## EDITORIAL

The average man prides himself upon his desire to act fair and to see that others have a fair show. With this thought of equity in mind give the local option bill an affirmative vote and see that all sides have an equal chance.

An unique exhibit, at St. Louis, will be a collection of eighty specimens of mosquito. Visitors to the fair can congratulate themselves, if this is the only introduction they have, while there, to that famed insect whose late note is by far the sweetest, unless it is an off year in the Mississippi basin, for mosquitoes.

Russia declined the good offices of King Edward to intervene for peace between that country and the Japanese. The Bear's destination would indicate her desire to fight to a finish, but unless she does better in the future than she has done since the war began, she will be out when Japan plays the finishing act. Russia, for a heavyweight champion, is outclassed.

The liquor dealers of Portland are after the Local Option law, and as an inducement to vote against it, they are trying to show that under prohibition population will not increase as fast as it will where liquor is permitted to be sold and used freely. In a pamphlet sent out by them, numerous states and places are named and compared during periods when the sale of liquor was prohibited and like periods when non prohibition ruled, and they make out a good showing from their point of view, in favor of alcoholic beverages. We looked through their production with considerable interest, and, strange to say, there was one very prominent omission—they had failed to compare the increase in the population of Hell under prohibition and non-prohibition, and we are certain convinced that they omitted a goal point on increase of population. But suppose that their argument is true as to the increase of population, where is the gain to the state or locality? We have never lived in a prohibition state, but in every place we have lived, we have seen persons who would have been more desirable citizens if they had let alcohol alone, and not infrequently we have seen citizens of this class, who were a detriment to the locality they lived in. Local Option is not prohibition, and under it the majority rule, but it is a measure whereby a locality that wishes to free itself from the sale of liquor can have the opportunity to do so as soon as the majority of its voters say so.

### Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe, and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation, all yield to this Perfect Pill, 25 cents at Lowe's Drug Store.

### Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass of Fremont, N. C. writes. Only 50c, at C. Y. Lowe's Drug Store.

## Strike in The Penitentiary.

It has leaked out that for some time past there has been a revolt brewing by the convicts in the penitentiary at Salem, and last Friday over forty refused to work, giving as a reason that the food-supplied was insufficient and of a very poor quality. The men were all marched to their cells and afterwards taken to the chapel where they were lined up and after an address by the warden they were given two minutes in which to decide whether they would go to work or be shot on the spot. They all concluded that they did not want a lead diet and went to work. While convicts ought to be well treated and have rights, they have no right to assert what they consider to be their rights by striking. A penitentiary is a place where the convicts should be ruled and not to rule the institution.—Plaindealer.

## A Pair of Trust Busters.

The Journal would like to bet a cookie that Willie Hearst rounds up a cabinet position in the Democratic elect a President. His apparent willingness to keep the cannons of the Democratic batteries filled with smokeless powder would entitle him to that recognition. And then, besides, he is the great trust buster, next to Roosevelt.—Capital Journal.

## A Runaway Bicycle.

Terminated with an ugly cut on the leg of J. D. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Eruptions and Piles. 25c, at C. Y. Lowe's Drug Store.

North Bend Citizen: The special school meeting was held Wednesday to vote on the question whether the district bond itself for \$10,000 to build the new school house or not. There were 34 votes cast in favor of the proposition, and therefore the bonds will be issued at once, and the new school house commenced. The State land board will take the bonds.

Albany Democrat: The Republican platform of Oregon commands "the fearless course of Attorney-General Knox towards the trusts." Wouldn't that jar a mountain! Everybody knows that Knox is merely the tool of the trusts, and even now is refusing to do anything in the merger case that will be a blow to the trusts. Knox is just about as much anti trust as J. Pierpont Morgan.

Corvallis Times Editor on the Keady shooting affair: "The lesson is this. Saloon men will sell intoxicants to minors until an indignant and united people serves notice on them to do it no more. Officers will be moderate in the treatment of offenders until public sentiment, in no uncertain tones, demands a vigorous punishment. Young boys will continue to drink, to haunt the streets at night, and to indulge in further acts of hoodlumism, until a determined people warns them to go home at a proper hour and stay there. The 'gang' will still be the 'gang,' and after a while will go on with its mischief the same as before, unless the people individually and collectively insist that it should be otherwise."

## Milwaukee, Wisconsin.

There is no section of Governor LaFollette's message which will commend itself to more general approval, than his discussion of the primary election principle. It is clear, strong and emphatic, and to many minds will appear conclusive. The governor covers every consideration, and states the case so clearly in favor of a primary election law, that sensible people will hesitate to oppose his conclusions. Governor LaFollette is right in what he states—that when the people make their own nominations independent of caucuses and conventions, and select for office the persons whom they nominate, the United States will be a more perfect republic than at any era in its past history. If Governor LaFollette can inaugurate this reform and make it work satisfactorily, he will become one of the benefactors of the nation.

