Fall & Winter Suits. Fall is soon here, and winter is coming. To be prepared for the change you must change with the season, and a man that is not properly dressed is like a fish out of water. Baseball. In Sunday's game Bandon again wrested a victory from Marshfield in one of their nine innings of fast ball playing by the small margin of two to one runs. The game was replete with grand stand plays, which if not fielded, would have been disastrous to the team failing in the field, especially so to the Bandon team, which was forced into many tight places, out of which the players came in their usual handsome and brilliant manner. While we are reporting on "grand stand" we are pleased to mention Bill Oswald who figured most conspicuously by nailing two very long drives, and made a beautiful throw to the plate which cut off the runner who tried to make the plate on a hit. The batting honors belong to Tay Streib, who with his "Big Betsie" tore off three good safeties. "Big Betsie," to all who are not initiated, is Tay Streib's small light bat, and she and Tay are there with hits galore. Much kicking was done by Marshfield's "three day" big leaguer who is a considerable one of the best at that profession. The umpiring was very satisfactory to both teams, as "Jimmy Hutch" and Baxter both knew how to handle their spheres and correct decisions resulted. The usual protest was entered and we regret to say that the Bandon management is forced to play all the games under protest. Much "Kidding" was done by both teams, each handing out to the other large bunches of the "dops." The fine features of the game were many, but not having time to hand we will close by saying that each team put up the best of amateur ball and that many persons think this was the best of all the games that have been played in Coos county. Below is given the tabulated score of the games.

Table with columns: Bandon, AB, R, H, SH, SI, PO, A, E. Rows include games against Marshfield, Coquille, and others.

Marshfield AB R H SH SI PO A E. Coquille AB R H SH SI PO A E. Bandon AB R H SH SI PO A E. Earned runs, Bandon 1; Marshfield 1; two base hits, Streib 3; Struck out by Bann 7; by Lob 7; First base on errors, Marshfield 0, off Lob 1; First base on errors, Marshfield 2; Bandon 2; Double play, Boynton to Nadler to Clynes. Hit by pitcher, Wright. Time of game 1 hour, 20 minutes. Umpire Hutchinson and Baxter. Scored G. Lorenz.

STANDING OF THE TEAMS. No games played won lost percent. Bandon 11 3 4 77.8. North Bend 10 7 3 700. Marshfield 10 6 4 400. Coquille 11 0 11 000.

The game played at Coquille at the same time was rather one-sided, the score being 7 to 2 in favor of North Bend. Coquille is playing in bad luck this season. Boy Cured of Colic After Physician's Treatment Had Failed. My boy when four years old was taken with colic and cramps in his stomach. I sent for the doctor and he injected morphine, but the child kept getting worse. I then gave him half a teaspoonful of Chamberlain's Colic, Cholera and Diarrhoea Remedy and in half an hour he was sleeping and soon recovered.—F. L. WILKINS, Shell Lake, Wis. Mr. Wilkins is book-keeper for the Shell Lake Lumber Co. For sale by C. Y. Lowe.

OBITUARY.

Oscar F. Topping, who died in Bandon, Oregon, on the 22 day of July 1903, was a native of Ohio, born in Cleveland, Cuyahoga County, December 27, 1835, being nearly 68 years of age at the time of his death. He learned his trade, that of carpenter and builder, in Cleveland, moving to Morrisou Illinois with his parents while under age, where he lived until December 21, 1863, when he enlisted in Company C, 8th Illinois Cavalry serving until the close of the Rebellion after which he moved with his family to Josephine County, Oregon, living there until he moved to Bandon about 16 years ago. Mr. Topping was an enthusiastic member of the G. A. R., and while being a patriotic citizen had a natural desire for military service, which he no doubt inherited from his great-grandfather who served 7 years of the revolution, and his grand-father, who took in active part in the war of 1812.

Card of Thanks. I wish, through the columns of the Recorder to express my sincere thanks and gratitude to the many friends who so kindly assisted during the illness and funeral of my father, GEO. P. TOPPING. Fight For Ten Million Dollars of Public Money.

The Eleventh National Irrigation Congress, which meets in Ogden, Utah, September 15th to 18th, 1903, will witness a struggle unknown outside the United States Senate and Congress. The United States Government has in the treasury over ten million dollars, which has been appropriated and set aside for the purpose of reclaiming the arid lands of the West. This great sum of money, as well as all future receipts from sales of the public lands of the sixteen arid states and territories, can be used only for the storage of water by the erection of reservoirs and dams and the developing of water supplies by artesian wells and drain tunnels, and the conserving in other ways of water for reclamation of lands in the arid West, which is defined by the irrigation law as including the following states: Arizona, California, Oregon, Washington, Nevada, Idaho, Montana, Wyoming, Colorado, Kansas, Nebraska, New Mexico, North Dakota, South Dakota, Oklahoma, and Utah.

The National Irrigation Congress, which was instrumental in causing the Government to set aside this great sum of money and which recommends, will recommend to the Secretary of the Interior the expenditure of these millions of dollars set aside as a reclamation fund quota. Shall this State have her quota of this money? Shall this important neighborhood be represented at this Congress? Each board of county commissioners, the Mayor of each city not over 25,000 population, each chamber of commerce, irrigation association, agricultural society, livestock association, society of engineers, and agricultural college is entitled to send two delegates. Mayors of cities over 25,000 population, four delegates, and the Governor of each state twenty delegates. This State and community should be fully represented in this National Irrigation Congress. Those interested in the up-building of our State surely should look into this matter, and see to it that proper representatives are sent to Ogden, Utah, to attend the Irrigation Congress. Those desiring further information may address Fred J. Kiesel, chairman of the Executive committee of the Eleventh National Irrigation Congress, Ogden, Utah, who will send the official call including credential blanks. Those who are authorized to appoint delegates should see promptly to this matter.

Not Over-wise. There is an old allegorical picture of a girl scared at a grass hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by C. Y. Lowe.

Watches! Are You Aware That in the course of a year the balance of your watch makes 157,860,000 revolutions? Think of It. In time the oil runs, and produces friction, which wears the delicate bearings, destroys the tick (tick), and perfect fit thus ruining an accurate time piece. When you do this do not blame the jeweler because he cannot make it run as accurate as it did before. An ordinary machine is oiled daily. Your watch from which you expect correct time should be cleaned and oiled once a year. Do not neglect your watch, but have it repaired by Arthur Rice, the reliable jeweler, who guarantees all his work. Bandon, Ore.
