She came by way of Westport, California, where she landed 200 tons of freight in an open port which delayed her about two and a half days. She brought 70 tons of freight for the Coquille river, and had one passenger, A. F. Hastie by name. Ira Buzan, the promoter of the enterprise, is enthusiastic over the prospects for the development work on a large scale, and thinks when the company gets down to work that there will be some developments that will astonish even those who have much faith in the placer diggings of that section. A hydraulic elevator will be used in the operation of the mine. It will require much digging, as it will be necessary to bring water two and a half miles, and this alone will require a considerable time and will cost a large sum of money. Many thousands dollars will be spent this summer, and the real value of the mines will be tested.

Death's Arrow. DIED.—At Bandon, April 5, 1903, Ida Elizabeth, only child of Mr. and Mrs. R. E. L. Bevilion, aged 4 years 11 months and 12 days. Little Ida had many friends who will miss her bright presence, and her death has left an aching in the hearts of parents and relatives which time alone can heal. DIED.—At Bandon, April 5, 1903, Mrs. George Farrier, aged about 46 years. Deceased had been sick for some time having a complication of ailments which proved fatal. She leaves besides her husband, five children, the offspring of a former husband, to mourn their bereavement. The two youngest children, a girl of ten years, and a boy about 8 years old have gone to Myrtle Point to live with their oldest brother. Rev. George Gillespie was called from Port Orford to preach the funeral service for little Ida, and W. H. Myers officiated at the funeral of Mrs. Farrier. Both deaths took place about ten o'clock Sunday evening. The bereaved parties have the sympathy of a large acquaintance.

Card of Thanks. The undersigned takes this opportunity to express his sincere thanks and appreciation to the citizens of Bandon, who so kindly came to his assistance and aided in the care of his late wife, during her illness, and for the services rendered during the funeral. GEORGE FARRIER.

Keeping up the Price of Coal. The Delaware, Lackawanna & Western Railroad, one of the principal anthracite coal carrying railroads, announced last week that the men in its mines could thereafter work only five hours a day, the reason given being a glut in the anthracite production. If this reason is genuine, it shows an astonishing change in a few weeks. In November and December a coal famine that aroused the attention of the whole country prevailed; yet before March is over the supply, it is represented, so far exceeds the demand that the company that carries much of the anthracite to market announces its heavy cut in the working time of its miners. The people throughout the region using large quantities of and depending on hard coal will put their own construction on this move; will presume that the D. L. & W.'s object is to limit the supply in the territory it supplies, so as to keep up the price through the summer, and influence consumers not to lay in next winter's supplies. In confirmation of this theory it is stated that anthracite will not be sold in Buffalo or westward for less than \$7 per ton, the prevailing price hitherto, as far west as Milwaukee, having been from \$5.50 to \$6.50 per ton. Apparently the coal trust is systematically preparing to compel the public in general, and in some cases the miners in particular, to pay for losses consequent on the strike, in spite of the arbitration commission's findings.—Telegram.

Danger of Colds and Grip. The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by C. Y. Lowe.