## Cataract Cannot Be Cured.

With local applications, as they cannot reach the seat of the disease, Cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

## Whoooping Cough.

"In the spring of 1901 my children had whooping cough," says Mrs. D. W. Capps, of Capps, Ala. "I used Chamberlain's Cough Remedy with the most satisfactory results. I think this is the best remedy I have ever seen for whooping cough." This remedy keeps the cough loose, lessens the severity and frequency of the coughing spells, and counteracts any tendency toward pneumonia. For sale by C. Y. Lowe.

## WANTED, SPECIAL REPRESENTATIVE.

## Cure the Mother of Rheumatism.

"My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm, and after a few applications she decided it was the most wonderful pain reliever she had ever tried; in fact, she is never without it now, and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by C. Y. Lowe, Drug gist.

## For School Pupils.

Portland, Oregon, April 10, 1904. To the State Superintendent of Public Instruction, County Superintendents, and Principals of the Elementary Schools of the State of Oregon: Gentlemen and Ladies:—The John Burroughs Society of Portland, has, through the generosity of an anonymous friend, two cash prizes to award for knowledge of the native birds of Oregon. These prizes are given yearly to the classes of the highest grade in the elementary schools of the state.

The first prize is \$12.00, the second \$8.00, to be awarded to those who can name the most birds by sight and song, and who write a sufficiently excellent composition on the subject. The relative markings for the two examinations will be upon a scale of 100. 60 per cent for the field test, and 40 per cent for the composition test. That is, actual knowledge of the birds will count for more than excellence in composition.

The competition is open to the class graduating in February as well as to the class graduating in June. The compositions must be in the hands of the President of the John Burroughs Society, Room 10, Stearns Building, Portland, Oregon, not later than June 1st.

Any subject based upon personal observation of our native birds will be acceptable. One particular bird may be selected for study; or some such subject as the following may be chosen: "Nests of Oregon Birds," "Feeding Habits of our Native Birds," "Bird, Friends of the Farmer," etc. In all observations time and place should be carefully recorded.

The field examinations will be given the last week in May and the first week in June. All who send compositions will be considered as applicants for a field examination, and the address of each writer should be enclosed with the composition.

All persons who kill birds, or collect eggs or nests, even for the purpose of study, are excluded from the competition.

Very truly yours,  
GERTRUDE METCALFE, President.

## Routed a Cougar.

Cottage Grove, Or., May 5.—With no other weapon more deadly than a No. 10 shot, backed up by a sturdy leg, J. E. Danewood, who owns a farm 17 miles from here, attacked and defeated a hungry cougar, which was in the act of leaping on his 9-year-old son. Danewood's two boys were on their way to school when the cougar sneaked close to the trail and prepared to spring. Danewood saw the beast and kicked it until it fled. Returning to his home, the brave father got gun and dogs, tracked the animal to a tree and killed it.

## Milwaukee (Wis.) Free Press.

Guy Holmes, who has just returned from Mississippi, says of the primary election law in force in that state: "The people think everything of the law, and wouldn't give it up for anything. They say it absolutely does away with the 'ring business.' They are now having a fight over the gubernatorial nominations, and there are four candidates for the office. The four men are out among the people looking for their suffrages, and the question who shall stand for the high office is thus brought right down to the people themselves. It is working wonderfully well in Mississippi."

Mr. Holmes is not a politician and pays little attention to political matters, but his observation in the southern state which he has just visited, is worthy of note. Mississippi has a primary law for the nomination of all candidates for office. It includes not only city and county officers, but all from the governor down.

MRS. CECELIA STOWE,  
Orator, Entre Nous Club.

170 Warren Avenue,  
Chicago, Ill., Oct. 22, 1902.  
"For nearly four years I suffered from ovarian troubles. The doctor insisted on an operation as the only way to get well. I, however, strongly objected to an operation. My husband felt disheartened as well as I, for home with a sick woman is a disconsolate place at best. A friendly druggist advised me to get a bottle of Wine of Cardui for me to try, and he did so. I began to improve in a few days and my recovery was very rapid. Within eighteen weeks I was another being."

## Cecelia Stowe

Mrs. Stowe's letter shows every woman how a home is saddened by female weakness and how completely Wine of Cardui cures that sickness and brings health and happiness again. Do not go on suffering. Go to your druggist today and secure a \$1.00 bottle of Wine of Cardui.
