Isom Walker, of Langlois, came over Friday evening from a visit to Marshfield, where he had been looking after business in the way of supplying beef cattle. If troubled with weak digestion, belching or sour stomach, use Chamberlain's Stomach and Liver Tablets, and you will get quick relief. For sale by C. Y. Lowe, Druggist. Millard F. Shoemaker returned home Saturday from a visit to San Francisco. He thinks of moving to California in the future, but will probably remain in Bandon until the coming October. Any one wishing to improve their stock of chickens for winter layers, should get a cock from J. R. Stillwell. He has the finest stock in the county, and has made a specialty of breeding for winter layers. Following is the list of passengers who left for San Francisco on the steamer Elizabeth, Monday morning: B. C. Rucker, Miss Florida Fahy, Mrs. C. Romander and two children, A. Wilson, J. Nelson and C. M. Stokes. Mrs. C. Romander and two children were passengers on the steamer Elizabeth, Monday, having gone to California to visit friends. Mr. Romander accompanied them as far as Bandon, and then returned to Coquille City. The entertainment, last Saturday evening was an enjoyable affair, and the different actors made a very creditable appearance, but the condition of the times and weather mitigated against the attendance so that the audience was comparatively small. The steamer Elizabeth came in last Saturday morning, from San Francisco, bringing in about 75 tons of freight and nine passengers. Following is the list: Miss Nellie Dement, Dr. J. Steel, J. A. Haines, O. Whiting, C. D. Holdridge, Mrs. T. Lewis, Miss Grace Garfield, M. F. Shoemaker and W. O. Connell. Railroad Survey. The surveyors are at work about Riverton, and are pointed down the river. They are doing an immense lot of work for a preliminary job, as they are camping out and getting it ready to set the grade stakes. It is not apparent just where they will cross the river, but rumor says that the survey will come close to the mouth of Ferry Creek, and then pass south through the east side of Bandon.

The Latter Day Saints' Sunday-School will have a short Easter program which will be rendered after Sunday-School next Sunday. The exercises will commence at 11 a. m. C. H. Harley, J. O. Langworthy and S. A. Langworthy, of North Bend, were in town Monday night, and left next day for do. on the coast on a timber cruise. Mrs. J. H. Welsh received word that her daughter, Mabel Jackson, died Sunday, March 27th, at Portland. The body will be brought to Coos Co. and interred at Coquille City. The cause of death was rheumatism of the bowels. The weather having cleared to some extent, R. D. Hume resumed his journey to Wedderburn last Saturday. While in the county he seems to have set the political machine going, as politics have been bubbling since, and there is evidence here of a heavy support for Mr. Hume. He Had No Supporters. Marshfield has a candidate for Joint Senator from Coos and Curry Counties, in the person of J. S. Coke, who aspires to official honors. We were around town yesterday looking for news items and listening to the political zepthers to hear what the wild winds were saying. Following are a few of the things we heard. John Coka wants to be Joint Senator; There has not been a campaign for years and years but that there was a Coke up for office; One campaign there was one aspiring to office in each of the political parties; None of them have ever been chosen to an elective office; The old gentleman held an office, but it was appointive; Their political ambition carries a fatality with it and fails of success; Bandon and Coos County's interests are not in the keeping of Mr. Coke, etc. We gathered the opinion from the comments that Coke's supporters were absent. Dr. Kime Going Away. A. W. Kime, M. D., returned home Monday evening, from a visit to the Willamette Valley, where he had gone to have a look around with a view to locating. While away he made arrangements to locate at Cottage Grove, a town of about 2500 inhabitants, situated on the S. P. Railroad, 18 miles south of Eugene. One reason why Dr. Kime wishes to get out into the valley is to get where he can be in reach of hospitals and other medical institutions, so as to study up in his profession by coming in contact occasionally with the advantages these institutions afford. He will move as soon as he can get ready. Infant-mortality Rheumatism Cured. William Shaffer, a brakeman of Dennison, Ohio, was confined to his bed for several weeks with influenza lary rheumatism. "I used many remedies," he said. "Finally I went to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by C. Y. Lowe, Druggist. FOR SALE—A six acre tract, adjoining corporation land; slashed and burned, and logs mostly gone; lies east of town. Also three nice residence lots, fenced and cleared, on Reed Street. For full particulars enquire of J. W. Foster, Bandon, Ore.

