The steamer Elizabeth arrived last Friday bringing in about seventy tons of freight and three passengers. We were unable to get a complete list of the names, but there was a Mr. Fox, Mr. Kight and David McNair.

David McNair, Jr. of Marble Point, arrived here Friday from San Francisco having spent a month in visiting and sight seeing. During his travels he visited Tillamook, Portland, Oregon City, then went to Portland and San Francisco, from which place he came direct to the Coquille.

Democratic County Central Committee met at Coquille City, March 2, and set date for the primaries on Saturday, April 2, at 2 o'clock, and the County Convention to convene at Coquille City, at 2 o'clock, April 12, to elect six delegates to the State Convention, and to nominate a county ticket. Each precinct gets one delegate at large, and one for every ten votes and fraction over five cast for Governor Chamberlain. Bandon gets seven delegates.

That woolen mill proposition is still hanging, while time is fast drifting by. It is a chance only met with once in a lifetime, and if it is not improved, will result in nothing. Property interests here depend altogether, or nearly so, upon manufacturing interests, and the way to secure your investments is to help secure manufacturing. Without enterprise, a town, or people, is dead, and only needs to be buried. Bandon has never belonged to that class, and we think she is not likely to fall into such company now.

Fearful Odds Against Him.

Badridden, alone and destitute. Such, in brief, was the condition of an old soldier, by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease, and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies, "I'm on the road to complete recovery." Best on earth for Liver and Kidney troubles and all forms of Stomach and Bowel Complaints. Only 50c. Guaranteed by C. Y. Lowe, Druggist.

Proper Treatment of Pneumonia.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and that by giving Chamberlain's Cough Remedy the threatened attack of pneumonia may be warded off. This remedy is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sandeas, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia, and have always gotten the best results." Sold by C. Y. Lowe, Druggist.

What is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly re-adjusts this. It's gentle yet thorough. Only 25c at Lowe's Drug Store.

A Close Call.

From time to time the RECORDER has warned sportsmen against carelessly shooting around town, and again it becomes necessary to call attention to this practice.

There have been a half dozen narrow escapes, perhaps more, but the most narrow one occurred last Thursday evening, between sundown and dark.

John Koon and Gene Shields were on the opposite side of the river above town, and wanted to cross, and in order to attract attention, fired off their guns. The Misses McNair were on the opposite side of the river near their home, and the ball from one of the guns passed close enough to the back of Miss Winnie's head so that she felt the wind from the whizzing bullet, which doubtless took a few stray hairs that hung loosely at the back of her neck.

The boys say that they pointed their guns up the river, but even this does not prove anything, as a small ripple of water will deflect a rifle ball and send it in a direction widely diverging from the one in which it was started.

Too much care cannot be taken in handling fire arms, and an ordinary amount of caution may save a lifetime of regret.

Captain Reed Injured.

A report comes in a San Francisco paper, that Captain Al Reed was in the Emergency Hospital in a critical condition, from the effect of poisonous gas. It seems that the lime cargo of the Bossie K., of which he was skipper, took fire and was extinguished by the use of acid. Then Captain Reed went down in the hold and was overcome by the fumes.—Coast Mail.

A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia for other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. For sale by C. Y. Lowe, Druggist.

FOR SALE.—A good second-hand organ on monthly payments of \$4.50. Write the undersigned, care of this office. E. M. FURMAN.

Dealer in pianos and organs.

Eastern War News.

London, March 3.—So apparently authentic is the news from Port Arthur via Chefoo, today, that there seems no doubt that the Japanese are in control of the situation at the former port, and in all probability are so in touch with the conditions at Vladivostok, that the ice-bound place is in easy taking by the nikado's forces.

A dispatch received this afternoon from Peking which was directed to the foreign office here, states that the Japanese landed 200 sailors and marines from the battleship Abiza, and at this time they practically occupy the city.

This means the abandonment of the town by the Russians, who seek to protect their line of communication rather than suffer defeat in an ill-protected fortress.

It is known that seven war vessels not connected with the Japanese fleet now storming Port Arthur, are on the other side of the Korean peninsula, and are ready to wipe the remaining vessels of the Russian navy, now at Vladivostok, from active service.

As received here, the news means much as it is intimated in the dispatch that France is insistent that every detail of Japanese progression shall be reported to the foreign office at Paris.

It is also reported here that the French government is in hourly communication with the Tsar, and that the former promises that should a continuance of reverses obtain, she will be ready to enter the field of war.

All this means bitter strife for England, and what else?
