Professor Franchi, who has been here for some months instructing the band, will return, with his wife, to San Francisco on the steamer Chico when she sails, having business that calls him there for a short time. He will return in April. The band has advanced rapidly since Mr. Franchi took charge and they are loth to part with his services during his absence.

A few days ago an item appeared in one of the Marshfield papers announcing the arrival of Terry McEwen in Bandon and crediting him with the management of the ball team of this place, this summer. Last week about the same item appeared in the Myrtle Point Enterprise, and now what the Enterprise desires to learn is, what became of Terry, as he has not been seen here yet.

Robert Hunt and Cal Sammers, with Mrs. J. Hunt and children in the wagon, were caught at Rocky Point, below Johnson creek, last Saturday by a breaker that went over the wagon. The wagon was caught in the rocks and could not be extricated until a second swell lifted it out. Cal lost his hat but another breaker carried it in again. The water went well up on the sides of the team.

Myrtle Point Enterprise: Wm. Abernethy & Son have received a portable sawmill and are engaged in setting it up at the mouth of Catching creek, near this place. The mill will be used in sawing hardwood lumber for the Buckman Hardwood Syndicate, and it is expected that the mill will be ready to begin operations in about ten days. Messrs. Benefield and Crowhurst, representing the company, are here and have started the work of getting the timber ready for the mill. The enterprise will furnish employment for a number of men.

LAUNCH AND STEAMER COLLIDE.

The steamer Flyer and launch Hannah came into collision about 8:40 Saturday evening, below North Bend. The launch was returning from Empire having aboard, besides Captain W. S. Wheeler Mrs. Wheeler and Rev. Wm. Horsfall. The Flyer was bound for Empire with an excursion to the masquerade. The collision occurred about 150 yards below the bend point.

After the collision became inevitable, the presence of mind of Captain Henderson saved more serious consequences. He had slowed down, but seeing the course of the launch would take her across his bow and that she could not clear, he rang for full speed and shot ahead so that the launch struck the steamer on the starboard bow about ten feet from the stem. The upper part of the stem of the launch was shattered and five of the steamer's planks were broken, but otherwise neither boat was seriously damaged and neither sprung a leak. After ascertaining the small extent of his damages, Capt. Wheeler proceeded on his way. The Flyer turned round but finding the launch apparently uninjured also resumed her course.

It was very fortunate that no more serious results ensued.—Coast Mail.

The Debate Is On.

Last week we made mention of a debate that was pending between Elder C. E. Crumley, of the Latter Day Saints, and Rev. J. B. Crooks, a United Brethren minister.

The debate is now on, the first session having taken place last night, and will continue until sixteen sessions have been held. There are three propositions under discussion as follows:

FIRST PROPOSITION. "Is the Book of Mormon of divine origin, and are its teachings entitled to the belief and respect of Christian people?"

Elder Chas. E. Crumley affirms and Rev. J. B. Crooks denies.

SECOND PROPOSITION. "Is the United Brethren Church accepted of God, and in harmony with the New Testament Scriptures, in faith, practice and organization?"

Rev. J. B. Crooks affirms, and Elder Chas. E. Crumley denies.

THIRD PROPOSITION. "Is the Reorganized Church of Jesus Christ, of Latter Day Saints, the Church of God, accepted of Him, and in harmony with the New Testament Scriptures, in faith, practice and organization?"

Elder Chas. E. Crumley affirms and Rev. J. B. Crooks denies.

Each speaker will occupy one hour each evening and the Bible will be the standard of evidence, but either party will be permitted to bring proofs from historical, scientific ethnological or other sources.

The first proposition will occupy eight evenings, and the second and third propositions, four sessions each.

This debate will give the public a good opportunity to acquire a knowledge of the questions under discussion and the opportunity should not be slighted.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by C. Y. Lowe.
