The Recorder is needing all subscriptions due, and is sending out statements as fast as possible, and will appreciate prompt response. The amounts generally are small, hence do not think that what you owe is unimportant. We need it.

Robert Ballard was in town Monday evening, and from him we learned that the Prosper Cannery had put up nearly 8,000 cases of salmon. The run of fish has slackened, but it has been one of the largest that has taken place for some years. The cannery here has put up over 7,000 cases.

F. W. Smith, the fish warden from North Fork, is down looking after the duties of his office. Some of the fishermen did not comply with the provisions of the law by properly marking boats and nets. Most of them have plead guilty and paid their fine. F. A. Holman will stand trial today.

The Knights of Pythias are still moving forward arrangements for their annual Ball, and their posters will appear in two or three days. ## Saturday Night

**Oct. 28th**

The Conference of the M. E. Church South, has returned Rev. H. M. Branham to the charge at Coquille.

The North Bend Furniture Factory has been sold, and the statement is made that it will start up again soon.

A number of Bandon residents have visited fruit growers, on the lower Coquille Valley, during the past week or two and laid in a supply of apples for the winter.

J. D. Stewart started for Roseburg last Sunday morning with his brother-in-law and wife, Mr. and Mrs. J. D. Bain, who have been visiting Mr. Stewart and family for some time.

Mr. Bain and wife have gone back to their home in Kansas.

Coast Mail: Judge Bailey, of Gold Beach, who underwent an operation at the Horsfall hospital some weeks ago, was sufficiently recovered to leave that institution yesterday. The Judge, will, however, remain in town a week or two before returning to his home.

The De-Mills-Bentley Comedy Company showed here last Friday and Saturday nights, but the theatergoers of Bandon are not very enthusiastic over their entertaining ability. Generally speaking the show was a very common affair. Their Sunday afternoon matinee was declared off on account of failure of attendance. One actor, however, was exceptionally good; Happy Watson was the lone star in the group.

Coast Mail: Justis Seline came into town this morning for medical assistance, having a rather badly injured eye which required attention. Mr. Seline was rafting with E. Wittick, and was steering the boat down Coos river yesterday morning, when, feeling the need of a smoke, he requested one of his companions to fill his pipe for him. The boys put powder in the bottom of the pipe, thinking to play a practical joke on Mr. Seline. The powder exploded, injuring his eye, and illustrating the criminal idiosyncrasy of such practical jokes.

On October 28th, the Bandon Concert Band will give their first indoor Entertainment for the Winter season. For this occasion they have been extremely fortunate in securing the favorite specialty artist, Miss Rita Gardner, known on the Concert and Vaudeville stage as the favorite and always charming artist, ably assisted by Vernon and Mildred Valentine in their double specialties. G. A. Armitage, of Marshfield, shot and killed Mrs. Rachel Stoops of that place last Tuesday. The woman defended herself and shot Armitage three times before he succeeded in killing her. Both are dead. Armitage seems to have been infatuated with the woman who discouraged his attentions. Mrs. Stoops leaves a husband and five children, aged from 2 to 15 years.

## School Notes.

School opened this week with a few new scholars. Miss Waldvogel had two for the Sixth Grade.

There is some sickness in the intermediate rooms, several pupils having chicken pox.

The Librarian has been kept very busy since school begun. Miss Walstrom's pupils seem to take the most interest in this line.

The first Fire Drill was held last Tuesday afternoon, but it was not much of a success; one of the young ladies of the Advanced Tenth Grade was so excited that she fell down stairs.

Misses Walstrom, Waldvogel and Wilkins have been cleaning and improving their rooms by washing the windows and putting up curtains and pictures.

The Advanced Tenth Grade held their usual meeting Tuesday evening, and selected their class colors and motto. Their colors being Old Rose and Green, and their motto, "Transimus sinus led oceanus ultra jacet" or, "We have crossed the bay, the ocean lies beyond."

