Let Mr. Coke Tell Why

All that the republican or anyone else has been able to urge in favor of Mr. Coke's election is the fact that the election of Mr. Sherwood would make the legislative assembly of the State of Oregon democratic, and, consequently, the election of a democratic U. S. Senator to succeed Mr. Mitchell.

How far do the facts and figures prove their statements? The last legislative assembly consisted of 90 members, which is the limit under the constitution of the State. The senate has 30 members, the house 60.

In the senate were: Republicans 21, Democrats 3, Citizens 3, Union 1, Citizens and Peoples 1, Democrat and Peoples 1.

Total 30. In the house were: Republicans 48, Democrats 11, Citizens 1.

Total 60. Total Republicans 69, Total of all others combined 21, Republican Majority 48.

Aside from the election of a U. S. Senator the business of the State Legislature is entirely non-political. It is the business body of the state. It passes laws for the government of the people and spends the people's money. Then who in this capacity and in this Senatorial District can be more safely trusted than Mr. Sherwood, who, as a lawyer has no superior; who, as a business man has made a success, and whose character and steadfastness are unquestioned.

Further, what assurance have the voters of Coos and Curry counties that Mr. Coke, would vote for a republican for U. S. Senator? According to the best data obtainable he was a "fled in the wool" democrat until about three years ago, and in his own language, claims to have "gone out on the money question." Let us examine the facts on this question.

1. He was a delegate to, and sat in the democratic convention which met in 1893.

2. The democratic state convention of that year declared in favor of the "free and unlimited coinage of silver in the ratio of 16 to 1," and Mr. Coke "staid in," and did all in his power to elect his friend J. W. Bennett, who ran for Representative that year on the democratic ticket against Alex Stauff on the republican ticket and Thomas Backman on the people's party ticket.

3. The democratic national convention, which met in Chicago in July, 1893, made the same declaration on "the money question," and Mr. Coke "staid in."

4. In 1893 Mr. Coke attended, as a delegate, the democratic county convention which met to elect delegates to the state convention. He was "still in."

5. In 1893 Mr. Coke attended, as a delegate, the democratic state convention, which met in Portland in April that year, and "staid in."

6. In 1893 Mr. Coke attended the democratic county convention which met that year to nominate candidates for the county offices. The money question was the same and Mr. Coke "staid in."

7. He attended, as a delegate, the democratic county convention which met in the spring of 1900 to nominate county officers and elect delegates to the state convention, which assumed the same position on the money question and Mr. Coke "staid in."

8. The national democratic convention met in Kansas City in July, 1900, and reaffirmed the "money plank" of the 1896 Chicago convention and Mr. Coke still "staid in."

Now we want Mr. Coke to explain to the voters of Coos and Curry counties what position the democratic party has assumed on the "money question" since the Kansas City platform of 1900 that has become distasteful to him.

If there has been no change of the democratic party on the "money question" since 1900, or if the democratic party has taken any other means to express itself on the "money question" than by its national platform, please explain it to the voters of Coos and Curry counties. If you are unable to explain in the manner above requested, please explain on what phase of the "money question" you "went out."—Coquille Bulletin.

An Open Letter. From the Chapin, S. C. News: Early in the spring my wife and I were taken with diarrhoea, and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand, gave each of us a dose, and we at once felt the effects. I procured a bottle, and before using the entire contents we were entirely cured. It is a wonderful remedy, and should be found in every household. H. C. Bailey, Editor. This remedy is for sale by C. Y. Lowe, Druggist.

Public School Closed.

The Public School closed here last Friday with an entertainment in the evening, in which many of the pupils took part, and which reflected honor upon the part of teachers and scholars alike, on one side for the painstaking care that had been exercised as instructors, and on the other by the diligence that has been given by the pupils.

The exercises were enjoyed by a well filled house, some of whom have been residents in Bandon since the district was first set off. We remember that in 1886, those living in Bandon who wished to enjoy school privileges, had to walk almost three miles to where the little school building stood in the woods, a half-mile south of Rosa's mill, this district then being united to the Two-mile district.

Now, a change has taken place, and four teachers are required here to look after the training of the school, and Bandon has built up an institution that is a credit to the energy and liberality of her citizens, and the youths of the town are reaping the benefit in the training and preparation they get, fitting them for the duties of life.

The term just closed has been a successful one, and the exhibit Thursday showed care and skill on the part of the pupils who did the work.

OREGON.

Like as a gambler regards the felony bill, so does the party boss look upon the direct primary. The movement looking to this new method of nomination, through the initiative, need expect no support or countenance from either of the political outfits in the city of Portland which look upon the Republican party of the state as an institution devised and maintained for their own behoof and emolument.

It is up to the people. They, and they alone, without consultation with political "leaders," but acting on their own instances, and undeterred either by hope of reward or fear of punishment, must carry this reform through. They must sign the petition. They must come out in June and declare for the direct primary. Then it will be carried, and placed beyond the power of committees to nullify or pervert. It matters not what professions may be made. The machine prefers to select its own nominees.—Portland Oregonian.
