

Volume XIX.

BANDON, OREGON: THURSDAY, OCTOBER 8, 1903

Number 40.

LOCAL NEWS.

New Carpet at Furniture Store.
Hay, grain and feed at N. Lorenz's Store.
G. E. Green, of Langlois, was in town Sunday.
A new line of up-to-date millinery at Denholm's.
Open air concert by band every Saturday evening.
The steam feather renovator will be here in a few days.
"Photo" Buttons, 10 to 15c, at Wrenshall's Gallery.
The Enterprise states that a daily train is being run between Marshfield and Myrtle Point.
Ice Cream, each Saturday and Sunday, at the Pacific Ice Cream Parlor and Confectionery, until further notice.
Found—About Sept. 23th, on First Street, a pair of steel frame spectacles. Owner can get same at this office.
The feather man's stay is quite limited. He will convert your bed into pillows or vice versa, without extra charge.
Lost—A moss sgate charm with short piece of chain attached. Finder will be suitably rewarded by leaving same at this office.
Lost—A pair of spectacles in a case. Finder will please leave same at this office. The lenses are double, and the frame of silver.
If troubled with a weak digestion try Chamberlain's Stomach and Liver Tablets. They will do you good. For sale by C. Y. Lowe, Druggist.
J. W. Dorr, of Puget Sound, a tract distributor, was in town, Monday, on his way up the coast. He had travelled from Los Angeles on a bicycle.
A penny saved is a penny earned. You can save the penny by purchasing your groceries of H. A. Cox. He always keeps the best, and his prices are all right.
J. H. Cecil and Harvey Schweers, of Coquille, were in town Saturday night, on their way home, having been on a hunting expedition, to the coast above this place.
POULTRY FOR SALE.—The finest strain of Black Minorcas and Buff Plymouth Rocks. Eggs \$1 per setting. Cocks from \$1 up. Shepherd and Collis pups for sale. J. R. Stillwell, Arago, Oregon.
The run of salmon has been very large during the past few days, and the cannery has been a busy place. On Friday the catch was above 1,400, and nearly as large on Saturday. Monday was the big catch for the season, on which occasion, over 4,500 were brought in. Tuesday's catch was above 2,000, and yesterday about as many.
Elder D. A. Anderson and wife, who have been doing missionary work in Coos County for over three months, left last Monday for Portland, where Mr. Anderson went to consult with Elder Griffith in regard to the missionary work in Oregon. From Portland they will go to Hood River, and from thence to Condon, in Eastern Oregon.
Enterprise: Ernest Folsom, a young man about 19 years of age, met with a serious accident while working at Minard & Folsom's mill on the East Fork, Monday. He was working near the large circular saw, and in attempting to lift a heavy timber his left foot slipped, striking the saw, which was in motion. Before he was able to get away from the saw his foot was badly cut and torn. He was brought to town and the wound dressed. Dr. Leep being sick, was unable to attend to the wound, and the young man was taken to Marshfield, Thursday, for treatment. Later—Word was received this morning that it was found necessary to amputate the foot at the instep, and the operation was performed yesterday.
A Close Call.
Dr. Kime was called to A. Forester's logging camp, above Parkersburg, Tuesday evening, to attend a Russian, whose name we have been unable to learn, and who was injured by a slash of the logging cable.
It seems that the man got in the way of the wire cable which struck him a glancing blow on the right side of his scalp, tearing the scalp loose for about five inches in length and an inch and a half wide, and peeling it down to the skull.
The man was insensible for some time, but the injury, although severe, is not serious, and Dr. Kime dressed the wound, and left him as comfortable as could be expected. The wound was severe enough, but if the cable had struck him the least bit lower, it would doubtless have proved fatal.

