Fine Bled Sheep

Our friend E. M. Langlois is a fancier of fine sheep and believes in improving his stock with the best.

This week he received an addition to his flock by the arrival of two full blood Cotswold bucks direct from the well-known Gurnes' flocks of England. Gurnes has for years been the leading costwold breeder of the world.

This is Mr. Langlois' second importation from England having received a fine buck from there three years ago, and he now prides himself upon having as fine a flock of sheep as are to be found in the state.

Those received this week were yearlings, and gave evidence of being fine wool producers. The wool was long and fine and on one of them hung down over the forehead completely concealing the eyes.

His first purchase was from imported stock and he has been breeding up his flock by getting the best that money could buy so that he has grounds for a little just pride as to the merit of his flock.

May vs Stuart

Port O. Ford August 21, 1905.

To the public of Port O. Ford and vicinity.

Mr. Stuart in the Tribune of the 16th, has an article entitled, "In defense of a Community." Stuart has got off on new lines, undoubtedly intentionally. What started this contention was the way Turner and myself were treated in the matter of the \$300 purse offered as an inducement for our race to come off at Port O. Ford. If our race was not considered an attraction, why did Turner and myself offer me \$75 to agree to run at Rogue River. The Port O. Ford crowd, including Nelson and Stewart, induced me to make in Port O. Ford as place to run as Turner had made the challenge. The \$300 purse was part of the inducement. Considering everything it cannot appear in any other light to me than that said purse was stolen, absolutely from me. And further that on account of said race not coming off, as advertised, I was injured financially, easily to the extent of \$200.

In view of the actions of those who guaranteed and handled said purse one cannot blame me for having doubts regarding the handling and accounting of the general 4th of July funds.

The public was deceived when the management failed to have said race run. In regard to "Men Friday" will say, "one who lives in glass houses should not throw stones." Stuart's lack of individuality naturally places him in "Men Friday class" and there he is doomed to stay all his life, if not acting in that capacity for his father, why of necessity some one else. Stuart in his last piece wants to arbitrate. Now I will in answer to same refer Mr. Stuart to a cartoon in "The Farm and Fireside," Aug. 15, under which appears the following: "If you don't take this medicine I will have to give you some more of those war pills, then how will you feel? Regarding the treatment accorded Turner and myself, at Port O. Ford, the 4th, the only way of paying of same is to ignore said town and pass it by in the future, and attend celebrations at more hospitable places. Stuart calls the "Globe" to task for printing my article. Now how can he reconcile himself to the fact that the Tribune, since H. T. Start stepped out of the Editorial Chair prints his lies and dirt, and where does the Man Friday come in as he calls him.

Yours Truly

Great Court convenes at Coquille on November 11th. Several Bandonians have been called to act as jurors, seven of thirty one having been drawn from this part of the county.

Mrs. Dan Walser and daughter and Mrs. William Lightner, from Walker's basin, Kern Co. California, who have been visiting Grandun Burrows and other relatives here during the last six weeks were passengers to San Francisco on the steamer Elizabeth yesterday on their return to their homes.

Joe Flinn made a five or six mile ride a few days ago in twenty minutes from some point on Barr Creek to town to call a doctor to resuscitate a boy whom Guy Drew and himself had found along side the road. A half hour covered the return trip and a dose of medicine soon brought consciousness and loosened the boy's tongue. Strange to relate, the lad immediately took on the savor, and manly talk of the toper. Instead of the boy having been thrown from a horse, as supposed by the good Samaritan, he and some other boys had in some mischievous manner become possessed with a bottle of whiskey, or hard cider, and the lad had got outside of about half the contents of the bottle. The other boys had left him along side the road.
