Any one needing work done in car pentering, brick masonry, plastering, cementing, concrete work, painting and paper hanging, will do well to call on J. N. Luke, Bandon.

When you are calling, call on Cox, the groceryman. He will be tickled to receive you, and his provisions groceries and fruit, are always palatable, and his flour, hams and bacon are of the best.

In reporting the heavy catch of fish last week, we made the mistake of substituting Saturday night for Sunday night, and failed to notice the error. There was a heavy catch again Sunday night and Monday, the cannery here receiving over 2000 fish.

The play "A Girl's Secret," was very ably presented Saturday evening, by Bandon talent, in Long's Hall, to a well filled house, and was a success also from a financial standpoint. Over $47 was taken in as a result of the play and the sale of candies.

The run of salmon has been large this season in the Coquille, and the prices paid are better than for years past. The cannery here and at Prosper have been kept busy, and the cannery at Empire City has received a large patronage. We learn that the Empire City Cannery quit taking fish from the Coquille yesterday.

Tribune: Hon. Robert Moore, who was Judge of Curry County more than a third of a century ago, lies in a critical condition at his home in Smith River, with but small chances of recovery. He is 88 years of age, yet his mind is bright and clear when speaking of incidents of the long, long ago. A man of big heart and high principles, he commands the respect of all who ever knew him.

Last week the RECORDER office was the recipient of three potatoes, sent in by D. H. Prewett, of Bear Creek, which weighed six pounds and two ounces, the largest being two and a half pounds in weight. The variety is the New York State, we believe, and for large potatoes are remarkably smooth. Coos County is hard to beat in raising potatoes, not only large ones, but those of excellent quality.

The steamer Dispacth had a couple of planks fractured and a timber injured yesterday in coming down the river and had to be beached at Hansen's seining ground above Prosper. The steamer struck a floating log coming down, but it is not certain whether the injury was made then or in making a landing afterwards, as the leak was not discovered until considerable water had entered the hull. She was floated last night and will soon be in running order again.

Man Disappears at Elk River.

Last Sunday forenoon, Eli Bagley disappeared from his home on Elk River, and up to the time of going to press, his whereabouts are shrouded in the deepest mystery. As near as we can learn the particulars are as follows:

Shortly after the morning meal Mr. Bagley took his fishing pole and starting down to the river remarked that he was going to try to catch some fish, and that he would be back in time for dinner; after going a short ways he came on to Will Johnson who had just killed a deer on the river bar, and joked with him about the smallness of his game, apparently in the best of humor, and repeated that he would fish a short time, and return by 12 o'clock; but for some reason yet to be found out, he has not been seen or heard from since, though a most diligent search has been instigated. Yesterday fully thirty men scoured the woods in every direction, and examined the river as closely as possible, but without results. The recent rains have raised the river some 2½ feet, and the muddy water makes it difficult to thoroughly search the deep holes. At first the general opinion prevailed that he was drowned but now the belief seems to be growing that he met with foul play. Mr. Bagley has long resided in this community, and was an energetic and respected citizen. He leaves four small children.—Tribune.

Prentis Will Stop.

A. B Prentis, the dentist from Marshfield, has gone to Port Orford, and will remain in Curry County about one month. When he returns he will stop four days in Bandon to do any work that needs attention. Notice of his return will be given.

Shingling a specialty.

C. W. DYGERT, Bandon, Ore.

FOR SALE.—A lot on Horse Shoe Bay, near the Lookout. Small house and barn on lot. For particulars enquire of J. B. Marshall, Bandon, or E. M. Moore, Roseburg, Oregon.

William Jenkins, of Myrtle Point, is here visiting his daughter, Mrs. Fred Gross.

Joseph McKnight, of Myrtle Point, will ship a lot of cattle on the steamer Chico, this trip.

J. J. Stanley, of Coquille City, has been admitted to the bar, and is now numbered with the lawyers of Coos County.

Mrs. R. Johnson, of this place, gave friends in Marshfield and at Coquille a visit last week, returning home Tuesday evening.

Mrs. A. J. Mayes, of Dora, passed through Bandon last Thursday evening on her way to visit her sister, Mrs. Amos Hatcher and family of Two-Mile.

Isham Cox, of Northern Curry arrived here Tuesday evening on his way home from Springfield, Oregon, where he has spent most of the summer. He left Curry last June.

Elbert Dyer and S. D Barrows had the good fortune to kill two bears one day last week while out hunting. Mr. Barrows made the discovery of a bear and its cubs, the mother bear being conspicuous in its pursuit of dining on huckleberries. Mr. Barrows pitched into the bear like a Jap hunting Russians, and with Elbert executing a flank movement, her bearship was soon done up, and likewise one of her cubs. Messrs Dyer and Barrows think there was another cub in the fray, but that it got away, and that it packed some of their ammunition off with it.

Work Keeps Moving On

The Frame of the Bandon Woolen Mill is being Raised Now.

Work still goes rapidly forward on the Woolen Mill building, and it is beginning to show up in greater degree as the work advances, and it will not be long now until the building will be in frame, providing favorable weather continues.

