Mr. Lee was to have delivered the Memorial Oration here on Monday but was prevented on account of his wife's condition. He has the sympathy of a large acquaintance.

THAT BUICK—Did not come to hand, but another did, not a gold brick, but of a class and quality that will bring gold to the manufacturer. It is well pressed, well burned, and of a superior quality of clay, and is altogether a fine article. Persons who intend using brick should examine the Arago product before purchasing elsewhere. J. Henry Schroder is the manufacturer.

BROKEN JAWBONE—Fred Gross had the misfortune to get his lower jawbone broken last Sunday while playing baseball on the Bandon diamond. A game was on between the Bandon boys and a nine from Two Mile. Fred was making a run from first to second base and the ball was thrown to the second baseman to lead Fred off but the baseman failed to stop it and it struck Fred on the left side of the lower jaw fracturing the bone on the opposite side near the chin. He is around and getting along as well as possible under the circumstances. The Bandon boys won the game.

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the Kidneys and Bowels, stimulate the Liver, and purify the blood. Run down systems benefit particularly, and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50 cents, and that is returned if it don't give perfect satisfaction. Guaranteed by C. Y. Lowe, Druggist.

Struck a Rock.

In towing the schooner Advance down from Parkersburg last Thursday the vessel took a shower and struck a rock in the river, off Rocky Point, causing her to leak considerably.

During Friday and Saturday through the effort of Bert Patterson, who donned a divers suit, the leak was mended to an extent sufficient to warrant a continuance of her voyage to San Francisco.

Socialist Speaking.

J. M. Hughes will discuss the Points of the Day from the socialistic standpoint on Saturday Evening, June 4th, in King's Opera Hall.

The public is cordially invited to attend, both ladies and gentlemen.

The person who investigates only one side of a question, is ill informed, and the one who will only listen to that which agrees with what he believes is narrow minded; so, in order to be a free and independent person, hear all sides, determine that which is right, and then choose.

Recreation Day.

Recreation Day has come and gone, but it has thrown the graves of the dead with flowers and left its memories.

The custom of observing Memorial Day has become fixed, as to this place, it having been observed each succeeding year since 1890, that being the introduction of the service here.

On Monday the procession marched to the cemetery, where the rites of the Ladies' Relief Corps and the G. A. R. services were carried out and the graves of the dead were remembered with garlands brought for the occasion.

The afternoon service was marred by the non-arrival of Mr. R. C. Lee, who was to have delivered the oration, but who was prevented by the fatal illness of his wife, who died the following morning. This part of the service was bridged over by F. M. Sanderlin, who delivered the oration. The rest of the service was carried out according to the program.

A Costly Mistake.

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for Dyspepsia, Dizziness, Headache, Liver or Bowel troubles. They are gentle yet thorough. 25c at C. Y. Lowe's Drug Store.

Chamberlain's Stomach and Liver Tablets Better than a Doctor's Prescription.

Mr. J. W. Turner, of Truhart, Va., says that Chamberlain's Stomach and Liver Tablets have done him more good than anything he could get from the doctor. If any physician in this country was able to compound a medicine that would produce such gratifying results in cases of stomach troubles, biliousness or constipation, his whole time would be used in preparing this one medicine. For sale by C. Y. Lowe, Druggist.

Those Political Mallices.

Bandon was to have some political excitement this week but so far it has been but a tame affair, disappointment having been the main feature.

The Democrats were going to rally on Monday evening, but sickness intervened and R. C. Lee and his associates were detained and the rally failed to materialize.

The Republicans advertised for Tuesday, and disappointment overtook this rally in that the principal speaker failed to appear, and a political rally without a speaker is like making a feast and leaving out the things prepared to eat. Now the Republicans were not quite without speakers, but they were caught up without preparation, and labored under disadvantages.

Hon. Geo. P. Topping presided and after outlining the object of the meeting, introduced W. C. Chase who made a short talk, and in turn introduced J. S. Coke, who spoke for a few minutes, and after a selection by the Band which was in attendance, was succeeded by Hon. W. Sinclair, who proceeded to set forth the principles and claims of the party.

Thrown From a Wagon.

Mr. George K. Babcock was thrown from his wagon and severely bruised. He applied Chamberlain's Pain Balm freely, and says it is the best liniment he ever used. Mr. Babcock is a well-known citizen of North Plain, Conn. There is nothing equal to Pain Balm for sprains and bruises. It will effect a cure in one-third the time required by any other treatment. For sale by C. Y. Lowe, Druggist.

