

THE RECORDER

IS PUBLISHED EVERY THURSDAY AFTERNOON

DAVID E. STITT, EDITOR AND PROPRIETOR

SUBSCRIPTION RATES: One Year \$2.00, Six Months \$1.00, Three Months \$0.50

This paper is entered at the Bandon post office as Second-class Matter.

THURSDAY, MAY 28, 1903

EDITORIAL

Monday next is election day. Vote your principle on that occasion and let politics be on the shelf.

The Recorder received a lengthy communication, last Wednesday evening, from Hon. Binger Herman on the Forest Reserve project affecting Coos, Curry, and Josephine counties, but as it would require several columns of space we could not publish it.

Save me from my "fool" friends is an appropriate prayer for candidates aspiring to political position. Herman's friends have been publishing "gush" that had better been left unsaid. They would lead one to think that a certain class were obligated to vote for him because of material aid received.

J. Pierpont Morgan has saved that \$300,000 revenue tax on the pictures he purchased in Europe, a year ago, by having them remain in his house, on the other side of the "Frog Pond." Now that they have remained there a year, he can import them duty free, as household effects. Morgan has a head for business.

Socialists have nothing to gain by voting other than their own ticket. They stand on principle and if they were from their purpose they are not worthy of their name. Why should they vote for what they do not want? If they do not elect their own candidates, they can give cheer and comfort to the comrades who are watching and waiting. Show your meekness and be content with your brethren.

The blood-thirsty clamor for the life of labor organizations everywhere in the civilized world is one of the most unmistakable signs of the times. The inevitable drift of the labor movement to political action socialism afflicts the hereditary profit taker, who is alert enough to see the hand writing on the wall. We are to have an organized and concerted war on individualism as one of the last expedients of capitalism to retain its monstrous privileges. Let it come. Such a struggle will prove the limitations of industrial combination, and point the worker to the ballot box union, from whence alone he can command his own destiny.—Western Clarion.

A Serious Accident.

From the Coquille Bulletin. Bob McCollum, who is employed at Yonkum's logging camp, met with an accident on Wednesday morning that almost cost the unfortunate man his life. Mr. McCollum was standing on a spring board engaged in sawing when an ax fell from the tree and struck him on the wrist. The sharp blade penetrated to the bone and at the same time severed the large artery. The shock was sufficient to throw McCollum to the ground below. At last accounts the gentleman was resting easy and the attending physician hopes for a speedy recovery.

Disastrous Snow Storm.

VANCOUVER, B. C., May 22.—Details of the great snow storm, which swept Middle West and Southern Alberta, have begun to come in. Without doubt this has been the most disastrous storm in the history of the country to the ranchers. Snow fell on the level to the depth of six and eight feet. It started Saturday afternoon with rain, and as the wind veered to the north, changed to snow and for two days the blizzard raged. Business in MacLeod and Pincher Creek was at a standstill, and only today have the farmers begun to come in.

Carcasses of horses and cattle dot the prairie in hundreds.

Too Great a Risk.

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by C. T. Lowe.

Towed to Sea by a Whale

Boston, May 20.—Captain Horace Hillman, an Edgartown fisherman, has been towed by a maddened whale many miles out to sea. Captain Hillman and a Portuguese sailor were in a boat examining nets off the southern shore of No Man's Land south of Martha's Vineyard. Suddenly a whale leaped out of the water within 15 feet of the boat and brought down his tail with a fearful swing. Then the whale started out to sea, fouling the lines which attached the nets to the boat and towing it seaward. Captain Hillman estimates the whale towed the boat at a speed of 30 miles an hour. After being towed for four hours the boat was freed. The captain was two days getting back to port.

Telegram: It is reported that some deference will be paid in the next Iowa Republican platform to "the Iowa idea," and that some encouragement, with the President's approval, will be extended to those Republicans who favor tariff revision. This will be pleasing to Western Republicans generally, but they need expect nothing radical from Senator Allison, who will dictate the Iowa plank.

State Teachers Association.

The Western Division of the State Teachers' Association will be held at Portland, June 24 to 29, 1903. The program for this meeting is one of the best ever prepared by the management of the Association, and the indications are that this meeting will far surpass anything ever attempted in educational meetings in Oregon.

The best talent the State affords has been secured to take part in the program which deals with many subjects of vital importance to the schools and educational interests of the State. Mr. Henry D. Pettengill of Lansing, Mich., one of the foremost educators of the United States, has been invited to be a guest of the Association and will appear on the program, and discuss a number of important educational topics.

Railway companies have made an excursion rate to Portland for this occasion and a very large number of teachers will no doubt be present to enjoy and profit by the meeting.

A Farmer Straightened Out.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of Patten Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by C. T. Lowe.

Defacing Nature's Wonders.

From the Portland Telegram. Others' protests have availed not, but possibly the outspoken condemnation of the President will not be without reformatory influence. Reference is made in this remark to the vulgarism that "delights to write or carve names or stick up cards in public places or on objects of interest, such as the great trees of the Yosemite, a wonderful cliff, or a marvelous natural paradise. When the President perceived a multitude of cards containing the names of visiting dignitaries fastened to the great sequoias, he vigorously condemned the practice, as many have done before, without avail; but possibly his voice will be more potent.