New, good and fresh fruits at H. A. Cox's Grocery.
For first-class real estate, correspond with Geo. P. Topping.
Ladies have your beds and pillows steam washed and purified while you have the opportunity.
E. F. Ferry, and H. Lockhart and wife, of Marshfield, were visitors in Bandon this week.
The match factory has shut down for a couple of weeks or so, until matters get straightened out.
M. R. Lee came down from Myrtle Point, Tuesday, having some business interests which called him here for a day.
A full line of Ladies' and Children's Capes and Coats, also Ladies' Dress Skirts from \$1.50 upwards, at Denholm's.
The Steamer Chico has been outside the bars since yesterday morning, and will probably get in today. The bar was too rough yesterday for her to cross in.
H. R. Coleman, of Philadelphia, Pa., who has been visiting his daughter, Mrs. Colgrove, of New Lake, left this morning for home, going by way of Roseburg.
Edgar Bossen, the handy man with a trowel, has been plying his art in town for the past week, building stove flues. Z. Boice, William Gallier and R. H. Ross have required his services.
Messrs Leo Cox and W. P. Anderson of Denmark, were in Bandon the latter part of last week. They attached a donkey engine which the P. F. & L. Co. was moving from Elk River to Coquille. W. T. Kerr, who manages the company's business at Coquille, came down and settled the claim.
L. N. Barnes, who has been associated with the business of Bandon since last March up to the first of last August, left yesterday for Marshfield, where he had some business to look after, and from which place he intends going to San Francisco. His daughter, Miss L. W. Barnes, will remain in Bandon for a couple of weeks before joining her father.
Bulletin: S. W. Upton's horse, while in pasture this week, attempted to walk a foot log across a gulch which was between them and the barn. They both slipped off the log, one falling on one side and one on the other of the log, and both falling in such a manner that they could not get out. When Mr. Upton found and released them, he discovered that one had fallen on a snag which pierced his abdomen. The wound was dressed but the horse only lived about 24 hours. This is quite a loss to the owner, and more keenly felt from the fact of his just having arrived here.

Robert Breen, wife and son, of Beaver Hill, were in Bandon, Friday.
William Gallier moved his hardware business into his new building, this week.

Milliner's Notice.

Under force of circumstances, Mrs. D. Giles will have to return to Myrtle Point about October 18th, and she hereby gives notice that all intending purchasers may call before that time, and fit themselves out for the winter before she goes away. Now is the time to purchase.

To the People of Bandon, Greeting.

A series of meetings is now being held in "Reformer Hall" by the Latter Day Saints.
We desire to make those meetings interesting and profitable, and in order to do this we realize the necessity of the co-operation of all christians, and why not unite; there is strength and happiness in doing so; why not work together in calling men to repentance and to an investigation of God's word?
The world is large enough for us all; why not help each other, and perhaps some other poor, tempest-tossed soul, now out of all churches, will come into the haven of safety.
Some may say, "We don't approve of your faith, your manner of saving people," true, but we are presenting Christ as the Savior of all men, and obedience to his law as the only means of salvation. Come and see if we are so teaching; if so, you can help us and the work of Christ.
We can all learn by investigation; "Search the scriptures, for in them ye think ye have eternal life," says the Master.
Let us come together as friends, as children of our Father, investigate His word and learn of him.
We will answer all questions of a scriptural character that we can, and will preach on any subject desired.
Prejudice is not becoming in Christians, or pleasing to God, so let us, a wise people, come together and make common war against sin, and build up the work of God.
Various subjects will be considered, such as, "The soul of man, is it immortal?" "The punishment of the wicked, will it be endless or annihilation?" "Heaven, where will it be?" "Prophecy—Should they be in the church now?" and other subjects of vital importance to all people. Come, and "prove all things, hold fast to that which is good."
Yours for the good of mankind,
Elder Hiram L. Holt.

C. L. Hoan, Missiag.

Charles L. Hoan, of Coquille City, has been missing since last Thursday night, and it is supposed that he has drowned. He left the hotel at 11 o'clock, on that evening, to go to the Steamer Dispatch to sleep, and has not been seen nor heard from since.
The station crew have been dragging the river, but without success, and the search has ceased. In a few days a patrol will be put on the beach to watch in case the body comes ashore.

Steam Feather Renovating.

The feathers, beds and pillows, will be called for at each residence and taken in the ticks just as they are, and during the day are thoroughly washed with steam, and dried perfectly dry, and returned the same day before bedtime. Old ticks are cleaned or new ones put on at reasonable prices. All disease germs and vermin are absolutely destroyed and separated from the feathers, and when they are cleaned, and returned at night, they are pure as snow and light as air.
Taylor & Steckel,
Proprietors.

Chamberlain's Cough Remedy.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration, it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly, and very few are willing to take any other after having once used it. For sale by C. Y. Lowe, Druggist.

Alliance Good as New.

The Alliance arrived from Portland yesterday, and is billed to sail south at 10 a.m., to-day. On going into drydock on Puget Sound, her injuries were found to be not at all serious. A piece of her shoe was gone and some repairs to her keel were necessary. The work was done, and she was in the dry dock one night. She was unable to bring from Portland all of the freight offered, and left a large amount behind. The Aberdeen, of the same line, will leave Portland for this place in a few days, bringing the back freight.—Coast Mail.