Tuesday saw the frame work begin to rise, and it has been steadily progressing since that time and shows up to better advantage than it did when lying in piles upon the wharf. The main structure will be 104 feet in length, and 66 feet in width; it will be two stories high and have an attic above. The L part will be 60x60 feet, and two stories high.

If weather conditions are favorable it is proposed to have the entire structure under cover by the latter part of November, and to have part of the machinery running by the latter part of January next, the whole mill in working order by the first of March.

It will not be many days hence until the machinery will begin to arrive as it has been some twelve days now since it started from Rochester, Minn. It was shipped by way of Seattle to San Francisco, and will be shipped from thence here on the steamer Chico, her owners having agreed to transport it, from San Francisco to Bandon, free of charge, besides taking a thousand dollars in stock in the mill.

By the time the Chico goes to San Francisco and then makes another trip, the freight should be there so that the second time she returns here, she should have part of the machinery aboard.

When the mill is completed, Bandon will have one of the finest mills on the Pacific coast, and she will have cause for an honest pride in the thought that she had men of nerve and energy and business capacity sufficient to bring about this industry.

P. S. The sporting editor was on hand when the first corner was raised, and avows that he placed a twenty under the corner, and that it is there to stay.

Frosty is the sporting editor, he spouts abundantly, never edits, but is always on hand, and was in his element on this occasion, and with the help of Geo. P., as master of ceremonies, avers that the proper thing was done, and that we should, at least, have a column article on the topic. We have made strenuous effort to get the ceremonial part, but all we can learn from our friend Frosty, is that the ceremony was appropriate, and we take his word for it, as the sun never shines hot enough to melt down his statements. They are adamantine when they issue forth.

A Question of Tacks.

Any reader of this paper, sending 25 cents in silver, by postal note or in one and two cent stamps, will be sent *The Daily Journal* one month; or *The Sunday Journal* two months; or the *Semi Weekly Journal* three months; or the *Weekly Journal* four months; and in addition, a match safe filled with tacks, postage prepaid. Address *The Journal*, Portland, Oregon.

Operation on a Child.

An operation was performed by Dr. Horsfall this week on Mr. and Mrs. John Messerle's daughter Rosa, for the removal of a piece of glass from one of her limbs. The piece was about a quarter of an inch square and had been buried in the flesh since about July fourth, when the child fell on some broken glass while playing with her companions. A piece entered at the knee joint, and when removed had worked up about four inches. The little patient is now doing nicely. —Coast Mail.

Tell Us Why.

To the Editor of the RECORDER.

Dear Sir:

As a resident of Coos County, and a man with the good of the County at heart, I write to warn you and your readers concerning the Local Option law to be voted on in November.

First. The county will be ruined if it goes dry. This has not been the result in Texas, Maine, Tennessee, or any other place where it was ever tried, but it will be so in Coos Co.

Second. Country voters will not vote for the bill. Why should they? Give us one reason, Mr. Editor, why they should. The temperance—I mean prohibition—cranks, say the country voter will vote "dry" because he has to pay the heavy taxes caused by crime coming from drink and gets no returns from licenses; but, Mr. Editor, if the country voter votes "dry" where will the country voter's boy get a drink when he comes to town to trade? Tell me!!

Third. Mr. Editor, who are the people that got this law on our statute books? Preachers, and teachers, and mothers, and—well I don't know who all, but let us go to number

Four. Who fought this bill, Mr. Editor? Patriots, Mr. Editor, patriots. Patriots headed by Mr. Henry Weinhard, the big brewer of Portland, and helped by every saloon keeper in the state, these are the patriotic men that fought it. And with this unselfish, highminded, devoted people, who, for the sake of the state and their licenses, raised, in vain, a big sack to kill the bill, with these, Mr. Editor, many a voter in Coos, grand old Coos, will vote.

Watchfully,
PATRIOT.

Lewis and Clark Centennial Exposition.

The Lewis and Clark Centennial Exposition Company offers for sale at the price of two dollars ($2.00) each, *25,000 Souvenir Gold Dollars*. To each purchaser of five coins will be given one coin free of charge, making six six for ten dolls. These coins are issued by the Secretary of the Treasury, under authority of an act of Congress, approved by President Roosevelt, April 13, 1904. The issue is limited to 250,000.

These coins are singularly interesting from the fact that they have two heads or obverses. On one side is the head of Captain William Clark and the words "United States of America" and "One Dollar." On the other side appear the head of Captain Meriweather Lewis and the words "Lewis-Clark Exposition, Portland, Ore." and the date "1904." The coin has neither wreath nor stars.

Some estimate of the value of this small issue of souvenir legal tender gold dollar may be made from the present value of the ordinary United States gold dollar, of which there were coined 19,499,337 between the years 1849 and 1890. These now sell for two dollars each.

No coins of this issue will be placed upon sale at a lower figure than is quoted in this circular All coins are sent to purchasers by registered mail at the expense of the Exposition Company. Yours respectfully,

I. N. FLEISCHNER, Chairman.
HENRY E. REED, Secretary.
