EDITORIAL.

It is too late to throw out the Life Line, and Life Preservers are of no avail. New York's flood has swept over Parker, and his star has set. Perhaps now he wishes it were Hearst.

Telegram: Thibet is now asked by Great Britian to pay seventeen million dollars. Thibet may not understand how it ran up such an account, but one thing is sure, it must be paid. John Bull is a good collector.

The Tribune: The ditch and flumes of the Big Jewel mine on Sixes are all complete, and everything is now awaiting the smiles of Jupiter Pluvius—when the hose will be stretched, and the big giants will begin their battles. We wish the plucky company big returns and have faith in their success.

The Youth's Companion in 1905.

It is impossible even to summarize in a single paragraph the many and varied attractions which THE YOUTH'S COMPANION announces for the coming year.

A series of articles planned to interest especially the forty five millions of Americans who look directly to the soil for their subsistence will treat of "New Fields for Young Farmers," "The Sanitation of the Farm," "The Future of American Cotton," "How Women Make Money on the Farm," etc.

Seven serial stories and 250 short stories by the most talented and popular American writers of fiction will form part of the contents of the new volume for 1905.

Full Illustrated Announcement describing the principal features of THE COMPANION'S new volume for 1905 will be sent with sample copies of the paper to any address free.

The new subscriber who sends $1.75 now for a year's subscription to THE COMPANION receives free all the issues of THE COMPANION for the remaining weeks of 1904, also THE COMPANION'S "Carnations" Calendar for 1905, lithographed in twelve colors and gold.

Short Courses in Agriculture and Dairying.

Immediately following the winter holidays, the Oregon Agricultural College, at Corvallis, will give free of charge two popular short courses of instruction—one in agriculture, the other in dairying. These courses consist chiefly of lectures by specialists from the Faculty and from abroad, combined with work in the laboratories, where students have access to the apparatus of the College and Experiment Station. The lectures are designed for busy men and women who desire to advance with this progressive age, but cannot avail themselves of the full-four year course of instruction; hence the courses of lectures will come at the most convenient season of the year for combining pleasure and recreation with profitable study. Those familiar with the short course system of lectures speak of it as a rare opportunity for practical men and women to familiarize themselves with the more salient points touching their business, and to gather such general information as will enable them to live that higher industrial life possible to every farmer and housekeeper.

The instruction, which is simple, is adapted to the literary attainments of all; hence, no educational test is required for admission to either of the courses. The schedule of lectures will be announced in due time.

The course in agriculture will begin January 9th, and continue ten days. Some of the subjects to be discussed are Horticulture, Plant Breeding, Bacteriology, Chemical Elements, How Plants Work, Budding of Plants based upon Plant Culture, Hints on Farming, How to Conserve the Fertility of the Soil, Drainage, Soil Moisture, Rose Culture, Veterinary Surgery, Rotation of Crops, Roadmaking, Fertilization, and How to Make the Old Farm Pay.

The course in dairying will commence January 21st, and continue six weeks. Students will meet for work six days of the week. The mornings will be devoted to practical work in dairy rooms, two days will be devoted to butter making, two days to cheese making, and two days will be spent in the dairy laboratories. In the afternoon of the days except those devoted to cheese making, lectures and recitations will occupy two or three hours. The lectures will treat of Soil Chemistry and Physics, Feed and Feeding, Dairying, Bacteriology, Breeds and Breeding, and Chemistry of Dairy Products.

There will be no fees except the breakage deposit of three dollars. This deposit is intended to cover breakage of glass-ware in the laboratory, and the actual cost of material used; hence a part of this fee will be returned in case of no breakage. Books will cost about three dollars. Rooms with board and lodging will cost from $3.00 to $3.50 per week.

For further information address the Registrar.

The Christmas Delineator.

The December Delineator, with its message of good cheer and helpfulness, will be welcomed in every home. The fashion pages are unusually attractive, illustrating and describing the very latest modes in a way to make their construction during the busy festive season a pleasure instead of a task, and the literary and pictorial features are of rare excellence. A selection of Love Songs from the Wagner Operas, rendered into English by Richard de Gallienne and beautifully illustrated in colors by J. C. Leyendecker, occupies a prominent place, and a chapter in the Composers' Series, relating the romance of Wagner and Cosima, is an interesting supplement to the lyrics. A very clever paper entitled "The Court Circles of the Republic," describes some unique phases of Washington social life, and is from an unnamed contributor, who is said to write from the inner circles of society. There are short stories from the pens of F. Hopkinson Smith, Robert Grant, Alice Brown, Mary Stewart Cutting and Elmore Elliott Peake, and such interesting writers as Julia Magruder. L. Frank Baum and Grace MacGowan Cooke hold the attention of the children. Many Christmas suggestions are given in needlework, and the Cookery pages are redolent of the Christmas feast. In addition, there are the regular departments of the magazine, with many special articles on topics relating to woman's interests within and without the home.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck, and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg, of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases, by C. Y. Lowe, Druggist. Price 50cts and $1.00. Trial bottles free.

