Cox left here Tuesday for a visit to his home on Sixes River. Having learned that his fences had been damaged by high water, he has gone home to make repairs. He expects to return in about ten days. Rev. George Gillespie was called here last Saturday to deliver the funeral discourse Sunday, over the remains of Ethel Sadie Topping. He preached in the Presbyterian church in the evening, and will hold services there again next Sunday. Myrtle Point Enterprise: O. Dodge, who has been employed in the U. S. Land Commissioner's department at Washington, D. C., returned to this place, Thursday, Mr. Dodge has been absent for three years and a half, and says he is glad to get back to Coos county. Lee Barrows was in town Saturday from the Randolph mining district. He reports that C. F. Allen, on his last visit to Coos, succeeded in disposing of a lot more of Randolph sand. Allen is trying to get back what he lost in that section and it is gins to look as if he will succeed. Lost.—On or about Saturday Feb. 14, at Bandon, or on the road between Floras Creek and Bandon, a key ring containing 7 or 8 keys. One brass bureau key among the lot. Finder will confer a favor by leaving same at this office, or with Mrs. Ralph Cope, at Langlois. Our enterprising townsman and shoe merchant, M. Breuer, is at work, this week building a bulkhead on his lot next the life saving station. He intends moving his home across the street onto his lot and is building the bulkhead to ward off the drift and the action caused by the surf when the tides are high and the ocean rough. Coast Mail: D. W. Small is grading on the belt line at the first cut this side of Pony slough. The ground there is sandy and works fairly well, while farther up on the line it is still too wet, especially in the clay cuts. With the advent of good weather and the increasing power of the sun, the ground will soon be in condition for the prosecution of the work to better advantage. A pleasant occasion was had at the schoolhouse last Friday night. The pupils of the Eighth Grade gave their teacher, Mrs. H. T. Wooten, a farewell party, to which many other persons were invited. A good program had been arranged for the occasion, and a nice lunch was by no means an uninteresting feature of the evening and was enjoyed by all. The occasion will long be pleasantly remembered by those who attended.

Jason Randleman was in from Bear creek, last Monday, and reports farmers generally busy and hurrying their spring work forward. Found.—A handkerchief, Saturday night Feb. 21, with gold heart tied in corner. Owner can describe property, pay for notice, and get same. Editor W. F. Riley, of the Port Orford Tribune has taken to himself a life partner. He married Miss Emma Perkins, of Louisiana, a cousin to Hon. F. A. Stewart. We were in error about the closing of the O. K. Restaurant, last week as it turns out. H. B. Smith took possession Monday morning and will continue the business, and we understand that he will turn it into a hotel. Word received from S. D. Barrows this week indicate that while not yet having received any very noticeable benefit from the treatment he is undergoing, yet that there has been decided improvement in his physical condition. Marshfield Sun: Last week a number of the employees of the Bandon Woolen mills, who will make their home in North Bandon when the mills are moved to that city, invested in building sites in the new city on Coos bay. There is to be an entertainment at Parkersburg, Saturday evening, March 7. A good program has been arranged for the occasion and the proceeds will be given to the school district of that place. A large attendance is desirable. Owing to other business calls Dr. J. W. Strange will be unable to fill his appointment to be in Bandon from the 10th, to the 14th, instant. He will come in the near future and will give due notice in these columns of the time at which he can come. The Coquille Comedy Company will present "Mrs. Partington and her son Ike" in Mauck's Hall Saturday night, March 7th. This is a comic production of much merit and will afford great amusement for an evening. Come out and exercise your laughing faculties. Contractor John Kiernan's foreman for the Rock quarry work, came on last week and preparation to get the quarry in order to commence extending the jetty has already begun. Mr. Logan, who superintends the jetty construction for Mr. Kiernan, has completed the railway track from Parker's wharf to the track used two years ago, and is getting the preparatory work well along at the jetty. Monday showed up quite a bunch of people who move around as well seen from the following list of persons who registered at the Tupper House: Frank Dully of Coquille, Phil Ingeley of Marshfield, G. H. Johnson of Spokane, Wash., M. C. Coryell of Newport, L. F. Heller of McKinley, Martin Wallace of Port Orford, T. J. Clark The Dalles, Oregon, J. D. Pickering of Spokane, T. B. Baldwin and A. L. Dirker of Portland, C. B. Woodward of Wedderburn and Geo. H. Stone of Port Orford.