Akin to this vice, as the Sacramento Bee remarks, is that of advertisers "who mar the face of the country with huge signs, painted or pasted upon rocks or other natural objects, setting forth the virtues of medicines, windmills, axle-grease, or other article for sale," and the Bee suggests as a punishment that each such advertiser, when detected, "should be compelled to take a dose of his own medicine."

Catarah Cannot be Cured with Local Applications, as they cannot reach the seat of the disease. Catarah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarah Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarah Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarah. Send for testimonials free.

F. J. CHENEY & Co., Props., Toledo, O. Sold by Druggists, price 75c. Hall's Family Pills are the best.

The favorite with thoughtful, cultured Oregonians.

W. C. T. U. COLUMN.

The next W. C. T. U. meeting takes place Tuesday, at 2:30 P. M. at the M. E. Church.

Menelik, the Emperor of Abyssinia, is an out and out temperance reformer. Not only has he prohibited the importation of intoxicants into Ethiopia, but their manufacture and sale are forbidden.

Lady Cecilia Roberts, daughter of the Earl and Countess of Carlisle, speaking at Yelverton, England, on the subject of temperance, said if they could destroy the drink traffic they would be able to abolish nine-tenths of the prisons.

As a result of a protest by the United States navy department public gambling in Bremerton, Wash., has been completely ended. Games were running in five saloons, but the mayor has closed them all and says they will not open again. Commandant Stirling notified the mayor that no more battleships would be sent to the Paget Sound navy yard until the town presented a better moral tone.

A report just issued states that the growth of the publichouse trust movement throughout England has been remarkable. It is said that there is now hardly a county in England in which a publichouse trust is not either projected or actively at work, and publichouse on trust principles are now opened in ten counties in Scotland. There are about fifty houses in England, and sixteen in Scotland.

The Anti-Saloon League of Pittsburg has issued an appeal to every congregation in Pittsburg and Allegheny to petition the House of Representatives and the State Senate to use their influence to pass the bill in support of a local option law providing for the submission to the electors of each township, borough or city within the state, of the question of granting license for the sale of liquor within such municipal districts.

A Bad Handicap.

Passing a drug store, I noticed a sign hanging in the window. It read: "Boy wanted; no cigarette smoker need apply."

I entered and asked what kind of a position was open for a boy.

"Oh, we want him to work around the soda fountain," replied the proprietor.

"Why will you not employ a boy who smokes cigarettes?" I inquired.

"Too careless, too lazy, and too light in the head, and they smell bad," were the exact words of the druggist.

An item in the general railroad news of a great morning daily announces the fact that, in conformity with the general agreement of the freight and mail of the Santa Fe railway has issued an order that no cigarette smokers will be employed in this department of the Santa Fe service.

The high school girls of Brooklyn Park, N. Y., Pittsburg, Toronto, Columbus, Duluth, and other large cities, have concluded that a boy or young man who is considered unfit to draw soda water or fill the position of bill clerk in a railroad office, has not enough brains or self respect to be counted among their friends.

And so the boys and young men all over the country are compelled to choose between the cigarette and the good position and the respect of their girl friends.

The cigarette smoker who can defy these, a position and public sentiment, is indeed a poor specimen of undeveloped manhood.—Puck.

Baseball Schedule.

Following are the dates of games, and names of places at which the several teams of the Coos county league will play during the season.

At Bandon. May 31—Bandon vs North Bend. June 14—Bandon vs Coquille. June 21—Bandon vs Marshfield. July 12—Bandon vs North Bend. July 26—Bandon vs Coquille. Aug 2—Bandon vs Marshfield. Aug 9—Bandon vs North Bend. Aug 23—Bandon vs Coquille. Sept 13—Bandon vs Marshfield.

At Coquille City. May 24—Coquille vs Marshfield. June 31—Coquille vs Marshfield. June 21—Coquille vs North Bend. July 5—Coquille vs Bandon. July 12—Coquille vs Marshfield. Aug 2—Coquille vs North Bend. Aug 16—Coquille vs Marshfield. Sept 15—Coquille vs North Bend.

At Marshfield. May 24—Marshfield vs North Bend. June 7—Marshfield vs Bandon. June 28—Marshfield vs Coquille. July 19—Marshfield vs North Bend. July 19—Marshfield vs Bandon. Aug 9—Marshfield vs Coquille. Aug 16—Marshfield vs North Bend. Aug 30—Marshfield vs Bandon. Sept 30—Marshfield vs Coquille.

At North Bend. June 7—North Bend vs Coquille. June 14—North Bend vs Marshfield. June 28—North Bend vs Bandon. July 19—North Bend vs Coquille. July 26—North Bend vs Marshfield. Aug 9—North Bend vs Bandon. Aug 23—North Bend vs Coquille. Sept 6—North Bend vs Marshfield. Sept 30—North Bend vs Bandon.

WANTED.—A TRUSTWORTHY GENTLEMAN or lady in such worthy to manage a business for an established house of retail financial standing. A straight, bona fide weekly cash salary of \$18.00 paid by check Wednesday with all expenses direct from headquarters. Money advanced for expenses. Manager, 340 Caxton Bldg., Chicago.

THE DORADO BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE. A yellow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate relief by taking this medicine. It starts up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the liver. With kidneys reinforced by Theodor's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and freedom from disease, though less painful at the start, are much harder to cure. Theodor's Black-Draught never fails to benefit diseased liver and weakened kidneys. It starts up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the liver. With kidneys reinforced by Theodor's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and freedom from disease, though less painful at the start, are much harder to cure.
