Crescent City News: Smith River is pretty well excited over a reported gold strike near Diamond creek. Several days ago John Taggart and James Cassidy came in from Diamond creek and reported at the above mentioned place that they had discovered rich placer diggings on the North Fork. To prove their assertions they showed some heavy gold taken from their prospect. All the surrounding country has been located by Smith River residents. Messrs. Cassidy and Taggart intend to put water on the ground at once and reap big profits.

Opens for Sunday, March 26th, at the Opera House. The play is a comedy-drama in three acts by Charles Ellis, which provides Master Dunbar, the greatest child actor on the American stage, as "Buster Brown," with just the sort of speeches that sound funny when he delivers them, but would not if spoken by any one else. The repetition of certain aside remarks which he interjects parenthetically and in the most irrelevant way as "Little Lord Fauntleroy" and other vehicles, contributes much to the merit of his scene. Instead of these little squibs and quirks becoming flat and stale, they sound funnier the more often they are repeated in the inimitable tones of Master Dunbar, who is ably assisted by James T. McGovern as Happy Hooligan. The musical numbers compel the owner, Mr. Hugh Ettinger, to carry a band and orchestra of solo players. The free concert given by these clever musicians on the above date in the afternoon and evening in front of the theatre is well worth coming miles to hear.

Myrtle Point Enterprise: We were shown some lemons, grown in Coos county, this week. Mrs. Geo. Griffith, of Gravel Ford, has a tree about four feet high, and has gathered the crop, which consists of six large lemons. In appearance the lemons are ahead of those usually shipped here.

Charles Hall, of Cedar Point, and one of Coquille's loggers, was in town yesterday, having come down to do business with Bandon merchants.

Mr. Hall, in talking with our reporter, informed him that the rise in the river had been sufficient to start the logs in good shape, and that they were very plentiful in the river on Monday. He said that information from the North Fork gave out that about 7,000 logs would come out of that stream. The freshest has been very beneficial to loggers, and the run coming late has given ample time for the booms to be cleared, so that there is plenty of room to store away all the logs that will come out. Mr. Hall is contemplating a change of residence to Randolph.

"Your Neighbor's Wife."

At Kime's Opera House, Sunday evening, March 26th, will be given one of the season's successes from the pen of Charles Ellis, and a return date is asked for by managers, as it catches their patrons from first to last, and people go away saying, "If we could always have good plays like that the theatre would always be filled." It is not a one or two act drama, as all parts are interesting. There are a number of songs used that more than please the majority of people, and in addition to the players, the owner, Hugh Ettinger, being compelled by the musical numbers in the production, to carry an orchestra of six high grade musicians. Be sure and hear the free concert on the above date.

Arrangements have been made with the steamer to carry persons along the river who wish to attend the entertainment, at excursion rates.

It would seem, from statements coming from the North Bend Citizen that the trouble between T. W. Clark and L. J. Simpson, in regard to the Woolen Mills, has not been settled yet.

Members of the Presbyterian church at North Bend have been making endeavor to retain Rev. Elliott who has been serving as pastor of that church there for some months past.

The Onward Abandoned.

The prospects for saving the schooner Onward terminated very suddenly Monday morning.

The work of rescuing her from her berth on the beach had been going forward very satisfactorily, and the prospect for floating the vessel looked very flattering; but, alas, for human hopes, the equinoctial storm was coming, and old ocean is susceptible to its influence.

The cable was aid during the latter part of last week, and on Saturday the tide rose sufficiently to get the vessel moved some sixty feet, and on Sun lay the work was continued until it looked as if another day would see the schooner floated off and towed to safety; but on Sunday night the sea became rough and the moorings began to give way, and on Monday forenoon the last of the fastenings parted, and the schooner drifted upon the beach to the northward against the rock, and Capt. Turner abandoned the task of trying to save her, as she was too badly injured to warrant further effort.

The storm came one day too early to save the vessel.

"Two years ago during a political campaign, I caught cold after being over heated, which irritated my throat and I was finally compelled to stop as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the Council." This remedy is for sale by C. Y. Lowe.