Marshall & Son can supply you with early seed potatoes.—Beatty of Hebron. George Williams was down from Beaver slough Tuesday having had business which called him this way. New sample books at Lorenz's store. Your measure taken for better goods at lower prices. Go see for yourselves. William Caughell, of Wedderburn, came up last week on a visit to relatives here, and to have a look around Coos. A. C. Curtis arrived home Monday, by way of Roseburg. Mrs. Curtis will remain in California till some time in May. Lost.—Between Bandon and Dairyville, a small, brown, alligator purse containing two dollars sixty cents. The purse is valued as a keepsake. Finder will confer a favor by leaving same at this office, or at Laurel I. n. Dairyville. The building to receive the machinery and apparatus for the Coquille ice plant is under way of construction at Coquille. The following is copied from the Bulletin: "The main building will include four large storage rooms to be used for the purpose of storing meat, fish, eggs, butter, etc. These rooms will be kept at a temperature that will insure the preservation of the articles stored within. In fact the temperature can easily be regulated that it can be made to register below the freezing point continually. This not only preserves the articles stored indefinitely, but also adds much to their flavor and quality. In conjunction with the ice plant there will also be a large creamery and cheese making plant." Gone Home to Illinois. Mrs. H. T. Wooten, who has been teaching school here during the past eighteen months, accompanied by her daughter Ellen, left Saturday noon to return to her old home at Macomb, Ill. Mrs. Wooten had charge of the intermediate department during her first term here and then taught a private school after the public school closed. Last September she was given charge as principal of the public school which she carried through in a highly satisfactory manner, and many are the friends Mrs. Wooten has left behind, consisting in her pupils, her patrons and acquaintances. Mrs. W. and daughter started by way of Coos bay for Portland and will go by the Northern route to Chicago. The public school will continue two months longer, being in charge of Miss K. Maddocks, who served under Mrs. Wooten as assistant. The reason of the change at this period of the school is this: Mrs. Wooten had made her arrangements to go before it was determined to extend the school two months longer. Mrs. W. is a very proficient and worthy teacher and we regret losing her, but it is possible that she may conclude to return in the near future. Result Of Smoking. What might have proved a disastrous fire was started Friday afternoon in one of Geo. Ben's new houses on B Street, occupied by W. J. Ellison, by a lighted cigar laid on the window sill. The lace curtain became ignited and blazed up. It was torn down and carried out into the street by Mrs. Ellison, who had her hair badly singed. It is fortunate that the fire did not get more started before it was discovered, as the houses crowded in on that part of the block would all go together.—Coast Mail. Colds Are Dangerous. How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, how slight, should not be derided. Chamberlain's Cough Remedy counteracts any tendency toward pneumonia. It always cures and is pleasant to take. Sold by C. Y. Lowe.

The steamer Chico is due here Saturday or Sunday. T. T. Allen gave North Bend a visit returning home yesterday. G. B. Self, one of Coquille City's citizens died last Sunday aged about 67 years. He took her back into the river yesterday. The debate between Elder C. E. Crumley and Rev. J. B. Crooks closed on the first proposition last night, and the second proposition will be taken up tonight, and will continue four sessions after which the third proposition will be discussed. Al Hite, of Coquille, came down Tuesday to display posters and make arrangements for the Show when the Coquille Comedy Company will put on here Saturday night. The company has had new scenery painted, which is said to be elegant and attractive. IN MEMORIAM. In Memory of One Bright and Loving Little Child. DIED.—In Bandon, Feb. 28, 1903, Ethel Topping, aged 3 years, 2 months and 9 days. Weep not, fond parents, your child is at rest; She is folded today on the dear Savior's breast; She has gone to dwell in the home above, And is singing the song that the angels love. Weep not, fond parents, her spirit's not dead. Though you have laid her to rest in her lowly bed; It was only the form that you laid in the earth, For the spirit has flown to bright mansions away. The brow is cold and calm in death, You cannot feel her fleeting breath, You cannot hear her laugh so sweet, And her smiling games you cannot meet. But in Heaven, I fancy I see her face, Adorned and beaming with heavenly grace; I fancy I hear the angel's sweet song, To think that another has joined their throng. Yes, your darling has gone on before, And she beckons you home to that beautiful shore. Where sorrow nor trouble nor grief shall be, There rests your child from suffering free. MISS ELLA STEWART. Railroad Into Curry County. GRANTS PASS, Or., Feb. 18.—Colonel J. S. Crawford, of Philadelphia, and F. H. Osgood, of Seattle, and associates, are laying plans toward the installing of a large smelter at Diamond Creek, Del Norte county, California, just south of the Oregon line. They also propose to build a railroad from their properties to the Pacific. The route chosen will be 28 miles in length and have its terminus at Cable Harbor, Curry county, Or. The soundings at Cable Harbor show 24 to 35 feet of water. This would be sufficient to allow the entrance and loading of very large vessels. Pay Up Notice.
