Port Orford Tribune: E. R. Burns and W. T. Bodry have leased a number of mines, mill sites and water rights in the Mule Creek mining district, and will put in extensive machinery and appliances for working the same.

The Myrtle Point Dramatic Club appeared here last Saturday night in the play, "Bound by an Oath," which they rendered in a very creditable manner to a well filled house. The audience received the play with ordinary interest, but were generally glad when the curtain dropped for the last time, as the play was excessively long, not closing until after midnight.

It should be borne in mind that Dr. Strange does only the best of dental work, all of which is fully warranted and his charges are as low as is consistent with good work, and are to say the least far below that of any other dentist in the country, and at the same time his work is equal or superior to what any one else will or can do.

North Bend Items to the Coast Mail: A large consignment of wool has been received at the Woolen Mill and the plant will soon be in full operation. Arrangements have been made to transport the Bandon plant here as soon as it can be accomplished, and the floor spaces are already allotted and arranged for the power. The machinery will be brought to Coquille, and from there to Eagle Point, and loaded onto barges, thence direct to the dock at the mill. There will be about fifteen car-loads. When this plant is added to the one which is already at the mill, the North Bend Woolen Mill will not have an equal on the Pacific Coast. Mr. Clark feels proud of his achievement as he has one of the most substantial buildings on the coast of the kind. The new machinery is all of the latest pattern, and the finest goods will be turned out.

The Recorder force has had a siege of la grippe during the past two weeks, which largely accounts for the delapidated condition of the locals.

A penny saved is a penny earned. You can save the penny by purchasing your groceries of H. A. Cox. He always keeps the best, and his prices are all right.

Owing to weak eyes, Dr. J. W. Strange has been obliged to change the date of his coming to Bandon. He will be here on December 16th. Mark the change.

Drowned at Prosper. News reached here last Saturday evening that a son of William Metcalf, of Prosper, had fallen into the river and drowned at that place.

Keeper Johnson and crew from the Life Savings Station went up to help search for the body, but it was not found until Sunday morning.

It appears that the lad, whose name was Warren Metcalf, and who was about 13 years old, had taken some logs up to the mill, the preceding day, and was going back to get his pay, and finding the current too strong for him to pull up against, he got out of his boat on to the boom, and was pulling his boat along, having hold upon the boat's painter.

While making his way along the boom in this manner, he slipped and fell into the river, and being unable to swim, was drowned.

His mother witnessed his mishap, but was unable to reach him. His grandparents were crossing the river at some distance away, and saw him fall into the water but could not reach the place in time to render any assistance.

The funeral took place Tuesday, at noon, in the Bandon Cemetery.

Edison's New Miracle. From Harper's Weekly.

Mr. Edison is not a man given to making startling promises which do not result in performance, so that his claim of having at last solved the problem of generating electricity at a trifling cost for common use may be accepted as the announcement of an accomplished fact. And such a fact is little less than a miracle, for it means the production at will of an almost limitless and widely adapted power.

The electric generator which Mr. Edison has perfected after years of toil, derives its power from a so-called fuel of marvelous potency. It will make it possible for the day laborer, as well as the millionaire, to light his home with electricity, and have some sort of a motor vehicle.

For a few cents a day light and power may be produced in sufficient quantities to supply the needs of any family, and the generator is so simple that any person with ordinary intelligence can act as engineer. In the inventor's own words "you can wire your house for electric bells, telephones from room to room, or for anything electricity will do, and the batteries in your automobile will operate them. The cost is so trifling after you are provided with your plant, that it is not worth mentioning. "It has always been my ambition to bring the uses of electricity within the reach of men with moderate means." Mr. Edison warns the public that there is yet much work to be done before the harvest he has sown can be reaped. But the invention is perfected, and the problem of cheap electrical generation is definitely solved.

The Rev. Irl R. Hicks 1904 Almanac.

The Rev. Irl R. Hicks Almanac for 1904 is now ready. It will be mailed to any address for 30 cents. It is surprising how such an elegant, costly book can be sent prepaid so cheaply. Both are sent for only one dollar a year. Word and Works is among the best American Magazines. Like the Hicks Almanac, it is too well known to need further commendation. Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

ASHBURNHAM, Ont., April 18, 1903.—I think it is only right I should tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, as my voice was almost choked by the cough.

The same day I received an order from you for a bottle of your cough Remedy. I at once procured a sample bottle, and took about three doses of the medicine. To my great relief the cough and cold had completely disappeared and I was able to preach three times on Easter Day. I know that this rapid and effective cure was due to your Cough Remedy. I make this testimonial without solicitation, being thankful to have found such a God-sent remedy. Respectfully yours,

E. A. LANGFELDT, M. A. Rector of St. Luke's church. To Chamberlain Medicine Co. This remedy is for sale by C. Y. Lowe.