The Advanced Tenth have been having a difficult time with their Rhetoric this week, but the storm seems to be clearing away. E. B. S.

Del Norte Record: The coast railroad survey party completed work this week in the neighborhood of the Klamath river. They started a survey on Prairie creek, about ten miles on the south side of the Klamath river, and worked northward.

They will now proceed south from Prairie creek, and probably by early spring will be opposite Trinidad, Humboldt county. Thorough work being done makes the laying out of the line slow. The camp was moved thirteen miles south of the Klamath yesterday.

The gasoline schooner Oakland put in an appearance here last Saturday, being 3½ days in coming from San Francisco. The Oakland is a small schooner and will carry something over a hundred M feet of lumber, making headway at about 7 miles an hour under favorable circumstances.

She brought in some freight and had also a consignment of freight to deliver at Siuslaw, from which place she intended taking a load of lumber to the city, but having broken some part of her machinery, she had a casting made at the foundry here, and the break repaired, hence she unloaded on lumber at Carman & Crites mill, and will go back to San Francisco.

On her return she will go on to Siuslaw, and after visiting the city the second time will come here again according to present arrangement.

Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At C. Y. Lowe, Druggist. Guaranteed. 50c and \$1. Trial bottle free.

## The Raymond Company.

The Great Raymond Co. that showed here Monday and Tuesday nights is about the best troupe that has yet been seen in Bandon. Every number was excellent.

Mr. Raymond is certainly a wizard. The way he manages to extricate himself from handcuffs is wonderful. His trunk mystery is almost supernatural. But the way he managed to adorn your humble editor with tin cans, sleigh bells, and the like, with his hands securely tied, is the most marvelous thing he accomplished.

The other members of the company were good.

Gonzola, the contortionist, is finished in his line. Miss Cross is very clever in her comedy impersonations.

Eddie Van is very funny, and his cartoon work is the best seen here. Al Martella, the acrobat, convulsed the audience. His head must be made of iron. Miss O'Neal is a remarkable singer for a woman. She has a rich baritone voice.

Mr. Raymond's work in hypnotism is far more successful than any other that has appeared here.

The company will return soon, presenting a new program, and will be greeted with a crowded house as Bandonites appreciate a good, clean entertainment.

## For an Eight Hour Day.

R. W. Getty, special organizer of the Shipwright's Association visited this section a few days ago as representative of the organization and for the purpose of furthering the interests of the craft in Coos county.

The object of Mr. Getty's visit was to introduce or bring about such action among the builders and ship carpenters in Coos that would result in the adoption of an eight hour day, instead of working ten hours as is now the custom.

In his travels on this trip Mr. Getty had gone as far north as Vancouver, in British Columbia and had visited all the shipyards from there down, and before finishing his trip would visit these between Coos and San Francisco.

He is an enthusiast in the way of organization and its benefits to the laboring class, and in all his travels to shipyards on the coast, Coos county is the only place that has longer than eight hours labor in the yards, and so far as his association with the shipwrights in Coos had been extended the conditions seemed favorable to fall into line.

Under present conditions organization of the laboring classes has been necessary in order to stand off the encroachment of capital. Strikes are costly experiments but it is claimed that but few have taken place in which gains have not accrued to the laboring classes. Even those in which the organizations have seemingly lost, it is claimed, have after the expiration of a few months, resulted in bringing about the desired condition.

Organization has brought about many desirable changes which has bettered the laboring classes, chiefly among which changes has been the reduction of hours constituting a day's work. Of the man working in the large cities it may be said that it gives him a chance to become acquainted with his family, as under the old regime in many cases he was up and gone before his children were out of bed and did not return until they had been sent to rest for the night.

Then it became necessary to stop encroachment of capital and shut out competitive labor as capital too frequently dictated the terms by giving labor the option of coming to its terms or not being employed.

While we do not look upon the present order as being the best means to secure equality, yet under present conditions labor must stand together to keep from being crushed.

It is a bad habit to borrow anything, but the worst thing you can possibly borrow, is trouble.
