \$10,000.

It is reported that Ira Buzan has struck it rich on Johnson Creek, having recently picked up \$60 or more in nuggets while shoveling into the sluice boxes.

Born in Eckley, July 11, 1902, to the wife of J. C. Clark a daughter. Weight 10 1/2 pounds.

The hay harvest in Eckley is about over. Hay was damaged but very little by the rain the first of July. Mr. Avery's, I believe was damaged the most.

If the McKinley Democrats, the so-called reorganizers, should capture the Democratic organization through carelessness of the Democrats, and nominate either Hill or Cleveland for president in 1904, wouldn't it jar the six million or more true blue Democrats? Cleveland expressed the hope that before he died (that the party he betrayed), that had honored him with

Still Here

HAL, The Healer, and his Company of Entertainers are still here:

They are giving Free Shows each evening.

The Show is good, the Singers can sing, the Dancers can dance, the Comedians are funny and the acrobatic feats are astonishing.

Hal and the doctors have made an enviable reputation, throughout the coast by their wonderful skill in curing chronic and long standing diseases. They have already accomplished much good in this section.

They will remain here until the middle of next week.

Their offices are at the Tupper House, where they can be consulted privately. No one should miss this opportunity of consulting these healers.

Baseball is Still on.

Last Sunday the League game was played between Bandon and the Marshfield team on the grounds of the latter team the score being 15 runs to the credit of the victors against 2 runs on the part of the vanquished.

The Marshfield team had a new pitcher, C. A. Campbell by name, but the result is in evidence that their former pitcher was the better of the two. There was very little betting as to the outcome of the game. Terry McKune did the pitching for the Bandon team and the game was rather a one sided affair. This is peculiarly gratifying to the Bandon team as the Marshfield boys had remarked at the time the league was formed that they had only taken Bandon in to fill up. Well the boys have made good filling and Marshfield's credits are low down in the scale.

The game next Sunday will come off on the Bandon grounds and will be a contest for honors between the home team and that of Coquille. The standing of these two teams is exactly the same, and victory in the coming game is coveted by both, hence this bids fair to be the best game of the season.

The usual excursions will be run and a large crowd of visitors are expected on that occasion.
