U. S. Wireless Telegraph Station.

New York, Jan. 3.—Greeting to your royal highness, from faithful subject—Marconi.

With a force of millions of volts the largest voltage ever yet obtained in an electrical current, says a dispatch from Wellfleet, Mass., to the Times, the above message will be flashed through the air to King Victor Emmanuel of Italy from the new Marconi station here next week, possibly Tuesday or Wednesday. Marconi himself will be present and will personally ply the tapper.

This message will mark the formal opening of the first wireless telegraph station on the soil of the United States. The plant has been tested and found all right. Power is applied to it by a 75 horse power dynamo, and the apparatus throws a spark as big as a man's fist and as long. The sending of a message sounds like the discharge of a rapid-fire gun.

Handy Draw Off.

A Telegram from T. W. Clark, who is in San Francisco at present, states that the steamer Mandalay has been drawn off.

Croup.

The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by C. Y. Lowe.

Veritable Haemorrhoidism.

TOPEKA, Kan., Dec. 31.—Superintendent Charles, of the Boy's Industrial School, put a display of articles made by the boys in the State House, to show the teachers what the boys could do in the industrial line. The Executive Council ordered the display taken out, declaring that nothing should be done to encourage young people to believe that the reform school is the proper place to learn a trade, as such teaching would encourage crime.
