On Monday of last week, the schooner Louise, Captain Anderson, stuck on the North spit in crossing into the Umpqua. Coos Bay News: Four electric motors were received on the Ozarion, to be used for handling coal cars in the gangways at the Beaver Hill mine. This will do away with mules in the gangways, and the male driver, with his picturesque profanity, will be relegated to yarding out. The Coast Mail states that the Margarita Fischer Company will return to Coos and will exhibit a week at Marshfield commencing June 29. This company is more highly recommended than any other troupe that has visited Coos county. They will stay in the county about a month and Bandon can expect a visit this time. Hon. Walter Sinclair, of Coquille City, was in town Friday night on his return home from visiting his Sixes River mines. He reports things quiet on Sixes, nevertheless, that work is pushing ahead on the Dry creek ditch. Mays received a letter from James Rogers, better known as Judge Rogers, who went to the Soldiers' Home at Roseburg something over a year ago. Mr. Rogers wrote that he was getting along quite well. Coast Mail: The Great Central surveyors have moved their camp to Rocky Point, where they have a force of men, and survey up South slough and over to the Coquille. Parties having Artificial, Crown, or Bridge work to do must call early. No appointments will be given after June 25th. I wish to thank the people of Bandon and vicinity most sincerely for their liberal patronage, and I wish it to be thoroughly understood that your work is warranted and exactly as represented. As the increased business at home demands my entire attention I shall not be able to visit Bandon again for a long time to come. If you have dental work to do, call early, get your appointment, have your work done right, and get rid of your Tooth Trouble.

Thompson, John W. Procter and A. J. Collins, of San Francisco, and F. S. Dow, G. W. Thompson and George Boone, of Marshfield. The Prosper Mill Company have secured the mill crew from Riverton and are running their mill day and night in order to load the lot of schooners which have arrived during the last week. This company is doing a rushing business. Otto Walser had the misfortune to stumble and fall while walking on the jetty last Sunday with the result that his face struck on a corner of one of the cross timbers, breaking the bridge of his nose. He still carries a black eye from contact with the timber. Tuesday's register at the Topper House showed up the following names of transient visitors: T. W. Jenkins, of Portland; E. W. Babcock, of Los Angeles; E. A. Franklin, of Roseburg; W. F. Fenton, of Epworth Iowa, and G. H. Reynolds, of Michigan. The rumor reached here, this week, that Mrs. Munie Bryan, who has been teaching school in this vicinity for the past four years, was married to S. P. Shepard. The Old Maids' Convention, or Single Blessness Debating Society will meet in Mueck's Hall, Bandon, Saturday evening April 25. The proceeds of the entertainment will be used in furnishing the inside of the Presbyterian church. General Admission 25 cents. Children 15 cents. Reserved seats 35 cents, on sale at C. Y. Lowe's. Base Ball Prospects. R. E. L. Bedillion went to Coquille City Monday, as manager of the Bandon baseball team, to confer with other management of other Coos county teams, in regard to putting the Coos county league in the field again. He returned Tuesday evening having accomplished little or nothing. It seems that Marshfield was not represented and that Coquille wanted to limit the league to home players except three members to each team. This seemed to stop business, but yesterday Mr. Bedillion started for Marshfield to confer with the management of the team of that place and L. J. Simpson, of North Bend, and it now looks as if Coquille will either have to stay out of the league or else accept the terms laid down by the other teams. Present prospects indicate that the North Bend, Marshfield and Bandon teams will constitute the Coos County baseball league this season.

Shamrock III Dismantled In A Squall. Weymouth, April 17.—Sir Thomas Lipton's new challenger for the America's cup was dismantled in a squall today, shortly after leaving this harbor preparatory to another trial spin with the Shamrock I. Her mast, as it fell over the side, carried several of the crew, and all the gear and canvas overboard. One man was drowned, and several persons including Sir Thomas, who was knocked down a hatchway, were bruised or otherwise injured. The man who was drowned was a brother in law of Captain Wringe. He was handling a binocular glass to Sir Thomas at the time he was swept overboard. One of Sir Thomas' hands was injured, but not seriously. The hull of the Shamrock III was not damaged. The mast, when it went overboard, went solid. There was at that time only one break, which was about seven feet above deck. As the big spar, with its weight of canvas, became heavier, owing to the water in it, the mast again buckled its head, going down until it rested on the bottom. It is believed it will be comparatively easy to repair the mast, but a whole suit of canvas is ruined. Barges with a crane were soon on the spot to raise the broken mast, after which the Shamrock III will be taken to her moorings inside the breakwater. Railroad Contracts Let. A Grants Pass dispatch to the Telegram, dated April 17th says: Contracts for the grading of the Oregon & Pacific Railroad between Grants Pass Crescent and City have been let. The contracts have been awarded San Francisco parties and they will arrive here and begin work as soon as arrangements have been made for securing of right of way. Terminals and yards have already been arranged for at each end of the line, and are ready to turn over to the company as soon as it is ready for them. Mr. Wood, manager of the right of way, is here and is at work conferring with ranchmen and farmers across whose properties the line will pass, and securing right of way for the road. The company is asking for a 100 foot right of way as anything less would be too narrow for the making of cuts, banking up of grades, laying sidings, etc. Two surveying crews are on the line making or completing final surveys, and two more will be put on at an early date making the surveys of the route along the coast north and south from Crescent City. All of the tidings would indicate positively that the Oregon & Pacific is an assured fact and that its ultimate completion is but matter of time. Early next week some four or six of the leading stockholders and officers of the company will arrive in this city from San Francisco and will be tendered a reception here by the Grants Pass Board of trade and interested citizens. A banquet is being planned and arrangements made to show the distinguished visitors the glad hand, as it is the desire of the people here to let the railroad men know their efforts are appreciated and will receive the hearty support of all Grants Pass and Josephine county. Foot Cut Off. Andrew Olsen, aged about 18, lost a part of his left foot at the Porter mill about 4 o'clock yesterday afternoon, by bringing it in contact with the knives of a planer. He was employed to drive a horse about the place, and stepped into the mill and was standing by the planer. He took hold of a piece of lumber to pull it from the rollers, and as it stuck, he raised his foot to brace himself and thoughtlessly reached his leg under the machine and placed his foot against the lower cylinder. The knives instantly took off his foot back beyond the toe joints. He was brought up to town on the Flyer, which was just landing, and Dr. Horsfall assisted by Dr. Prentiss, attended to the wound. It was necessary to take off the foot back into the arch, but the young fellow will not be very badly crippled, and with a spring shoe will be able to walk very well.—Coast Mail. Ice Cream I will serve Ice Cream at my Parlors, west of J. B. Marshall & Son's Store, each Saturday and Sunday afternoon till further notice. Mrs. E. J. Hite.

Danger of Colds and Grip. The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by C. Y. Lowe. Important News Notes. TUESDAY April 14.