Many Mothers of a Like Opinion.

Mrs. Pilmer, of Cordova, Iowa, says: "One of my children was subject to croup of a severe type, and the giving of Chamberlain's Cough Remedy promptly, always brought relief. Many mothers in this neighborhood think the same as I do about this remedy, and want no other kind for their children. For sale by C. Y. Lowe, Druggist."

B. Timber Deed.

Coast Mail: An Oregon Dispatch from Houston, Mich., says Colonel William Coach sold yesterday to L. J. Cody, of Duluth, and V. T. Addis of Kansas City, a tract of standing timber on Coquille River, Oregon, estimated to contain 350,000,000 feet. The deal is one of the largest ever made in Oregon pine lands, the purchase consideration being \$250,000.
Colonel Coach, who is a pioneer Michigan lumberman, has extensive pine holdings scattered through the Pacific Northwest, bought at low prices during the past 14 years.
Parties here, well acquainted with Coos County lands, do not think that Col. Coach had any extensive holdings in this county, but think the land referred to is the tract on the Umpqua in which Nasburg, Webster and others were once interested, and of which Coach was the purchaser.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. B. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief, and soon thereafter effected a complete cure. Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by C. Y. Lowe, Druggist. Trial bottles free.

New Strike in Del Norte.

The Bald Hills country is all astir over what is supposed to be a rich strike of quartz. A vein of decomposed quartz which promises to surpass anything of its kind yet found in Del Norte, has been located on the Murphy ranch, ten miles east of Crescent City. The vein, as it descends, merges into blue porphyry, which fact indicates from the good prospects that a rich strike will be made. Col. Draper inspected the prospect last week, and was so pleased with the croppings that he has turned to it his attention. The prospect is the property of Gratton Murphy, Chas. Shillingford, Jim Casey and Jack Holloway.—Crescent City News.

Eckley Items.

A social dance was given in the Eckley School house on Friday night, Sept. 25th, in honor of Miss Effie of Myrtle Point, who has just completed a successful 3 months term of school in the Eckley district.
Joseph Fox and Dr. R. V. Pierce of San Francisco, passed through last week to South Sixes, where they will put in the winter. Mr. Fox and others have located some placer claims in the present channel of the South Sixes, and will put in the winter blasting boulders, to give the river a chance to slice down during the winter freshets, giving them a chance to work their claims at considerable less expense than other claims above have been worked heretofore. Dr. Pierce is a Geologist, in the employ of Uncle Sam, and will put in the winter investigating the mineral resources of the Sixes country, with headquarters at Fox's Mining Camp.
B. J. Harrison, and sons Bob and Ben, are erecting a two-story dwelling on what is known as Limber Bar, on South Sixes. When completed, this will be the best dwelling house on South Sixes, being built of lumber sawed by their own mill. They will put in the winter placer mining.
There are other mining propositions being considered on South Sixes and vicinity, and operations may be commenced this fall or winter.
It is a shame the way does and fawns are slaughtered by the different gangs of non-resident hunters that come here; not being satisfied with slaughtering the does and fawns, they bring bounds along and chase those they fail to kill out of the country. There is a law against chasing deer with dogs, and it should be rigorously enforced. While the writer was away a few days ago after his mail, a party of four hunters visited his cabin and swiped a portion of his bacon and a bar of Uncle Sam's Tar Soap. I suppose they took the soap to wash the stains from their greasy conscience.
A couple of lawyers from New York were here last week looking at what is known as the Tichenor tract of land that was recently sold at sheriff's sale, at Gold Beach, for taxes. The gentlemen claim that they purchased the land of Tichenor, and intend to hold the same, as the sheriff's title to the parties purchasing at Gold Beach was no good, and that they intended to pay all back taxes themselves, thus making their own titles good.
REPORTER.

Makes A Clean Sweep.

There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, Buckley's Arnica Salve is the best. It sweeps away and cures Burns, Sores, Bruises, Cuts, Boils, Ulcers, Skin Eruptions and Piles. It's only 25c, and guaranteed to give satisfaction by C. Y. Lowe, Druggist.

Important News Notes

Tuesday, September 29
The Chewaucan marsh in Lake County is on fire, and about \$50,000 worth of property is destroyed.