Home Circle Column

Crude Thoughts As They Fall From The Editorial Pen. Pleasant Evening Reveries. A Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

WRITE THEM A LETTER TO-NIGHT.

Don't go to the theatre, lecture or ball.
But stay in your room to-night;
Deny yourself to the friends that call,
And a good long letter write—
Write to the sad old folks at home.
Who sit, when the day is done,
With folded hands and downcast eyes,
And think of the absent one.
Write them a letter to-night.

Don't selfishly scribble, "Excuse my haste,
I've scarcely time to write,"
Lest their brooding thoughts go wandering back
To many a bygone night,
When they lost their needed sleep and rest,
And every breath was a prayer
That God would leave their delicate babe
To their tender love and care.
Write them a letter to-night.

Don't let them feel that you've no more need
Of their love and counsel wise,
For the heart grows strangely sensitive
When age has dimmed the eyes.
It might be well to let them believe
You never forget them quite—
That you deemed it a pleasure when far away,
Long letters home to write. Then—
Write them a letter to-night.

Don't think that the young and giddy friends
Who make your pastime gay,
Have half the anxious thoughts for you,
That the old folks have to-day.
For the sad old folks at home,
With locks fast turning white,
Are longing to hear of the absent one—
Oh, write them a letter to-night!

Of all the love affairs in the world, none can surpass the true love of a big boy for his mother. It is a true love and noble, honorable in the highest degree to both. We do not mean merely a dutiful affection; we mean a love which makes a boy gallant and courteous to his mother, saying to everyone plainly that he is fairly in love with her. We never yet knew a boy to "turn out" bad who began by falling in love with his mother.

It is a touching thought that those who grow up together in childhood, sit at the same table and at the same fireside, may, in after life, be separated by seas and continents, or by the valley of death. This reflection should tend to make them affectionate and kind to one another so long as they are united under one roof. It is a pleasant sight to behold a family dwelling together in peace and unity and gladness. Neither the poet nor painter can describe a happier scene.

One impatient member of the home circle is a wet blanket on the happiness of all. There is a sublime beauty in a patient life; in a life content with the work that has fallen to it. From the leaves of the trees the impatient ones may find a beautiful lesson. They were not created this spring, but months ago, and the summer now upon us will fashion others for another year. At the bottom of every leaf stem is a cradle, and in it is an infant germ; and the wind will rock it, and the birds will sing to it all summer long, and next season it will unfold. So God is working for you and carrying forward to the perfect development all the processes of your lives. Be patient.

We wonder how many of the boys who read this column realize the value of an education in cold dollars and cents, to say nothing of the many other advantages. Statistics show that the average salary of an educated man is $1,000 per year. He works on an average forty years, and receives a total of $40,000. The average wages of an uneducated man is $1.50 per day, and he works 300 days in the year, so in forty years he earns $18,000. The educated man gets $40,000, and the uneducated $18,000, and the $22,000 difference is the true value of the education. To acquire a good education takes about twelve years of the early life of a boy, and they are the happiest years of his life. In twelve years there are 2,160 school days, and these days bring to the boys who improve them $22,000, or a little more than $10 per day for each day spent in school. Now boys, for each day you miss school, just charge yourself up with $10 lost. These are cold facts gathered from statistics.

Never forget that God does not look so much on what we do as what made us do it. When a host of uncongenial things confront our daily lives and the burdens seem greater than we can bear, there comes too often the cross look, the unkind word, but let us remember that beyond the clouds of sorrow and disappointment, the sun is still shining. God is familiar with the burdens incident to our lives, and if back of the cross word and forgotten duty there lies the earnest endeavor to be brave and patient in the future, the unkindness which cast its shadow on our lives will vanish as a cloud floating in a summer sky. Let us never forget that a dutiful life will yield a richer harvest than a beautiful one.

Try for Health

222 South Peoria St.,
CHICAGO, ILL., Oct. 7, 1902.

Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

Georgia Dunbar

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?
