Rev. Daniel Elliott and wife, of Iowa, arrived here on the last trip of the Chico and are stopping with Mrs. Emma J. Erickson. They left Iowa about two months ago and visited California, coming here from Los Angeles. They express themselves as well pleased with Bandon, having improved in health very much during their short stay among us. Rev. Elliott has been in the Presbyterian Ministry for the last thirty years.

This office received a very pleasant call, Tuesday, from the owner of the Myrtle Creek ranch, which is situated within 100 miles of Bandon. No one would think that ranch life was dull if they could have heard the owner of Myrtle Creek talk about being kept awake nights, watching from a window for hours, for something—they couldn't tell exactly what—and at last, in desperation, opening the door at two o'clock in the morning, and shooting a bear. At least, the supposition is that the bear was shot, as men with dogs hunted the next day and could find no trace of the bear, so concluded he had crawled off somewhere to die. We were also told of candy pulling parties, and neighbors coming in for a friendly chat just at dinner time. We couldn't describe life on the Myrtle Creek ranch in the realistic manner that the owner can, and so would advise our readers if they enjoy a good bear story, to call at the Myrtle Creek ranch and interview the owner, or, better still, try and get an invitation to the camping party that goes there in a few days.

**Ensignment week.**

In men, whom men condemn as ilk I find so much of goodness still. In men, whom men pronounce divine, I find so much of sin and blot. I hesitate to draw a line between the two, Where God has not.

**State Fair.**

The 44th Annual State Fair will be given by the Board of Agriculture at Salem, beginning on Monday the 12th of September, and continuing through the week.

Several Counties are getting up representative exhibits of their products showing up their resources, and it will thus be a splendid opportunity for them to advertise, for a large emigration is looked for, and the country is already filling up with a desirable class of emigrants, and they are coming West to locate and will make good citizens, and even if only two or three settle in the county because of the showing the County Exhibit has made, the county as a whole is far ahead. In cases of this nature it is not the actual cost of the exhibit that must be taken into consideration but the value the exhibit has as a standing advertisement, so to speak, of what that particular county is good for.

The live stock show will be fully up to the standard of excellence that has been given in the past and special inducements have been made by the Southern Pacific Railway Company in transporting exhibits, including live stock, free, and too much credit cannot be given the Company for their liberality in that particular.

Stock breeding is only in its infancy in Oregon and should be encouraged, for it is the coming industry in this state, and it requires no more labor or feed to raise a thoroughbred than a scrub. Don't fail to make arrangements to spend a part of the week, at least, in Salem, or if you can do so go and camp, they have a fine camping ground full of oak groves and plenty of good water piped right into the grounds.
