Always march onward in a good cause. Elder C. E. Crumley and family returned home last Friday from a visit to Myrtle Point and the North Fork country. Mr. Crumley had quite an experience coming home. He came down from Myrtle Point on horseback. When about three miles this side of Myrtle Point he came to a place where there had been a slide in the road. In passing it his horse slipped down and he had to get help and block and tackle to get the horse out of the quagmire. CORVALLIS, Ore., February 5th—Ed White, a fugitive convict from the Oregon State Penitentiary, who has been emulating Harry Tracy since his escape from prison three weeks ago, was killed in an encounter with officers in an isolated part of Lincoln county, thirty miles west of Corvallis yesterday afternoon. The body was brought into this city today and dispatched to the penitentiary for burial. Like Tracy, after being mortally wounded, White committed suicide to keep from falling into the hands of the officers. White, who was a trusty, escaped from the prison in the warden's clothing. A reward was offered and last week it was learned that White was in Lincoln county. Sheriff Ross at once organized a posse and set out in pursuit. White made free play with his six shooter and had no trouble to keep supplied with provision a la Tracy. He was first caught sight of near Waldport by the posse last Sunday and shots were exchanged. White had good cover and escaped. He worked his way back to the Yakima river and was seen again Tuesday by the officers and a gun fight ensued, without damage on either side. Yesterday White appeared at the ranch of Robert Warnick and proceeded to the gate, where a horse was tied. Warnick, who was a member of the posse which was near at hand, commanded White to halt. White presented his revolver, but did not fire. The officer leveled his Winchester and White wheeled and ran toward the horse. As he attempted to mount a bullet from one of the officer's rifles tore through White's clothing. This caused a change of plan and the convict left the horse and ran toward the Warnick barn. Then a shot from an officer's rifle struck him. It entered the small of the back and came out four inches above the waist. He staggered and fell to his knees, and placing his revolver to his forehead, fired. He fell forward and died in five minutes. White was sent up in 1889 from Coos county for robbery and had only a brief period to serve when he escaped.

Passed Over the River. Died at Bandon, February, 10 1903, B. J. Brotherton, aged about 45 years. Deceased was a native of North England who came to this country early in life, and who has been in the employ of the government for several years having served in different capacities at different times, the last being assistant keeper of the light station here. Death was the result of a complication of ailments. The funeral took place yesterday, Rev. W. Horsfall delivering the discourse. Interment was made in the Bandon cemetery. Mr. Brotherton had acquired a knowledge of ornithology so that he was considered an authority on Oregon birds, and insects. He leaves a wife and three children who have the sympathy of the community in their hour of sorrow. Baroda Sprang a Leak. Leaking badly and with four feet of water in the hold, the British bark Baroda put into San Francisco in tow of the Norwegian steamer Tellus. The bark showed plainly the results of a battle with the elements. Her freshly painted sides were scuffed and scratched, and her decks were washed clean of all gear. Only by hard work at the pumps did the crew of the Baroda save her from foundering off the Mendocino coast. In tow of the steamer Tellus the Baroda left the Bay City on last Saturday, bound for Ladysmith. When off Mendocino last Sunday a northerly gale was encountered. The Tellus was scarcely able to make head way against the storm with her tow. A heavy swell was running, and the Baroda reared and pitched like a maddened horse. At times it seemed certain that the bawler would part and the bark would go adrift. When the storm was at its height it was discovered that the bark was rapidly filling. All hands were ordered to the pumps, but, despite the efforts of the crew, the water continued to gain in the hold. Drenched by the waves which broke on board, the crew worked at the pumps for two hours. Fearing that the vessel would founder if he continued to breast the storm, Captain Peterson, of the Tellus, put about and headed for his starting point. The pumps of the Baroda were kept going until the vessel was in the harbor. The Baroda lies in the harbor, leaking at the rate of three inches an hour. The seams of the vessel worked loose in the heavy seas. She was ballasted with sand, but the ballast was pumped out and the Baroda is now high out of the water. The Baroda is owned by R. Dausmair & Sons, and was to have been converted into a coal-carrying vessel. New Club. One of the most delightful society events of the week was a party given by the W. B. L. Club, in Swift's Hall on Saturday evening. The early part of the evening was devoted to games, followed by a delicious lunch, served at tete-a-tete tables. It was decided to form a new club, making gentlemen eligible for admission and having as its object sociability, and a new club, nameless as yet, has come into existence with the following as officers and members: Pres. Mrs. Violet Lorenz; Sec. Thresa Manciet; Treas. L. L. Rosa; Misses Mayme Nelson, Claire Walker, Hilda Erickson, Mildred Wilson, Mand Walker, Estella Lambert, Jennie Denholm, Pearl R. Walker, Messrs. A cordial invitation is extended to all, to attend these services. W. H. MYERS, Pastor. More Railroad Talk. The following information as to the proposed railroad to the interior came to hand through the Roseburg Review of Jan. 29: Major L. D. Kinney returned from Portland today after an absence of several days on business in connection with the Great Central railroad. He is feeling much encouraged over the outlook for the road and says the conditions were never better for its construction. While in Portland he met the agent of the New York capitalists who are furthering the enterprise, as well as other interested parties. Mr. Kinney succeeded in surmounting the local difficulties which had arisen and matters are now rapidly assuming definite form locally. There are at least two transcontinental railway systems now trying to control this route. However, the road between Coos Bay and the Southern Pacific lines will be built just as soon as it can be done. There is a strong element working in favor of the Drain route and we understand a bonus of \$100,000 has been offered to bring the road to Eugene. Major Kinney holds that the natural conditions are more favorable to Roseburg and will endeavor to bring the road to that point. Major Kinney claims no financial ability to build the road himself, and the people backing the movement will ask a bonus, for building the road from Coos Bay to Southern Pacific connection. There are now no conflicting interests in the construction of this line. One half of the bonds have already been taken and the money will be at once available as soon as the other half are placed—the outlook for which is very encouraging. Private School. Mrs. Rosa Binghamman will teach a term of private school in the Bandon School house, beginning on Monday following the close of the public school. Terms: 1st, 2nd and 3rd grades \$1.40; 4th, 5th and 6th grades \$1.50, and 7th and 8th grades \$2 per month. Reasonable reductions made to those paying in advance. Tendency of the Times. The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by C. Y. Lowe. NOTICE OF GUARDIAN. Notice is hereby given that the undersigned has filed his final account as the guardian of Mauna Webster, an insane person in the County Court of Coos County, Oregon, and that the county Judge of said County has appointed Monday, April 6th 1903, at ten o'clock A. M., as the time and at the County Court room of said County at Coquille City, Coos County, State of Oregon, as the time for the settlement of the estate of said Mauna Webster, and the hearing of objections to said final account if any. E. E. PARLISH, Guardian.