Town Board Proceedings.

The Town Board met Tuesday evening, Recorder Morse, Marshall Hoover, and Trustees J. W. Felter, A. G. Hoyt and M. Bremer being present. E. A. Mohr was absent, and Dr. A. W. King having moved away, the Board was one short of the full complement of trustees.

Organization was completed by selecting A. G. Hoyt as Chairman, and bills were allowed as follows:

A G Long, horse cart and freight.....	\$170 00
C S McCulloch, surveying.....	2 50
Bandon Recorder pub, and printing.....	5 00
Bandon Light & Water Co, water.....	27 00
Feed.....	15 00
A McNeil, merchandise.....	62 65
J W Fetter, constructing sewer.....	29 45
R H Ross, lumber.....	37 00
J Hoover, Marshall.....	2 00
J D Lowe, Judge of election.....	2 00
Y M Lowe, do.....	2 00
S D Harrows, do.....	2 00
O J Daily, Clerk of election.....	2 00
Frank Pettit, do.....	2 00
J W Fetter, conveying election returns.....	3 00
A D Morse, conveying election returns.....	11 00

A motion was then made and carried to draw an ordinance to license public dances, this being thought necessary in order that such institutions bear the burden imposed upon the town because of the extra police protection necessary on such occasions, as the night watchman could not successfully look after the interests of the town and do the extra watching necessary to protection upon such occasions.

The Board then adjourned to meet June 13, at 1 P. M.

To Water Renters.

Notice is hereby given to all persons to whom water is supplied by the Bandon Light & Water Co., that all water rents from and after this date must be paid in advance.

After the 1st day of each month the obligation will be considered delinquent, and the water will be shut off.

Payment can be made to C. Y. Lowe, at his drug store.

BANDON LIGHT & WATER CO.

Sued By His Doctor.

"A doctor here has sued me for \$12.50, which I claimed was excessive, for a case of cholera morbus," says R. White, of Coschella, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used, as I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus. It never fails. Sold by C. Y. Lowe, Druggist.

Postponed Indefinitely

Through press of work it has become necessary to postpone the Band Concert indefinitely, and we are commissioned to say that the Concert advertised to take place at Bandon Saturday evening, June 4th will not take place at that time.

Look Out FOR July 4 AT BANDON.

WATCH FOR WHAT COMES AFTER

Christmas Home.

EDITOR RECORDER: On Sunday May 21st, the writer, in company with William Bizer, an old California and Arizona miner, went over to South Sixes to see what was being done in the way of mining prospecting, etc.

From S. H. Whitney, the foreman of the Commander Mining and Milling Co., I learned that himself and two men were busy framing timbers for a saw mill the company will erect for the purpose of sawing lumber for a large dam the company contemplates building this summer, for the purpose of carrying the waters of Sixes to mine an ancient river channel that is estimated will pay one dollar and fifty cents per yard the entire length of the claim, one mile. The dam and ditch will be a little over one mile in length. In order to turn the water of Sixes into the ditch and dam, the company will have to erect a dam sixty feet high; this, they claim, will give them a pressure of one hundred and fifty feet at the lower end of their claims, which will enable them, with the two large Giants they propose putting on the claims, to move a tremendous amount of gravel every twenty-four hours. At the lower end of the Commander Mining Company's claim, B. J. Harrison and sons, Bob and Ben, have located an extensive claim on the same old river channel, and will use a portion of the Commander Mining Company's water to work their claim. It is reported that their claims will pay fully as well as the claims adjoining theirs. Just below the Harrison's claim, Joe Fox and son are preparing to mine the present river channel as soon as the water is low enough.

Mr. Allen, the gentleman who purchased the Tichenor tract of land, has two men building an addition to the cabin C. W. Zinnwald and Holmes built when they were prospecting for coal. Mr. Allen is expected daily to arrive from New York City. It is rumored that as soon as the roads become passable, he will bring in a diamond drill and prospect for coal. Another rumor has it will put on a force of men to blast out the large boulders and rock jams in the North Fork of Sixes river, from just below Avery's dam down to below Dr. Elgin's; the object is to clear out the channel in order to float saw logs down the river.

The above is a mere rumor and I do not vouch for the facts.

In a week or ten days there will be plenty of ripe salmon berries up here, and if the Recorder Editor will bring up a good supply of rich cream, the writer will furnish the berries and sugar.
