Clay Garout went to Port Orford Tuesday taking R. D. Jones and another gentleman there. Mr. Jones is connected with the lumber company operating at Corbin City. Coquille Herald: The engine recently set out of Lyons' mill and replaced by a new and larger one, has been taken to Riverston where it will be put into the mill at that place as an auxiliary power to the one they already have. He expects a representative of the Hooper Bros. of San Francisco to arrive in the near future, to inspect the timber about Chetco, before it is decided to commence work. The steamer Chico returned from San Francisco last Friday evening, arriving one day earlier than was expected. She brought in 40 tons of freight for Bandon and 11 tons for up river points. This is not as good a showing as should be made especially for the Coquille valley above here. Steamer service between San Francisco and the valley direct will prove a convenience to citizens living in the valley while it will have a tendency to keep down freight rates by way of the bay, and it is to the interest of the citizens of the whole valley to lead what aid they can to give a steamer profitable employment. The Coquille Comedy Company gave an exhibition of their ability to amuse, in Mauch's Hall, here, Saturday evening, in the presentation of Mrs. Partington and her son Ika, a comic production of considerable merit. The play is of rough character, so far as danger to person is concerned, but it afforded much amusement to the audience, without accident. The members did their parts well and the large audience showed their appreciation in the hearty peals of laughter that greeted the players. Bandon turned out a large house to greet their visitors.

J. Bretherton and children left here last Monday to return to her people near Portland. Six of the boys who are working on the north side of the river getting ready to extend the jetty, got spilled out of their boat Tuesday forenoon in returning home. They had gone over to work, but the wind was blowing very heavy and rain was threatening, and they started to return. The boys, D. A. Patterson, F. A. Holman, J. L. Suits, Harry Walker, Chas. Fox and George Button, by name, got into the boat and tried to pull down to Bandon from Parker's wharf but the wind being too strong they then started to cross over, half a mile above town. They succeeded in crossing the main part of the river, but the boat filled and capsized in front of Gibson's place. The boys succeeded in getting ashore without difficulty, only suffering the inconvenience of a very cold bath. Colds Are Dangerous. How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, how slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency toward pneumonia. It always cures and is pleasant to take. A letter received from him has the following: "You may also say that my coming to Portland was simply an experiment and may not prove of any benefit to me after all, and that I can scarcely see any improvement as yet. However my general health is somewhat improved." Well Again. The many friends of John Blount will be pleased to learn that he has entirely recovered from his attack of rheumatism. Chamberlain's Pain Balm cured him after the best doctors in the town (Monon, Ind.) had failed to give relief. The prompt relief from pain which this eminent affords is alone worth many times its cost. For sale by C. Y. Lowe.

Ice Cream Important News Notes. I will serve Ice Cream at My Partners, west of J. R. Marshall & Son's Store, each Saturday and Sunday afternoon till further notice. Mrs. E. J. Hite. Great Central Railroad Matters. Major L. D. Kinney is making preparations for the resumption of active operations on the Bangor townsite in the near future. Lumber was being taken over there yesterday, for the construction of a machine shop. The building is to be 30 by 60 feet in size and will be built at once. A small crew is at work at Bangor now, and Major Kinney expects to have things going in good shape by the first day of April. D. W. Small, the contractor on the Belt Line, will double his force at once, if he can get the men and teams, and will push the grading work as fast as possible, although the weather is not yet settled sufficiently for the prosecution of the work to the best advantage. There seems little doubt that matters in connection with the Great Central project are on a satisfactory basis. One point on which the friends of the enterprise can congratulate themselves is that some of the false friends of the project are being unmasked. A Judas is more to be feared than an open enemy and the elimination of such from the councils and the management of the enterprise will make for its ultimate success.—Coast Mail. An Unique Hold up. BUTTE, Mont., March 3.—One of the most unique methods of holding up that could possibly be imagined was perpetrated shortly before 2 o'clock this morning, when C. Payne, an amiable man, entered the gambling hall of the California Club, and with a 44-calibre revolver between his toes compelled the dealers at one of the faro tables to give up \$5 which the crippled man had lost earlier in the evening. When Payne stepped into the middle of the room, and at the same time flourished the weapon at the end of his foot, gamblers and players scattered in a hurry. Police-men called to the place found Payne with a razor between the toes of one foot and a big pistol between the toes of the other. He was arrested without difficulty and placed in jail. Pays to Elect Such Men. From the Salem Journal. The best editorials that have appeared in this paper for a long time are the vetoes of Governor Chamberlain's. The people have wished for just such a governor for some time, and are glad that they have got him. It is easy to imagine several gentlemen in that office who might have seen things in a different light. Gov. Chamberlain has earned his salary 10 times over the past week or two by clubbing the life out of some of the most vicious work of his legislature. It pays to elect that kind of men to office. READ IT THROUGH. 'Twould Spoil This Story to Tell it in the Headlines. To use an eighteenth century phrase, this is an "o'er true tale." Having happened in a small Virginia town in the winter of 1902, it is a story very much of the present. Up to a short time ago Mrs. John E. Harmon, of Melfa Station, Va., had no personal knowledge of the rare curative properties of Chamberlain's Cough Remedy. "Last January" she says, "my baby took a dreadful cold and at one time I feared she would have pneumonia, but one of my neighbors told me how this remedy had cured her little boy and I began giving it to my baby at once and it soon cured her. I heartily thank the manufacturers of Chamberlain's Cough Remedy for placing so great a cure within my reach. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." For sale by C. Y. Lowe. Pay Up Notice. Having disposed of our hardware store and gone out of business, the undersigned hereby give notice to all persons indebted to them, to come forward immediately and settle either by cash or note.
