Attempted Wholesale Murder Some one tried, Saturday night to blow up Alex Evanhoff's house at Dewey rock, while a social dance was in progress and 39 or 40 people were in the house. Five sticks of giant powder were placed against the house and a cap fuse inserted and fired, but it seems that the cap was bungledly placed and when the cap exploded the powder did not ignite. The fact that the giant was cold probably saved the lives of all the people in the house, as there was enough explosive to annihilate the whole outfit. There is much indignation among the people living in the vicinity and if the miscreants who attempted this heastily outrage are caught, it is likely to go hard with them.—Coast Mail. The Coal Commission Reports A brief summary of the Anthracite Coal Strike Commission's award, is as follows: The miners are given a general increase in wages, in most instances amounting to 10 per cent, the increase to take effect from November 1, 1902, and all arrearages now due to be paid by June 1, 1903. With the schedule thus provided as a minimum, a sliding scale is established based on the price of coal, the miners to have an increase of one per cent in pay for each five cent increase in the selling price of the product. Certain decreases in time of work are granted, in some instances to eight hours, in others to nine, the men to receive extra pay for overtime. All future disputes are to be referred to a Board of Conciliation to consist of six persons, three to be appointed by an organization representing a majority of the miners and the other three by the operators. This board's decision is to be final, but if its members cannot agree, the question at issue shall be referred to a Circuit Judge of the Third Federal District, whose decision shall be final and binding. No suspension of work by lockouts or strike shall take place pending the adjudication of a dispute. The awards made shall continue in force until March 31, 1906, and violations on the part of either employer or employer shall result in a dis-ciplining of the offender, but the provisions of the award shall not be invalidated. Took Carbolic Acid. From the Coast Mail. The 18 month old child of Mr. and Mrs. Nelson of North Bend, yesterday afternoon at 1 o'clock got hold of a bottle of carbolic acid and swallowed some of it and was in a precarious condition from the effects of which the child will not soon recover, if it is not fatal. A doctor was telephoned for at Marshfield and help was soon at hand in the shape of an antidote. At last accounts the child was somewhat easier but not entirely out of danger. Notice. The difference between the Bandon woolen mills and Lewin's Meat Market is this: The mills go to North Bend, and the Meat Market will move into the building occupied by J. L. Thompson's barbershop, where also the pork packing business will be carried on extensively. The change will be made on April 1st. Bandon is not dead yet. Socialists to Meet. Danger of Colds and Grip. The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by C. Y. Lowe. For Sale.
