EDITORIAL

Music has influence to charm the savage soul, and stories are not wanting where wild animals have been soothed by its power, but now comes the discovery that by raising to a high number of vibrations per second the particular note to which the mosquito is most sensitively attuned, that this intensified note produced by sudden electrical impulse upon a musical instrument causes every mosquito near to plunge headlong to the instrument and die.

Another mine horror is reported from Wyoming in which the victims reach above two hundred. Something should be done to avert these disasters and make mining safe, or at least, to secure to miners as little danger as possible. This is not possible under the present manner of mining wherein the owner is striving to make as much profit as he can out of his product at the least expense for mining. The coalmines should belong to the government and be operated by it for the benefit of the people.

Man The Product of Environment

Socialists claim that we must make better environments before we can have a regenerated society. Every person who has as much brains as God gave geese knows this to be true, for otherwise one would as soon raise their daughters in a brothel as any where else, for if environment had nothing to do with character the brothel would not injure the character of a girl. While reading history the other night I came across this incident. From 1890 to 1892 Robert Dale Owen directed the great cotton factories at Lenark, Scotland, and spent vast sums of money making the conditions of labor and life better for the working class employes in the mills.

One thing that commends the Jewish immigrants to the favor and friendship of the people of the United States is their appreciation of our public school system and their cheerful support of it. As a rule, no matter how poor and ignorant the exile from Russia or Poland may be, he has a high and laudable ambition for his children's success, and eagerly accepts for them all the advantages that a public school education can confer. There are those who come hither from Southern Europe who keep their children from school, if permitted to do so, that they may earn a few nickels or pennies daily for the family treasury, but the poor child of the Jew is generally willing to stint himself in order to give his children an education. And the fact that this country offers his children a free education is a potential inducement to make the Jew a law-abiding citizen and a friend of our Government.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CERRY & Co., Toledo, Ohio. Sold by Druggists 75c. Hall's Family Pills are the best.

C. Y. Lowe Will buy it Back. You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. C. Y. Lowe will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable. The Weekly Oregonian and this paper give you all the news of home, state, the Northwest and the nation.

Ten Thousand of Mad Mullah's Men Slain in Battle.

LONDON, June 30.—The War Office today received a dispatch from Colonel Rochfort, one of the British officers serving with the Abyssinian forces Somaliland, which says the Abyssinians, on May 30, after a series of forced marches, struck the Mad Mullah's forces near Jeyd, surprising them at dawn, and killing 10,000 spearmen and capturing almost all their cattle and sheep and 1000 camels. Colonel Rochfort adds that the Abyssinian forces actually closed to the Mullah all the watering places south of the Gerlongubi-Galadi line, and he hopes they will soon be in contact with the British forces and thus be able to co-operate in the pursuit of the Mullah, who is delayed in his movements by the fact that he is crossing a waterless part of the country. The Colonel's dispatch is dated June 14.

Initiary and Referendum Law Void.

The following tells its own story: The authorities are practically unanimous in holding that when it appears that the fundamental law, that is, the constitution, has not been obeyed, in the respects where it provides that the constitution may be amended, it is clearly the duty of the courts so to declare and to hold amendment invalid.

It follows that the initiative and referendum amendment was received and acted upon by the Legislative Assembly in 1899, contrary to the express and mandatory provisions of the constitution, and the result is that it must be and is held to be invalid and no part of the present constitution. The charter of the City of Portland, adopted in 1903, is not affected by the initiative and referendum amendment, and is held to be in full force from and after its approval by the Governor.—Extract from decision rendered today by Circuit Judge Cleland, Judges George, Sears and Frazer concurring.

Socialist Gains in Germany.

The Socialists made large gains in the recent elections in Germany, and will have eighty-one members of the next Reichstag, as against fifty-seven members in the last one. The popular vote of the Socialists increased in about the same proportion, and probably exceeded 3,000,000, a gain of more than half a million votes—though the exact figures are not yet at hand. About one-third of all the voters in the empire now class themselves as Socialists, though they comprise varying degrees of socialist belief, and most of them are not very radical, are really only progressive democrats.

It is interesting to note that the greatest gain in the Socialist vote was in Essen, the town of the late Herr Krupp, the great ironmaster and gunmaker, in which town the Emperor recently and vigorously denounced the Socialists. This result shows that the German voters are becoming very independent, and while they are loyal enough to the Emperor and the monarchy, they are not to be frightened by his vociferous verbal fustianations.—Telegram.

Very Remarkable Cure of Diarrhoea. "About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly believe that I was well again, or realize it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by C. Y. Lowe.

W. C. T. U. COLUMN.

The next W. C. T. U. meeting takes place Tuesday, at 2:30, P. M., at the M. E. Church.

Why will Socialism drive the saloon out of existence, stop the sale of patent medicines, the intentional spreading of disease and adulteration of food and drink—Tanglefoot. It will drive out the saloon because there will be no profit in the business. No one will keep a saloon if he cannot make money or wealth by it. The public will handle the drink as it will handle every other thing. The same will apply to patent medicines. The public department of health will attend to the needs of the people, and it will be free to all. The physicians and surgeons will be officials, deriving their incomes from the public and not from the patients as now. This will prevent the spreading of diseases, because it will profit no one, and the physicians will teach the people healthfulness, as that will make their employment more pleasant and not throw them out of business. They will have charge of all the sanitary arrangements of the nation. The public will not adulterate its own food, and as it will make its own food there will be no adulteration. Adulteration is done because it is more profitable than honest goods.—Appeal to Reason.

Telegram, Ex-Licentia anti-Governor Lee naively tells how he received various checks from persons connected with the tobacco and sugar trusts, when he was a member of the Missouri Legislature or Lieutenant-Governor, one of them from H. A. Havemeyer, head of the sugar trust, for 1000, supposing the payments were merely campaign funds from personal friends, or payment for personal and private services, and not connected at all with anything he had done or might do as a legislator. This story proves that Lee is even a bigger fool—for supposing anybody would believe such a yarn—than he is a rascal.

Disastrous Explosion.

HANNA, Wyo., June 30.—The worst coal-mine disaster in the history of Wyoming occurred in mine No. 1 of the Union Pacific Coal Company today, at 11 o'clock, when a terrific explosion took place. Two hundred men were working in the mine at the time. The explosion set fire to the mine, and at this time it is impossible to estimate the loss of life. Not less than 20 men were killed outright, and although the mine is well ventilated and provided with many avenues of escape, the loss of life will be very large. Not a man at this time has found his way to the surface. Superintendent Brooks is working diligently with a large force of men to rescue the imprisoned miners and extinguish the flames.

HANNA, Wyo., July 2.—Of the 235 men known to have been entombed by the mine explosion on Tuesday, the bodies of only five have been recovered, and all hope that any of the others are alive has been abandoned. The fire and smoke are preventing the exploration of the lower works and it is feared that many, if not all, of the bodies now in the mine will be consumed.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock. J. B. BLSHER, St. Louis, Mo. Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Hogs gain flesh. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.
