EDITORIAL.

The Pacific traffic is receiving attention, and Morgan has his eyes turned westward for another combination in transportation.

A Candy Trust and a Molasses Trust are two of the late acquisitions to the Trust family.

J. Pierpont Morgan and other of the millionaires want the tariff removed from paintings and works of art.

Morgan is quite consistent with self interest in his desires at least, and it can hardly be said of him that his purpose is in the interest of the common people.

Millionaires demand what they want and they usually work to that end. The Salt Trust demanded higher profit on salt, and the organization made ready to enforce its demand.

Rockefeller got ready and when he wants a higher price for oil he gets it. The Steel Trust is prepared to enforce its demands, and in general trusts are able to make their demands and get them.

Labor might just as easily enforce its demands if it will make itself ready and go to work systematically and look after its own interests, but it must do it through the ballot.

First labor must be ready to unite its influence and then make its demands through legislators and legislative bodies.

Labor can have what it should have when its demands are just and made through united effort. Trusts flourish because of the disorganized condition of those upon whom they prey.

Portland Journal: President Baer thinks God has placed the management of the business in good Christian hands.

And he looks upon Morgan as minister plenipotentiary to represent the heavenly side of the deal.

Philippine Idols Seized.

SAN FRANCISCO, Sept. 10.—Root from the Catholic Church of the Philippines has been discovered by the customs officials in the baggage of the Eighth Infantry on the transport Buford and consigned to the Museum Academy at West Point.

The images represent the heads of Christ and the Virgin. The former is made of ebony and is famous as the "Black Christ." Accompanying the images are gold trimmed velvet robes and a mass of gilded tin, including an elaborate halo. They were captured in Laguna Province, and it is claimed were used by sacrilegious insurgents to obtain from the superstitious natives over \$200,000 in money.

The operators invited the natives to the shrine of the "Black Messiah," where a ventriloquist gave a message saying that if the money was contributed freely he would drive the whites out of the islands.

Beware of Ointments for Catarrh that Contains Mercury as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces.

Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system.

In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

WANTED

Boys! Boys! Boys! Boys

FOR THE SALOON.

At a meeting of the State Liquor Dealers of Ohio, at Wirthwein's Hall, Columbus, O., one of the delegates, in the course of a speech on "How to Build Up the Saloon Business," gave the following suggestions: He said: "The success of our business is dependent largely upon the Creation of Appetite for Drink. Men who drink liquor, like others, will die, and if there is no new appetite created our counters will be empty as well as our coffers. Our children will go hungry, or we must change our business to that of some other more remunerative. The open field for the creation of appetite is among the Boys. After men have grown and their habits are formed they rarely ever change in this regard. It will be needful, therefore, that Missionary Work be Done Among the Boys, and I make the suggestion, gentlemen, that nickles expended in treats to the boys now will return in dollars to your tills after The Appetite has been formed. Above all things create appetite."

The above was given to the Anti-Saloon League by a gentleman who was present at the meeting and made exact notes of what was said at the time. This gentleman is personally known to the officers of the League, and Mrs. Ingalls has a letter from him vouching for the truth of the above statement.
