BANDON RECORDER.

WHEN STAMPS WERE NEW Trouble In Getting People to Stick

Them on the Envelope. "When postage stamps first came into use," said a veteran postal cierk. "the public didn't know how to handle them. You remember how, when tea and coffee first appeared among us, the people fried the tes leaves and the cofand pepper? Well, the people treated their stamps as absuably in 1874.

"Some folks would put the stamps inside their letters, out of sight. Here is the official notice that we issued to stop that practice."

aged bulletin that said;

He put back this bulletin and drew forth another one.

"People would pin the stamps on their letters instead of gamming them." second bulletin," and he read:

"Persons posting letters should affix the requisite number of strains previous to depositing them in the letter receivers, as when posted in a damp state the stamps are liable to rub off and thereby cause the letters to be

didn't understand. Think of it-it for a good meal. This is one of the to aid them to find something to do or didn't understand the simple matter of sticking a postage stamp on a letter. So we got out a third bulletin."

The third bulletin, in hig, impatient letters, said:

"The simplest and most effectual. method of causing stamps to adhere crowded with many summer tourists It was the last blow. Here they have firmly is first to moisten well the out and others who were just going for a good home for the balance of the time her, and a lady came forward to sing. side of the statups and afterward the gummed side slightly, taking care not to remove the gum,"

The clerk said that a philatelist had offered him \$12 apiece for these three queer bulletins - Galvestea Tribune.

COTTON SPINNING.

The father of the famous Sir Robert Peel was a cotton soluner in a comparatively small way until he sudden ly went straight also d of all his conpetitors. The earliest cotton splinning machinery gave serious trouble through filaments of cotton adhering to the bobbins, thus involving frequent one man in the works always drew full pay. His loom never stopped.

Cast your bread upon the waters, and you will realize how many people are out for the dough.

A CASE OF LUCK.

How the Lack of a Nickel Won a Good Paying Position.

Little Mrs. Tyler sighed as the trol ey car whizzed past her. "To think," she mused, "that I should have come to this too poor to spend 5 cents for car fare! If I could only get more music scholars! Then Bob could have the beefsteak and the fruit he needs—dear, patient Robert!"

Time was when Frederica Fechner's piano playing had won her many a social triumph, but that was before she had married the penniless Robert Tyler, to begin life anew across the con-

Today Mrs. Tyler was very tired. No wonder she had sighed when the car had glided past her, and home was a mile away. Strains of Handel's "Harmonlous Blacksmith" drew her inside Mrs. Tyler strolled their way.

One after another took a turn at the instrument. The newcomer was too interested in the playing to question wherefore. Finally a man approached

"It is your turn next," he said. She was about to explain his mistake when the humor of the situation Paderewski's "Love Song." She did but she vaguely felt that it was a test of some sort, and she threw her soul into her fingers. When she ended there was a little burst of applause, and "something else" was called for. She

A Hospital Town.

United States Consul Guenther of Frankfort writes that when the new discussing, in a political address, awk- hospital in Vienna is completed it will form a town of itself.

The total area covered is 2,400,000 square feet, and there will be forty separate buildings, of which thirty-two will be clinics or hospitals and the remaining eight will be devoted to offices alcohol from peat. and residences for the staff. All the dens, so that patients, particularly con- with telescopic eyes. sumptives, can be in the open air as much as possible. Each patient will have 1,030 square feet of space, the largest proportion of space allotted to a patient in any hospital in the world. A correspondent of the Frankfurter lowed up by the river, Zeitung says that the ultimate cost

will be from \$7,000,000 to \$8,000,000. The hospital will be on the "pavilion" or "cottage" plan. Each pavilion, with its sick wards, operating and lecture rooms, will form a hospital by itself, and of these there will be eightcen. The hospital will have 2,300 beds. The magnificent operating rooms will be of a new type. In the clinics for infectious diseases the patient will be separated from the professor and the students by a glass partition.

A number of medical students will live in the hospital for the purpose of case study and observation. The latest technicai achievements will be utilzed throughout the institution.

Solomon Berliner, consul at Tenerife, Canary Islands, says: "I believe nowhere in the world is land held at as high figures as here. Good land, with per acre." A collection of 33,000 volumes on eco-

nomics and finance, valued at \$100,000

and considered the most complete in the world, gathered in Europe by Clemspirit. The spot is kept so sacred by ent W. Andrews, has been received in Chicago for the Crerar library. One of the popular errors concerning the swift is the belief that it is a swallow, and it is called the chimney swallow by nine-tenths of the people. As a matter of fact, it is not even closely

related to the swallows, being much

more nearly akin to the humming birds and the goatsuckers. As an evidence of the interest and earnestness of the Japanese people it is customary among the tradespeople whenever a family that they have been supplying with the necessaries of life is deprived of the father of the family in consequence of his going to the war to continue to supply all their needs the same as before and without sending

any bill therefor. Consular Agent Yensen at Bilbao, Spain, reports that a very important factor in the exportation there is that of wine, which was represented in 1903 by 2,576,702 gallons, mostly exported to France, where it is conveniently elaborated and mixed with poorer and pale colored classes. After such manipulation it is re-exported to all countries, including even Spain, as

"Bordeaux." In 1642 a party of English adventur ers direct from New England attempt ed to settle at Oyster Bay and actually purchased the land from the Indians, but the Dutch drove them out. Eventually a compromise was made, and the Dutch and English divided Long Island between them. The first permanent settlement on the site of the present village of Oyster Bay was then

made in 1653. J. E. Manix is thirty-eight years old and a native of Northampton, Conn. At fourteen he swept the floor of a small retail store in that town and made himself generally useful at \$2 a week. Up to about ten years ago he was a clerk of the Edward Malley company of New Haven. Today he is president of a company that represents forty-two large retail stores which do

There are beetles in England (of the was reported to the bishop, who of | Uncle Sam. He's jully well liked here, family known to scientists as telephoride that are popularly called soldiers and sailors, the red species being called by the former name and the tles are among the most quarrelsome custom among English boys to catch

The cost of the acquisition of vast territory by the United States is given 500,000; California and New Mexico. ka, \$7,250,000; Philippine Islands, \$20. 000,000; Panama canal, \$40,000,000; \$140,750,000. In addition the United States when it annexed Hawaii as-

sumed a debt of \$4,000,000. English historic oaks are with every great storm diminishing in number. years old, disappeared from this cause in 1703. Wallace's oak, at Ellerslie. was 700 years old when it was blown down some fifty years ago. They still have, however, the Cowthorpe oak. near Wetherby, in Yorkshire, estimated to be over 1,600 years old, and William the Conqueror's oak, in Windsor Great park, has attained the ripe age of 1,200

Overdone. Jasper-I often wonder why Jenkins is not more popular, for he is the most polite man I know. Jumpuppe-That is just the trouble. He is so confoundedly polite he leaves the impression

that he wants to borrow money .- Town
