Const Mail: Dr. Horsfall, assisted by Drs. Gross and Toye, performed a second operation yesterday on Ranson D. Hall. He had been getting along nicely since the recent operation for appendicitis until the last few days, when it became apparent that a second operation would be necessary. His physician expects the case to progress favorably now.
Gambling goes on in Bandon about the same as if it were a legitimate business. It is every body's business to see that it is stopped and there are those whose particular business is to close out that kind of proceeding. There is a law against gambling and it is the business of the officers of the law to enforce it, and they are not expected to stand around and wait for some private citizen to point out the misdemeanor. When a man seeks an office he should fill it and if he is too weak kneed to do his duty he should resign. Either enforce the law or repeal it.
Port Orford Tribune: The rainy season having set in, the two Elk River mills, operated by the Pacific Furniture & Lumber Co., closed down yesterday for the winter. Although laboring under many disadvantages, they have made a successful run, and the P. F. & L. Company have demonstrated that they are not only here to stay, but that they are determined to do an extensive business in the county. While the mills will not run during the winter the company will not remain idle, but will keep a number of men employed, placing new machinery, making necessary changes and improvements, and preparing for a rushing business next season. The company is composed of enterprising, energetic men, who are determined to make a success of their undertakings, and important developments may be expected in the near future.

Swallowed Carbolic Acid.
From the Coast Mail.
On Saturday Evride, the four year old daughter of Mrs. Josephine Holms of South Marshfield, got hold of a bottle of carbolic acid and swallowed some of the poison. A physician was summoned without delay and administered an emetic and antidote and the little girl was not seriously injured.
The antidote used was pure alcohol and everyone should make a note of the fact that this is a perfect antidote for carbolic acid. It is a comparatively recent discovery, but an important one.

New Curry County Judge.
SALEM, Oct. 20.—Gov. Geer yesterday after appointing E. A. Bailey, of Wedderburn, County Judge of Curry county, to fill the vacancy caused by the death of the late M. Riley. Judge Bailey's appointment was asked for by a very lengthy petition, containing the names of about three-fourths the adult male population of the county. Hon. A. H. The Coast Mail reached us last week having enlarged to a six column folio. It has now taken on a very respectable size and makes a pretty appearance. Its managers are energetic and have a good field to work in.
The Salmon Cannery here has put up over 6000 cases this season up to date. This is below the average we understand. At Coos bay the catch has been light and up to Friday only about 1900 cases had been canned. The run of salmon has improved some what at the bay, this week, but it is slack here.
The new steamer at Prosper is nearing completion. Major Tower of Marshfield was over last week and measured the vessel, the dimensions of which are, length 169 feet 9 inches, beam 34 feet 5 inches; depth of hold 11 feet 6 inches. Her builder is Geo. Ross of San Francisco, and after being launched she will be taken to San Francisco to receive her machinery. She is a good, staunch vessel and we understand that her captain will be G. G. Peterson.

Prospecting on A Stand still.
Last week we made mention that the Bandon Oil Co. would commence drilling operations on W. H. Button's ranch in Northern Curry, immediately, but there has been a hitch in the matter which has caused delay, and just when arrangements will be completed and drilling commence is not yet made public.
J. A. Murray, of San Francisco had been secured, but it seems that he was not competent to go ahead with the work and that he was discharged. The members of the company had a meeting Tuesday evening and while the plans of the company have not been made public there seems to be a general understanding that prospect work will be pushed forward as soon as a proper person can be secured to take charge of the drill.

Theodore Roosevelt on "The Presidency."
Before his nomination for the Vice-Presidency Theodore Roosevelt wrote expressly for The Youth's Companion an article on "The Presidency." It will be published in the number for November 6th, this being one of the remaining weekly issues of 1902 sent free from the time of subscription to every new subscriber who at once sends \$1.75 for the Companion's 1903 volume. When this article on "The Presidency" was written no one could have foreseen or dreamed even that its author would so soon be called upon to take up the duties of the great office. For this reason alone what Mr. Roosevelt has to say possesses extraordinary interest, and will be eagerly awaited by persons of all shades of political opinion.
A twenty-eight page Prospectus of the 1903 volume of The Youth's Companion and sample copies of the paper will be sent free to any address.

He Learned A Great Truth.
It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by C. Y. Lowe.