FOR SALE—A good second-hand organ on monthly payments of \$4.50. Write the undersigned, care of this office. E. M. FURMAN. Dealer in pianos and organs. A Favorite Remedy for Babies. Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. For sale by C. Y. Lowe, Druggist. Basket Social. The ladies of the W. R. C. will entertain with a Basket Social, Saturday Evening, April 8th, at G. A. R. Ladies are cordially invited to bring baskets, and the guests to see ample justice done them. Light refreshments and coffee will be served to those not fortunate enough to secure a basket. Door admission 10 cents. A general invitation extended to all. Schiller Hermann Withdraws. Hon. Schiller Hermann and E. S. Dean, of Myrtle Point, were in town Tuesday night, having been out to have a political look around the country, to stir up the prospects. Mr. Hermann was a candidate for Joint Senatorial honors, but having taken observation of what was going on, and gotten an inside look at affairs, concluded that he would withdraw from the field and not enter the race as he could best serve his own interests and those of his friends by doing so. Mr. Dean wishes to be Coos Co.'s next assessor, and was down to look after his interests in that direction. What is Life? In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly readjust this. It's gentle, yet thorough. Only 25c at Lowe's Drug Store. Come Settle Up. Having concluded to locate elsewhere, I desire all persons indebted to me to come forward and settle by May 1st, 1904. After that date all accounts will be left in the hands of an attorney. A. W. KIME. Hume Answers the Citizen. Bandon, March 25th, 1904. Editor RECORDER, Sir: Under the head of "Here are a Few," the Citizen, published at North Bend, Coos County, in its issue of the 22nd, attempts to set forth some reasons why I should not receive the support of the Republican party to become its candidate for Joint Senator from Coos and Curry at the coming election. From the tone of the article a reader would infer that the nomination of myself, as a candidate, was conceded, and that we were in the throes of a bitterly fought campaign. The right of any citizen to offer himself as a candidate for office, will not be denied by any reasonable person, and the people will make such a selection, from among the various candidates, as they shall consider best qualified. In advance of such selection, it would seem premature to inject into the canvass, adverse criticism of the personal affairs of any who might aspire; it certainly shows poor political judgment on the part of those who have any pretensions to addition with the Republican Party, to drag into the canvass of candidates, the contemptible practices used by slim politicians at general elections. Such practices are destructive of party harmony, and usually react upon those for whose benefit such methods are used. From the evidence before me I cannot believe the editor of the Citizen has been in the Republican fold for any great length of time, if, indeed, he has been a citizen of the country and learned to understand the principles of our political organization. No member of the party, unless on an assigne breed, or lately injected into the party without knowledge of its principles, would give utterance to a personal criticism, in advance of selection as a candidate, of one who has been a member of the party for years. For the benefit of the Citizen I will take up the consideration of the few reasons, the first, being the independent candidacy of 1894, by saying, that under the same conditions, should, if had the same desires, re-

peat the same. At that time some of the primaries sent delegates to the Convention pledged to vote for me, for nomination of Joint Representative for Coos and Curry; and they were brought to such a condition that they were not able to prevent my name before the Convention. In view of such practice I placed my name before the people, which resulted in the defeat of the manipulators. Had my name gone before the Convention and been thrown down, I should have taken my medicine without a murmur, as I have not, like the parties who, then opposed me in Curry, ever boited my party. The second reason given by the Citizen is a barefaced falsehood, as no such fish law, as represented by him, was passed during any term of which I was a member of the Legislature. The memorial for the relief of Curry County was not introduced until I was a member in 1901, and was passed by the joint assembly, and consigned to the care of the Senators and Congressmen of Oregon, for their consideration and action. It was favorably reported by the U. S. Senate Committee to whom it was referred, but was turned down at that session by a cry of "Want of Precedent," and the following session, owing to the illness of Senator Mitchell, nothing was done with the bill. What will eventually become of the bill I cannot say, but so far as action in the premises has gone, I have done with right good will all that any man in my situation could have done, and had there been no road, would, without doubt, have got an appropriation to build one much better than that we now have. Little need be said by me regarding the third proposition of the Citizen, as I have discussed the matter involved pretty thoroughly in the columns of the Recorder. I will pause to remark, however, that it is a singular condition of affairs when a Republican sheet (or, if not one, it has no business to consider the question at all) shall urge, as against a Republican of long standing being an acceptable candidate, that he dares to criticize a Democratic Judge; To— with such Republicans, I will add, that if by the suppression of my sentiments regarding the methods used by Judge Hamilton, I could be elected to the highest office in the gift of the Nation, I would not sacrifice my liberty in that direction, to gain such favor. Among other few reasons that the Citizen delves deep into its mucky brain, to bring forth from the muck in which it mixes a few grains of truth with its falsehoods, appears something about the hours of labor at the Wedderburn Cannery. The owner will say that the Wedderburn Cannery employs a greater proportion of white labor than any on the Pacific Coast, and the hours of labor are no longer than at any other. Another mixture of the same muck comes with the assertion that thirty Chinamen were brought from San Francisco last year, passages paid and houses furnished free of rent. The facts are as follows: owing to the great demand for labor last year it was impossible to obtain white help to run the Cannery, and in order to obtain service sufficient, twenty four Chinamen were added to a force which, for a considerable period, amounted to one hundred and fifty white persons. Of the old Chinamen there were less than a dozen, and these have been in the country for nearly thirty years, to furnish Gin free, to those who may have supplied the Citizen with data from which to fabricate his reasons. These Chinamen built their own shanties, keep open house, and entertain such authors as are responsible for utterances like those with which the Citizen plumes itself, and accounts for the dopy mixture that appears therein. R. D. HUME. \$1,000 to loan on loan. Estate. Apply at this office. Proper Treatment of Pneumonia. Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and that by giving Chamberlain's Cough Remedy the threatened attack of pneumonia may be warded off. This remedy is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia, and have always gotten the best results." Sold by C. Y. Lowe, Druggist.
