Port Orford Tribune: The steamer Colia is expected at Rogue River soon with a consignment of freight for E B. Barns. The steamer will then sail for the Columbia, and bring to Rogue River the salmon cannery recently purchased by the R. R. P. & N. Co. It is said that Frank M. Flye, who many years ago was foreman of Mr. Hume's cannery, will have charge of the new cannery.

Coquille Herald: Alfred Johnson, the sawmill man, had rather a queer experience at his mill above town last Thursday, while hauling some logs in which the high water had left on the bank. He was drawing them into the river with a team when the rope to which the team was pulling and which had caught on a knot, slipped off, flying back and striking Mr. Johnson in the left groin, throwing him against a stump hurting him severely, and had the rope not broke at that instant would surely have ended his life instantly. He is able to be out again.

Gene Stiennon and T. A. Robinson are two of King Bobs best boarders and both show their keeping, being in good repair and always ready when the bell rings. Both are athletes and walk for exercise, but there seems to be a rivalry between them as to the length of the walk between bells. Around a block appears to be the stated distance, but each is ascending the other of cutoffs by way of the alley. They are waiting for something—probably eternity.

Marital Bonds.

A quiet wedding took place at the residence of Rev. and Mrs. W. H. Meyers, last Sunday afternoon in which Charles J. Dailey and Miss Martha A. Stitt were wedded together for life.

After the ceremony was over the young couple wended their way to the home of the bride's parents, where congratulations were received and supper was prepared.

In the evening the bride and groom repaired to their home where the band soon after put in an appearance and rendered some excellent music to suit the occasion.

Try a Washer.

We called in at J. W. Fairbank's workshop, a few days ago, and found him still engaged in making washing machines, having about twenty on hand. Mr. Fairbank makes an excellent washer as those who have purchased will testify to, and what is more, he is eminently fair in his proposition to let persons desiring to purchase, take them on trial, as nothing but a machine having merit can stand that test. Try one; they save labor; why make your work toilsome when it can be done better with less labor.

Sciatic Rheumatism Cured.

"I have been subject to sciatic rheumatism for years," says E. H. Waldron, of Wilton Junction, Iowa. "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a most wonderful liniment." For sale by C. Y. Lowe.

Bandon Gets Woolen Mill.

After a long delay, Bandon is to have a new Woolen Mill. Mr. Bedillion informs us today, that he has succeeded at last in raising the necessary funds to purchase one of the most complete plants in the United States for the size of it. This plant will be about the same size of the one which was taken from here to North Bend a short time ago, but will have the latest improved machinery, and a greater spinning, as well as weaving capacity, the engine and boiler also being larger than in the former plant.

The deal has been made for the machinery, and construction will begin in earnest on the buildings early in May. The site has not been selected yet, although one has been given the new company by Mr. Bedillion. It is now thought that it may possibly be built closer town and on deep water, thereby avoiding the long tedious hauling back and forth to and from the mill.

All that now remains to be done to insure the success of this undertaking, is the raising of a few hundred dollars by the citizens of the town, who have not already taken stock in the proposition, and of this we have already been assured. As the capital stock is mostly local, local help will be employed in the construction of the entire plant. A thorough mill man will be sent East as soon as possible to inspect and take up plant and place it in readiness for removal to this place. The company will incorporate at once for fifty thousand dollars. The above information has been given us by Mr. Bedillion, who has been the prime mover in this matter up to the present time.

Indian Entertainment for Sacajawea Fund.

The Woman's Study Club will give an elaborate Indian entertainment in the Masonic Hall, Friday evening, April 29th for the benefit of the Sacajawea Statue Fund.

The Study Club has undertaken to raise the money requested of Coquille by the statue association, and will do so by giving an entertainment which will be *Indian* in every detail of scenery, costumes, music and other features. The ladies have secured three genuine squaws, Mary, last of the Coquille tribe, and Mrs. Winekler and Polly of the Coos Bay tribe, to sing and dance, and the best local talent in Indian costumes will present novel and original numbers.

The quaint music is under the able direction of Mrs. E. D. Sperry, who has composed a Sacajawea Lullaby for the occasion.

Indian relics and curios will be displayed. Some fine collections from Bandon, Coquille and Marshfield have been promised. Souvenirs made by the Pottawattamie Indians will be sold, and Indian refreshments served.

All who will kindly loan curios will please notify Mrs. J. C. Snook, President of the Club.

Articles will be so exhibited as to be perfectly secure from injury.

Nothing Equal to Chamberlain's Colic Cholera and Diarrhoea Remedy for Bowel Complaints in Children.

"We have used Chamberlain's Colic, Cholera and Diarrhoe Remedy in our family for years," says Mrs. J. B Cooke, of Nederlands, Texas. "We have given it to all of our children. We have used other medecines for the same purpose, but never found anything to equal Chamberlain's. If you will use it as directed, it will always cure." For sale by C. Y. Lowe.

Why the Machine doesn't like it.

There has been some dissatisfaction expressed with the primary law this year, but it is significant that it has all come either from those who used to run the conventions and believe that government was instituted among men for the benefit of the machine, or from those who have listened to the plaintive notes of these wounded leaders. Instead of a horde of office seekers bound to this or that faction and foisted on the public to feed at the public crib and to play into the hands of a small coterie of Republicans, the primary law stimulated the search for good candidates all over the city, and the result was a primary ticket composed largely of men whom the office had sought, unpledged and indebted to no one. Most of these men have been nominated. The result is the strongest ticket the Republican party has had for years. A ticket of strong campaigners and of men who are entitled to the confidence of the taxpayers and who have it. No convention ever did so well except when stimulated by popular impotience, and that was about once in a decade.

The machine politicians don't like this primary law, but they never have. They fought it from the first and continue to sneer at it. But it must be judged by its results. Two years ago it redeemed the city council from the clutches of the street railway company, and this year it has insured another honest assembly, and has given the opportunity for a much more satisfactory board of aldermen than the present one. No special interest can manipulate the people. The people may make mistakes, but if they do they can correct them. Under the convention system they were compelled to choose whoever was offered to them, and even after his unfitness was shown, a dangerous alderman or assemblyman was often thrust down the popular throat. If he was a good party man he could do what he pleased with the interests of the public. If he "stood in" with any special interest and had access to its campaign fund, it only made him a more desirable candidate. The self constituted clique calling itself "the party" ignored both the real party and the interests of any one but themselves. The logical result of a continuance of that system would have been in St. Paul, as it has been generally, subjection to a machine, corruption and inefficiency in administration, and all the other evils of oligarchic rule masquerading as popular government.—St. Paul, Minn, Pioneer Press.
